Yamikani Ndasauka, Grivas Muchineripi Kayange, 2019-06-12 This book explores both the existence and prevalence of addiction in South and East Africa departing from traditional assumptions about addiction in the region The authors employ an interdisciplinary approach to understand the actual prevalence of addiction and the forms it takes in South and East Africa The book also addresses the perceptions and conceptualisation of addiction in the region in addition to discussing specific issues related to drug and alcohol abuse and addiction social media addiction and sex addiction A Companion to Contemporary Britain 1939 - 2000 Paul Addison, Harriet Jones, 2008-04-15 A Companion to Contemporary Britain covers the key themes and debates of 20th century history from the outbreak of the Second World War to the end of the century Assesses the impact of the Second World War Looks at Britain's role in the wider world including the legacy of Empire Britain's special relationship with the United States and integration with continental Europe Explores cultural issues such as class consciousness immigration and race relations changing gender roles and the impact of the mass media Covers domestic politics and the economy Introduces the varied perspectives dominating historical writing on this period Identifies the key issues which are likely to fuel future debate Professional Social Work in East Africa Helmut Spitzer, M.

Twikirize, 2014-10-28 Prevalent poverty and related problems in the East African region call for substantial action from various stakeholders including social workers This book based on comprehensive empirical research portrays an emerging yet powerful profession that has a significant role to play in the endeavour towards social development social justice human rights and gender equality The book is the first of its kind to provide first hand theoretical and empirical evidence about social work in East Africa **The Oxford Guide to the Bantu Languages** Lutz Marten, Ellen Hurst-Harosh, Nancy C.

Kula, Jochen Zeller, 2025-08-19 This volume brings together leading scholars from Africa Europe the Americas and beyond to provide a detailed account of the languages of the Bantu family which cover an area from Cameroon and Kenya in the north to South Africa in the south The Bantu family is part of the Niger Congo phylum and one of the world's biggest language groups comprising around 500 languages The family includes major languages with large numbers of speakers such as Zulu Kinyarwanda and Swahili the most widely spoken and taught African language as well as many community languages and several endangered languages Bantu languages feature prominently in the complex and multilingual language ecologies that are characteristic of the linguistic situation in much of Africa and they provide rich evidence for the study of theoretical and

comparative linguistics language contact and language change They play an important role in education commerce culture and artistic expression in the media and public discourse in governance and social justice and are central to the future of the continent and the well being of its communities The first part of The Oxford Guide to the Bantu Languages provides background and context with chapters exploring the history of research in the field language and prehistory in Bantu speaking Africa and typology and variation Chapters in the second part offer broad comparative overviews of Bantu phonology morphology syntax semantics and pragmatics socio and applied linguistics before Parts III VII cover more specific topics in Bantu linguistics across a variety of subfields ranging from structural issues such as the augment and melodic tone to historical and sociolinguistic topics such as Bantu languages in the diaspora and language policy and standardization The chapters in the final part offer individual structural overviews of a range of languages from across the Bantu speaking area The book will be an essential resource for students and researchers specializing in the Bantu languages and for typologists and comparative linguists more broadly

*Assessment of Maritime Piracy in East Africa* Vincent C. Figliomeni, 2017-04-26

The rationale for writing this book is a desire to highlight the utility of combining the efforts of criminologists security practitioners and policy makers in confronting crime problems such as maritime piracy The study examines maritime piracy incident trends over the past few years and presents an explanation for the significant reduction of incidents in East Africa and offers a new approach in constructing a crime reducing framework applicable to piracy as well as other crime problems The intent is to add relevance to the pursuit of social science research crime data collection and analysis using criminological theories frameworks and planning techniques for developing crime interdiction strategies that are useful to security practitioners and policy makers Emphasis is on obtaining readily available data using recognized social science methods to analyze the maritime piracy crime phenomenon for planning and developing the strategies and actions that produce desired outcomes in support of crime reduction This approach involves identifying appropriate tasks or actions to be taken to achieve the desired effects for each objective and subobjective It includes an evaluation process of the most salient variables in order to produce assessments that will focus on measuring those actions that have the greatest impacts for generating the most favorable conditions in the environment desired effects that are conducive to achieving supporting subobjectives and overall objective i e maritime piracy reduction This approach creates a framework using selected crime theory elements for examining quantitative and qualitative data for planning counterpiracy actions through a dynamic planning and assessment process

*Guide to Standard Floras of the World* David G. Frodin, 2001-06-14 This 2001 book provides a selective annotated bibliography of the principal floras and related works of inventory for vascular plants The second edition was completely updated and expanded to take into account the substantial literature of the late

twentieth century and features a more fully developed review of the history of floristic documentation. The works covered are principally specialist publications such as floras, checklists, distribution atlases, systematic iconographies and enumerations or catalogues, although a relatively few more popularly oriented books are also included. The Guide is organised in ten geographical divisions with these successively divided into regions and units, each of which is prefaced with a historical review of floristic studies. In addition to the bibliography, the book includes general chapters on botanical bibliography, the history of floras and general principles and current trends, plus an appendix on bibliographic searching, a lexicon of serial abbreviations and author and geographical indexes.

**Public Participation in the Governance of International Freshwater Resources** Carl E. Bruch, 2005. Bruch, a senior attorney of the Environmental Law Institute, presents work from an April 2003 symposium co-sponsored by the Environmental Law Institute, the United Nations University and other institutions. Papers from the symposium identify innovative approaches in watershed management and look at political, linguistic, legal, cultural and geographical issues.

**Climate Change and Rainfall Extremes in Africa** Victor Ongoma, 2025-04-21. Climate Change and Rainfall Extremes in Africa: Occurrence, Impacts and Adaptation provides the latest developments on extreme rainfall in Africa along with an analysis of current impacts, future implications and community adaptations. The book's chapters are organized into three parts: 1. Understanding Rainfall Extremes, 2. Regional Rainfall and Hydrological Extremes, and 3. Prediction, Impacts and Adaptation to Rainfall Extremes. Specific sections examine rainfall variability in Africa and across the world, how climate change has contributed to the increasing severity of events, focus on different regions and various meteorological extremes including tropical cyclones, drought, flooding, rising water levels and changes in rainfall concentration. Final sections look ahead to the future of forecasting rainfall, economic implications, damage assessment, adaptation, community resilience and risk reduction measures. This timely resource will deepen readers' understanding of how climate change and extreme rainfall in Africa and elsewhere are impacting communities and what can be done to mitigate the effects. Provides a conceptual framework that gives readers an interdisciplinary understanding of climate change and rainfall extremes in Africa. Includes case studies that offer practical examples and real world data. Presents end of chapter summaries that highlight findings and future implications.
