Hiroshige's Journey in the 60-odd Provinces Marije Jansen, 2004 Utagawa Hiroshige 1797 1858 designed a series of seventy landscapes depicting the provinces of Japan between 1854 and 1856 It was the first in a number of sets from the highly productive years of his later life The designs comprising Famous Places in the 60 Odd Provinces Rokuju yoshu meisho zue are taken from all corners of Japan thus representing an enormous innovation in the choice of subject matter Large sets published before this had depicted the famous routes between Edo and Kyoto the Tokaido and the Kisokaido but Hiroshige had never before ventured beyond these well known themes The Japanese countryside was already depicted in graphic art but mostly in travelers guidebooks and not as full color prints With this set Hiroshige brought the Japanese countryside closer to the urban population It evidently met with high acclaim the publisher Koshimuraya Heisuke produced a large number of impressions In this study the author Marije Jansen briefly discusses Hiroshige s life and the formal aspects of this series Jansen takes as her point of departure the set in possession of the German collector Gerhard Pulverer which is generally acknowledged to be a superb example of a first edition and compares this series to a number of other sets in public and private collections The detectable printing variations in each design are carefully analyzed making this an indispensable tool for collectors *Impressions* ,2003

It is in the same horizontal format for landscapes that Hokusai used. In a subsequent series Thirty six Views of Mount Fuji published in 1858 Hiroshige shifted to the vertical portrait format with novel and interesting results. We deal with that in a separate volume. It is possible to travel to see the same sites today and enjoy the views of Mt Fuji which is still very important to the Japanese. Utagawa Hiroshige in Japanese also called And Hiroshige in Japanese was a Japanese ukiyo e artist considered the last great master of that tradition. He was born 1797 and died 12 October 1858. Ukiyo e is a genre of Japanese art which flourished from the 17th through 19th centuries. Its artists produced woodblock prints and paintings of such subjects as female beauties, kabuki actors and sumo wrestlers, scenes from history and folk tales, travel scenes and landscapes, flora and fauna and erotica. The term ukiyo e translates as picture s of the floating world. Hiroshige is best known for his horizontal format landscape series The Fifty three Stations of the T kaid and for his vertical format landscape series One Hundred Famous Views of Edo and for instance the 69 Stations of the Nakasend. The main subjects of his work are considered atypical of the ukiyo e genre whose focus was more on beautiful women, popular actors and other scenes of the urban pleasure districts of Japan's Edo period 1603 1868.
