Guide Pratique Drones Juniper:

The Complete Guide to Drones Extended 2nd Edition Adam Juniper, 2018-05-03 If you think you need a boarding pass to fly you're really missing out. Today drones are everywhere. From film studios to farms they're in the hands of photographers, commercial surveyors and racers alike. This fully illustrated book explains how drones developed, where they're going and which one you should choose. It even includes complete instructions to build both a simple drone and a super fast FPV racer yourself. Whether you're flying indoors or out, buying or building, this book covers everything. Understand the Jargon. Flying has a lot of unfamiliar terminology but this book will make it easy to master. Business or Pleasure. Every type of multicopter you might want is introduced including explanations of which is best suited for what role. Get the Best Pictures. This edition includes an extended guide to the tech and composition tricks you can use to make your pictures stand out of the pack. Get the Best Video. A new shot guide shows you how to get the most engaging aerial video whatever your drone. Be a Winning FPV Racer. There are two complete step by step instructions for building your own drones: inside an FPV racer or a surprisingly cheap wooden drone, both great projects. Following the worldwide success of the first edition which has been translated into numerous languages, this second edition is not only fully updated to keep pace with the laws and technology but also extended to thoroughly cover the fast growing new sport of FPV drone racing while still including a comprehensive guide to learning to fly any drone.

The Complete Guide to Drones Adam Juniper, 2016-05 Welcome to the world of drones. This book will show you everything you could ever want to know about buying and flying your first drones. From getting to grips with the jargon you'll need to speak to other flyers to how you can design and build your own drone with advanced features like live video feedback and programmable autopilot. You'll even learn how to read a sectional chart that a pilot's map sees you're learning already. This book is your gateway to the fun and the learning that awaits and it'll keep you safe in the skies too.

The Complete Guide to Drones Extended 2nd Edition Adam Juniper, 2015-11-12 The only thing growing faster than the drone market is the amount of misinformation about them. Almost overnight popular drones like the instantly recognisable DJI Phantom have created a billion dollar industry with a foothold in everything from movie making to the toy market. This book shows you everything there is to know about drones, multicopters, UAVs including what really is the correct term for them in plain jargon free English. Find out how they work, how to fly them, how to choose the right drone for you, how to take amazing photos and videos from above and more. The text is accompanied with clear illustrations and brand new photography. Also included is a complete step by step project to build your own modestly priced drone, great as a first step into the world of drones, fun for one, perfect as an educational project for parent and child. In addition there is a layman's guide to the crucial legal issues around drone flying and there is an accompanying website with video clips and community links. This book is all you need to take to the skies.

The Drone Pilot's Handbook Adam Juniper, 2016-05-05 The perfect companion for anyone buying or thinking of buying a drone, whether it's just for fun to race against friends or to give their

give their photography a whole new angle The Drone Pilot s Handbook gives you the skills and techniques you need to fly and maintain your multicopter drone tips for tuning it for maximum performance and importantly a clear graphical guide to where the law will and won t allow you to fly Meanwhile spectacular aerial photography from around the world will inspire you to get airborne immediately Occasional boxouts provide safety tips handy ideas and URLs and flying instructions are presented with attractive original illustrations This clean approach that makes a welcome contrast to ugly online forums or the PDFs that drone manufacturers provide and will have you up and away in no time *Los últimos avances de la*
