Government Canada Winter Spring 2016:

The Future of Open Data Pamela Robinson, Teresa Scassa, 2022-05-24 The Future of Open Data flows from a multi year Social Sciences and Humanities Research Council SSHRC Partnership Grant project that set out to explore open government geospatial data from an interdisciplinary perspective Researchers on the grant adopted a critical social science perspective grounded in the imperative that the research should be relevant to government and civil society partners in the field This book builds on the knowledge developed during the course of the grant and asks the question What is the future of open data The contributors insights into the future of open data combine observations from five years of research about the Canadian open data community with a critical perspective on what could and should happen as open data efforts evolve Each of the chapters in this book addresses different issues and each is grounded in distinct disciplinary or interdisciplinary perspectives The opening chapter reflects on the origins of open data in Canada and how it has progressed to the present date taking into account how the Indigenous data sovereignty movement intersects with open data A series of chapters address some of the pitfalls and opportunities of open data and consider how the changing data context may impact sources of open data limits on open data and even liability for open data Another group of chapters considers new landscapes for open data including open data in the global South the data priorities of local governments and the emerging context for rural open data Canada's Army J.L. Canadian Labour Policy and Politics John Peters, Don Wells, 2022-11-01 Canadian Labour Policy and Politics is essential reading for undergraduates studying Canada s labour market This comprehensive textbook traces the causes and rise of labour inequities and outlines solutions for a more sustainable future Written in clear and accessible language by leading experts and practitioners this book demonstrates how and why laws and public policy intended to protect workers often leave employees vulnerable and with little economic or social security Based on up to date data and framed in the context of international developments this essential text provide readers with real world examples and case studies of how globalization labour laws employment standards COVID 19 and other issues affect workers on and off the job Canadian Labour Policy and Politics invites students into defining a policy agenda for developing greater economic equality and political inclusiveness while fostering a green recovery Key features include chapter summaries and outlines suggestions for further reading and glossaries of key terms **Natural Disasters and Risk Management in Canada** Nirupama Agrawal, 2018-03-27 These

chapters provide valuable and comprehensive information on a variety of hazards including both scientific and social aspects of disasters. The work introduces the concept of large, medium and small scale hazards and includes many useful case studies as well as working examples of theoretical concepts. As readers will acknowledge today, the distinction between natural and technological hazards is becoming blurred and a new concept of NATECH hazards is evolving. For permanent hazards such as tides, wind, waves, coastal erosion and climate change, routine predictions are made, whereas for evanescent hazards including droughts, sea level rise and coastal subsidence, monitoring of various parameters is the norm. Only for episodic hazards, for example hurricanes, winter storms, tsunamis and river floods, early warning systems are used with varying degrees of success. The book explores how, for certain episodic hazards like tornadoes, landslides, forest fires, snow avalanches and volcanic eruptions, the early warning systems are still in various stages of development. Readers will gain knowledge of theoretical and practical concepts of risk evaluation which assist in better understanding of disaster dynamics and readers will become better equipped in quantification of disaster risk and vulnerability. The author explains how risk reduction initiatives taking into account stakeholders' participation and perception can provide a roadmap to building resilient communities and cities. This book will be useful not only to practitioners of disaster management but also to research scholars and graduate students. It is highly readable and will appeal more broadly too to all those who are interested in the very latest thinking on and expert analysis of hazards and disasters. *Achieving sustainable cultivation of wheat Volume 2* Prof. Peter Langridge, 2017-07-31

Canada: The State of the Federation 2017 Elizabeth Goodyear-Grant, Kyle Hanniman, 2019-10-16 In October 2015 the federal Liberals came to power with sweeping plans to revamp Canada's democratic and federal institutions, a modernizing agenda intended to revitalize Canada's democratic architecture. The centrepiece of the agenda was the replacement of Canada's first past the post electoral system but they also promised to revitalize relations with the provinces, bring Indigenous Peoples into the intergovernmental fold and to change the ways in which senators and Supreme Court justices are appointed. How has the reform agenda fared? Has it resulted in a more effective and democratic set of political and federal institutions? Or has it largely failed to deliver on these objectives? What more broadly is the state of Canada's democratic and federal institutions? The Queen's Institute of Intergovernmental Relations used the occasion of Canada's 150th birthday to examine these pressing issues. The 2017 volume in the *State of the Federation* series focuses on enduring questions about the functioning of federalism and intergovernmental relations in

Canada including how we should evaluate the quality of Canada's institutions and practices in light of our federal structure and how current institutional arrangements and their possible alternatives fare according to these criteria **Canada is Not Back** Jocelyn Coulon, 2019-04-30 In October 2015 Canadians elected a prime minister who promised to rehabilitate Canada's reputation globally Justin Trudeau the free world's best hope according to Rolling Stone Magazine cultivated his image as a staunch advocate for a generous liberal international order maintaining peace helping migrants and refugees seeking dialogue and enhancing relations with other countries and reengagement with the UN Foreign affairs expert Jocelyn Coulon had a front row seat as a key Liberal party advisor during the election and early days of the Trudeau government Coulon describes the ambitious policy proposals of candidate Trudeau He analyses some key actions of Trudeau the prime minister What he sees is more of the same approach that came from the ten years of Harper government Coulon focuses on the Trudeau campaign to win a UN Security Council seat in 2020 a campaign he sees as doomed to failure He describes how an election commitment to re-engage Canadian forces in peacekeeping yielded a carefully developed plan to send troops to Africa which Trudeau and his closest advisors killed at the last minute In other areas like relations with China the United States and Russia looking good in the media triumphs over careful policy making to advance Canadian interests Readers interested in Justin Trudeau's approach to international affairs will find this a timely engaging and revealing book

Aspiring in Later Life Megha Amrith, Victoria K. Sakti, Dora Sampaio, 2023-07-14 In our highly interconnected and globalized world people often pursue their aspirations in multiple places Yet in public and scholarly debates aspirations are often seen as the realm of younger mobile generations since they are assumed to hold the greatest potential for shaping the future This volume flips this perspective on its head by exploring how aspirations are constructed from the vantage point of later life and shows how they are pursued across time space and generations The aspirations of older people are diverse and relate not only to aging itself but also to planning the next generation's future preparing an ideal retirement searching for intimacy and self realization and confronting death and afterlives Aspiring in Later Life brings together rich ethnographic cases from different regions of the world offering original insights into how aspirations shift over the course of life and how they are pursued in contexts of translocal mobility This book is also freely available online as an open access digital edition Download the open access book here
