Hiroshima 31 August 1946:

The Evolution of Nuclear Strategy Lawrence Freedman, Jeffrey Michaels, 2019-07-31 *The Evolution of Nuclear Strategy* quickly established itself as a classic when it first appeared in 1981. This edition makes it even better incorporating as it does new material about the Cold War and updating to include subsequent developments. Filled with insights and penetrating analysis, this volume is truly indispensable. Robert Jervis, Author of *How Statesmen Think*. Freedman and Michaels have written a thorough and thought-provoking guide to nuclear strategy. The authors analyze the causes of both wise and unwise strategic decisions in the past and thereby shine a bright light on dilemmas we face in our common nuclear future. Scott Sagan, Stanford University, USA. With its comprehensive coverage, clear and direct language, and judicious summaries of a vast literature, this new and wholly revised edition of *The Evolution of Nuclear Strategy* will be essential reading for any student of nuclear history, strategic studies, or contemporary international relations. Matthew Jones, London School of Economics and Political Science, UK. Sir Lawrence Freedman's *The Evolution of Nuclear Strategy* has been the first port of call for three generations of academics and policy makers wanting to familiarize themselves with the subject matter. The success of this book could have led Professor Freedman to satisfy himself with regular updates or afterwords. But the tireless author is now gracing us with an entirely revised edition of his masterpiece nearly forty years after its initial publication, taking into account findings from archives and declassified documents. At the same time, *The Evolution of Nuclear Strategy* remains true to its original purpose and spirit: an easy-to-read manual, light with footnotes, focusing on policy rather than on theory, and thus the best possible introduction to an arcane subject. In an era when nuclear strategy issues seem to be becoming relevant again, its historical scope and breadth will make its reading or re-reading even more useful, if only because knowing about the absurdity of the Cold War arms race is a prerequisite if one does not want to repeat its mistakes. Bruno Tertrais, Deputy Director, Fondation pour la Recherche Stratégique, France. This updated and improved edition of the classic text on the evolution of nuclear strategy is a must-read for anyone attempting to understand the nuclear predicament and where it is heading. Impressive in every respect. T. V. Paul, James McGill Professor of International Relations, McGill University, Canada, and the author of *The Tradition of Non-Use of Nuclear Weapons*. After the end of the Cold War, we hoped for a world in which nuclear weapons would have low salience or might even disappear into virtual non-assembled arsenals. Alas, they are coming to the fore again. With changes in political context and technology, it is thus pressing that the Bible on the Evolution of Nuclear Strategy should be updated. Lawrence Freedman's great classic has been admirably updated with the help of Jeff Michaels. The work, just as its previous editions, thus remains the definitive and authoritative point of reference on nuclear strategy in the twenty-first century. Beatrice Heuser, Chair of International Relations, University of Glasgow, Scotland. First published in 1981, Lawrence Freedman's *The Evolution of Nuclear Strategy* was immediately acclaimed as the standard work on the history of attempts to cope militarily and politically with the terrible destructive power of nuclear weapons. It has now

been completely rewritten drawing on a wide range of new research and updated to take account of the period following the end of the cold war and covering all nuclear powers

Provisional Cities Renata Tyszczyk, 2017-11-02 This book considers the provisional nature of cities in relation to the Anthropocene the proposed geological epoch of human induced changes to the Earth system It charts an environmental history of curfews admonitions and alarms about dwelling on Earth Provisional cities are explored as exemplary sites for thinking about living in this unsettled time Each chapter focuses on cities settlements or proxy urbanisations including past disaster zones remote outposts in the present and future urban fossils The book explores the dynamic changing and contradictory relationship between architecture and the global environmental crisis and looks at how to re position architectural and urban practice in relation to wider intellectual environmental political and cultural shifts The book argues that these rounder and richer accounts can better equip humanity to think through questions of vulnerability responsibility and opportunity that are presented by immense processes of planetary change These are cautionary tales for the Anthropocene Central to this project is the proposition that living with uncertainty requires that architecture is reframed as a provisional practice This book would be beneficial to students and academics working in architecture geography planning and environmental humanities as well as professionals working to shape the future of cities

The Spectre of Defeat in Post-War British and US Literature David Owen, Cristina Pividori, 2021-01-22 It is a commonplace belief that history is written by the victorious However less recognised but equally common is the idea that the defeated also write history even if their particular account is rather different This collection looks at these matters from a novel and distinct perspective It essentially presents the idea that victors often perceive themselves as defeated by examining the ways in which the idea of defeat comes to dominate the victors own sense of superiority and achievement thereby undermining the certainties that victory is conventionally thought to create The contributions here discuss fiction mostly UK and US published since the First World War Through the frameworks of experience memory and post memory they examine this subliminal defeat basically as seen in conflict itself in the societies that it affects and in the individual lives of those who it destroys The result is an innovative literary account of the victorious yet somehow defeated

Jallad Tasneem Khalil, 2015-12-20 Extrajudicial execution enforced disappearance and torture these are the tools used by death squads across South Asia Across the region human rights abuses are perpetrated behind the closed doors by the jallad or hangmen of secret detention facilities while death squads roam the streets with impunity By using first hand experience and newly discovered sources Tasneem Khalil connects these abuses to a disturbing fact that Bangladesh India Nepal Pakistan and Sri Lanka are national security states connected to an international system of state terror patronised by sponsors like the United

States the United Kingdom China and Israel Looking at infamous enforcers such as The Rapid Action Battalion of Bangladesh the encounter specialists of India army units of Nepal the Frontier Corps of Pakistan and the men in white vans of Sri Lanka Khalil reveals a huge system of specialists in violence deployed by the state in campaigns of state terror a bloody logic of domination and repression that lies at the very core of statecraft in South Asia **Nelson Algren** Richard F.

Bales,2024-11-07 This book addresses critical gaps in existing biographies of Nelson Algren providing new perspectives on his writing style literary contributions professional colleagues and personal life especially his relationship with Simone de Beauvoir Although Beauvoir maintained a simultaneous relationship with philosopher Jean Paul Sartre the correspondence exchanged between Beauvoir Algren and Sartre as this book discusses sheds new light on her transatlantic love affair with Algren Moreover this work challenges the assertion that Algren s writing aligns seamlessly with the New Journalism style popularized by Tom Wolfe It investigates how Algren s literary legacy might have diverged had he embraced more of the principles associated with New Journalism *Atomic Narratives and American Youth* Michael Scheibach,2015-09-17

Following the atomic bombings of Hiroshima and Nagasaki numerous atomic narratives books newspapers magazines textbooks movies and television programs addressed the implications of the bomb Post World War II youth encountered atomic narratives in their daily lives at school at home and in their communities and were profoundly affected by what they read and saw This multidisciplinary study examines the exposure of American youth to atomic narratives during the ten years following World War II In addition it examines the broader social narrative of the atom which included educational social cultural and political activities that surrounded and involved American youth The activities ranged from school and community programs to movies and television shows to government sponsored traveling exhibits on atomic energy The book also presents numerous examples of writings by postwar adolescents who clearly expressed their conflicted feelings about growing up in such a tumultuous time and shows how many of the issues commonly associated with the sixties generation such as peace fellowship free expression and environmental concern can be traced to this earlier generation **The**

Gigantic Cinema: A Weather Anthology Paul Keegan, Alice Oswald, 2021-11-16 A luminous deliciously playful Rishi Dastidar Guardian anthology of poems and prose inspired by the weather In three hundred varied entries Gigantic Cinema narrates the weather of a single capricious day from dawn through rain volcanic ash nuclear dust snow light fog noon eclipse hurricane flood dusk night and back to dawn again It includes reactions both formal and fleeting weather rhymes journals and jottings diaries and letters to the imaginary and actual drama unfolding above our heads Ranging from Homer s winds and Ovid s flood to Frank O Hara s sun Pliny s reportage on the eruption of Vesuvius to Elizabeth Bishop s Song for a Rainy Season Gigantic Cinema offers an expansive collection of writing inspired by the commotion of the elements Rather than drawing attention to authors and titles entries appear as a medley of voices as editors Alice Oswald and Paul Keegan write in their stunning introduction the excerpts ask to be read with no hat no coat no preconceptions encountering each voice abruptly as an exclamation brought on by the weather Assembling a chorus of responses ancient and modern East and West to air s manifold appearances Gigantic Cinema offers a new perspective on the oldest conversation of all Challenging Nuclear Pacifism in Japan Masae Yuasa, 2023-10-02 Is Japan abandoning its pacifism The Japanese government has claimed it is doubling its defense spending and has announced a plan to equip itself with the capability to counterattack enemy bases

overseas a departure from the nation's postwar consensus. Shedding new light on Japan's pacifism and Hiroshima's role in it, Yuasa investigates the events of postwar Japan and how it catalyzed a range of challenges to public sentiment. Japan's Constitution stipulates the renunciation of war and forbids using force to settle international disputes. This radical shift has been led by Fumio Kishida, the prime minister whose constituency is Hiroshima, the atomic bombed city symbolizing Japan's postwar pacifism. This book is about Hiroshima's local nuclear politics and popular consciousness about pacifism. Based on published and unpublished local documents and participant observation, it describes how postwar global and national power has formulated local politics and discusses the impact of local struggles on national and global politics. The key concept is imaginary. Institutionalized imaginary effectively channels people's suppressed desires and emotions into coordinated action in the society. The current political crossroad of Hiroshima and Japan is interpreted as a terrain constructed over the last half century by three paradoxically coexisting and competing pacifist imaginaries: namely, constitutional anti-nuclear and nuclear pacifism. They were, however, significantly destabilized by the Fukushima nuclear disaster and a newly invented proactive pacifism. This book is an essential reading for scholars and students interested in Japanese postwar history and nuclear issues in general.

Savage Perils Patrick B. Sharp, 2012-09-05. Revisiting the racial origins of the conflict between civilization and savagery in twentieth-century America. The atomic age brought the Bomb and spawned stories of nuclear apocalypse to remind us of impending doom. As Patrick Sharp reveals, those stories had their origins well before Hiroshima, reaching back to Charles Darwin and America's frontier. In *Savage Perils*, Sharp examines the racial underpinnings of American culture from the early industrial age to the Cold War. He explores the influence of Darwinism, frontier nostalgia, and literary modernism on the history and representations of nuclear weaponry. Taking into account such factors as anthropological race theory and Asian immigration, he charts the origins of a worldview that continues to shape our culture and politics. Sharp dissects Darwin's arguments regarding the struggle between civilization and savagery, theories that fueled future war stories ending in Anglo dominance in Britain and influenced Turnerian visions of the frontier in America. Citing George W. Bush's Axis of Evil, Sharp argues that many Americans still believe in the racially charged opposition between civilization and savagery and consider the possibility of nonwhite savages gaining control of technology the biggest threat in the war on terror. His insightful book shows us that this conflict is but the latest installment in an ongoing saga that has been at the heart of American identity from the beginning, and that understanding it is essential if we are to eradicate racist mythologies from American life.

Brain and the News Isabel Nery, 2024-02-21. This book explores the impact of news and literary journalism on human cognition and emotion. Providing an innovative analysis of psycho-physiological measures, including emotional response, perception of pain, and changes in heartbeat, Nery seeks to understand how readers react to journalistic texts. There is a growing enthusiasm in the search for understanding the processing of information, with some already arguing for the establishment of the neuroscience of communication as a new discipline. By combining neuroscience methods with

communication research studies specifically journalistic research and theory Nery offers us a unique way of exploring and thinking about news literary journalism and the brain Humanitarian Disarmament Treasa Dunworth,2020-08-06
