**Historic London** Stephen Inwood, 2012-06-28 There is hardly a city in the world with richer historical and cultural associations than London. It is a place where history has been made for thousands of years and where it is still being made today. It is not a city frozen in time, preserved in its ancient medieval pomp, but a place that has been at or near the centre of national life for a thousand years and at the forefront of international political, cultural and economic history for each of the past five centuries. Here Stephen Inwood, bestselling author of *A History of London* and a lifelong student of the city's rich and vibrant history, offers an explorer's guide to London's past. As you walk the streets of the capital, whether you live in the city or are just visiting it, Inwood will show you London's history all around you: stretches of Roman wall, medieval churches and Tudor houses that survived the Great Fire, monastic buildings that survived the Reformation, street markets first established centuries ago that survive today, Georgian streets and squares that were spared the wreckers' ball, Wren churches, Victorian terraces and Inns of Court that survived the Blitz. He takes you to the London of Chaucer and Shakespeare, Samuels, Pepys and Johnson, Dickens and Darwin, T. S. Eliot and George Orwell. It is the perfect book to have in your pocket or your bag as you go about your business in this most fascinating of cities.

**London's Secret Square Mile** David Long, William Russell, Nicholas Lyons, 2011-11-30 The streetscape of London's historic square mile has been evolving for centuries, but the City's busy commercial heart still boasts an extensive network of narrow passages and alleyways, secret squares and half-hidden courtyards. Using his wealth of local knowledge, historian David Long guides you through these ancient rights of passage, many dating back to medieval times or earlier, their evocative names recalling old taverns, notable individuals and City traditions. Hidden behind the glass, steel and stone of London's banks and big business, these survivors of modern development bear witness to nearly 2,000 years of British history.

**London's Working-Class Youth and the Making of Post-Victorian Britain, 1958-1971** Felix Fuhg, 2021-05-20 This book examines the emergence of modern working-class youth culture through the perspective of an urban history of post-war Britain, with a particular focus on the influence of young people and their culture on Britain's self-image as a country emerging from the constraints of its post-Victorian imperial past. Each section of the book, *Society*, *City*, *Pop* and *Space*, considers in detail the ways in which working-class youth culture corresponded with a fast-changing metropolitan and urban society in the years following the decline of the British Empire. Was teenage culture rooted in the urban experience and the transformation of working-class neighbourhoods? Did youth subcultures emerge simply as a reaction to Britain's changing racial demographic? To what extent did leisure venues and institutions function as laboratories for a developing British pop culture which ultimately helped Britain re-establish its prominence on the world stage? These questions and more are answered in this book.

into the evolution of the organization of the Turkish Ministry of Foreign Affairs and provides an account of the attitudes and methods of the Ministry's officials. A good biography should cast light upon its subject's times as well as his or her life upon the way things were done as much as upon the way a particular individual reacted and behaved. As such in this book not only is Zeki Kuneralp the man addressed but also the great developments of his time are explored extensively. The book blends biographical narrative with explorations of various aspects of the foreign policy issues with which Kuneralp was involved. The book treats in detail the major problems with which Kuneralp was directly concerned at each of his postings that is meeting the right people abroad promoting Turkish interests reporting to the Ministry of Foreign Affairs subordinating local matters to the political and economic goals of Turkey and conducting diplomacy so as always to be in accord with Ankara's policy makers whose big picture he always kept in mind.

**The Modern Venus** Elisabeth Gerner, 2023-10-19. From rumps and stays to muffs and handkerchiefs, underwear and accessories were critical components of the 18th century woman's wardrobe. They not only created her shape but expressed her character, sociability, fashionability and even political allegiances. These so-called ephemeral flights of fashion were not peripheral and supplementary but highly charged artefacts acting as cultural currency in contemporary society. *The Modern Venus* highlights the significance of these elements of a woman's wardrobe in 1770s and 1780s Britain and the Atlantic World and shows how they played their part in transforming fashionable dress when this was expanding to new heights and volumes. Dissecting the female silhouette into regions of the body and types of dress and shifting away from a broad sweeping stylistic evolution, this book explores these potent players within the woman's armoury. Marrying material archival and visual approaches to dress history and drawing on a rich range of sources including painted portraiture, satirical prints, diaries, memoirs, *The Modern Venus* unpacks dress as a medium and mediator in women's lives. It demonstrates the importance of these overlooked garments in defining not just a woman's silhouette but also her social and cultural situation and thereby shapes our understanding of late 18th century life. With over 125 color images, *The Modern Venus* is a remarkable resource for scholars, students and costume lovers alike.

**The First English Explorer** Kit Meyers, 2016-11-07. The first real explorer for the English was Anthony Jenkinson. He sailed to Russia and set out into the unknown to discover an overland route right across Asia. His detailed reports and his map were a revelation for the Tudors. In 1557 Anthony Jenkinson was sent by the merchants of London to try to find an overland route right across Asia to Cathay and the riches of the Orient, setting off a year before Queen Elizabeth I came to the throne. His expedition to the east took place some twenty-nine years earlier than the first English expedition to the west. As well as surviving storms, Jenkinson was faced with thieving, illness and several attacks by bandits before eventually, by sheer persistence, reaching Bokhara which is now in Uzbekistan. He had completed two-thirds of the journey and had reached the Silk Road that led to Cambaluc (Beijing) before finding that he could go no further because the route ahead was closed by continuous wars. In later expeditions he travelled to Persia where he nearly had his head cut off and he also went to Moscow.
