Historisch Vademecum Venlo 650 Jaar Stad:

Muslims Ritualising Death in the Netherlands Claudia Venhorst, 2013 This study on the common practice of Islamic death rites in the Netherlands affords valuable insights in the lived religion of Muslims Particularly in a small town context marked by migration and diversity Muslims are challenged to re imagine and re invent their ritual repertoire This results in dynamic ritual practices that are the product of vibrant negotiation processes in which rites interact with ritual actors and their changing contexts The emerging ritual repertoire and their dynamics are widely overlooked in an institutionalized and traditional religion like Islam Series Death Studies Nijmegen Studies in Thanatology Vol 3 **Historisch vademecum**
