Historia general de las drogas I y II + Aprendiendo de las drogas Antonio Escohotado, 2017-11-20 El ser requiere cosas del mundo pero no entra en relación con sus penurias sino a través del siervo que se ocupa de transformarlo antes El psiquismo humano depende de aportaciones externas pero no toca esas materias sino a través del cuerpo que las metaboliza previamente Con todo algunas moléculas no se transforman en nutrición y provocan de modo directo un tono anímico Desde ojos cartesianos son modalidades de cosa extensa que incumplen la regla e influyen sobre la cosa pensante A caballo entre lo material y lo inmaterial lo milagroso y lo prosaico por el juego de un mecanismo puramente químico ciertas sustancias permiten al hombre dar a las sensaciones ordinarias de la vida y a su manera de querer y pensar una forma desacostumbrada Aunque el efecto solo resulte parcial y pasajero engaña al ser humano aunque nada sea gratis la posibilidad de afectar el ánimo con un trozo de cosa tangible asegura ampliamente su propia perpetuación Para los seres humanos comer dormir moverse y hacer cosas semejantes resulta inesencial cuando no imposible en estados como el duelo por la pérdida de un ser querido el temor intenso la sensación de fracaso y hasta la simple curiosidad En ello se manifiesta la superioridad del espíritu sobre sus condiciones de existencia y en poder afectar los ánimos mismos reside lo esencial de algunos fármacos potenciando momentáneamente la serenidad la energía y la percepción permiten reducir del mismo modo la aflicción la apatía y la rutina psíquica Esto explica que desde el origen de los tiempos se hayan considerado un don divino de naturaleza fundamentalmente mágica
