Sasanian Empire The authors argue that the persistence of large states and empires starting in the eighth seventh centuries BCE which continued for many centuries led to new socio political structures and institutions emerging in the Near East The primary processes that enabled this emergence were large scale and long distance movements or population migrations These patterns of social developments are analysed under different aspects settlement patterns urban structure material culture trade governance language spread and religion all pointing at movement as the main catalyst for social change This book s argument is framed within a larger theoretical framework termed as universalism a theory that explains many of the social transformations that happened to societies in the Near East starting from the Neo Assyrian period and continuing for centuries Among other influences the effects of these transformations are today manifested in modern languages concepts of government universal religions and monetized and globalized economies

Greek Monasticism in Southern Italy Barbara Crostini, Ines Angeli Murzaku, 2017-12-15 This volume was conceived with the double aim of providing a background and a further context for the new Dumbarton Oaks English translation of the Life of St Neilos from Rossano founder of the monastery of Grottaferrata near Rome in 1004 Reflecting this double aim the volume is divided into two parts Part I entitled Italo Greek Monasticism builds the background to the Life of Neilos by taking several multi disciplinary approaches to the geographical area history and literature of the region denoted as Southern Italy Part II entitled The Life of St Neilos offers close analyses

of the text of Neilos's hagiography from socio-historical, textual and contextual perspectives. Together the two parts provide a solid introduction and offer in-depth studies with original outcomes and wide-ranging bibliographies. Using monasticism as a connecting thread between the various zones and St Neilos as the figure who walked over mountains and across many cultural divides, the essays in this volume span all regions and localities and try to trace thematic arcs between individual testimonies. They highlight the multicultural context in which Southern Italian Christians lived and their way of negotiating differences with Arab and Jewish neighbors through a variety of sources and especially in saints' lives.

Church Policy of Byzantium after the Triumph of Orthodoxy (843-886) Predrag Komatina, 2025-07-07. The book deals with the policy of the Byzantine state in the field of ecclesiastical matters from the end of Iconoclasm in 843 to the death of Emperor Basil I in 886. It examines the attitude of the main political actors, the emperors and their closest collaborators, towards religious matters and the decisions they made concerning the various issues of Iconoclasm and Orthodoxy, appointment of the patriarchs, relations with the Church of Rome and theological disputes with Muslims, non-Chalcedonian Christians and Christian sects. This volume also considers missionary activity outside the borders of the Empire and policy towards religious minorities inside them as well as the political and intellectual potential behind it.

Experiencing the Last Judgement Niamh Bhalla, 2021-09-30. *Experiencing the Last Judgement* opens up new ways of understanding a Byzantine image type that has hitherto been considered largely uniform in its manifestations and to a great extent frightening, coercive and paralysing. It moves beyond a purely didactic understanding of the Byzantine image of the Last Judgement as a visual eschatological text to be read and learned from and proposes instead an appreciation of each unique image as a dynamic site to be experienced. Paintings, icons and mosaics from the tenth to the fourteenth century from inside and outside of the Byzantine Empire are placed within their specific socio-historical milieus, their immediate decorative programmes and their architectural contexts to demonstrate that each unique image constituted a carefully orchestrated and immersive experience of judgement. Each case study outlines the differences that exist in reality between these images that are often subsumed under one iconographic label, making a case against condensing dynamic lived images into apparently static pictorial types. Images of the Last Judgement needed the body, mind and memory of the viewer for the creation of meaning and so the experience of these images was unavoidably spatial, gendered, corporeal, mnemonic, emotional, rhetorical and most often liturgical. Unpacking Byzantine images of judgement in light of these various facets of experience for the first time helps to elucidate the interaction of past individuals with the image and the ways in which such encounters were intended to benefit the communities that made and lived alongside them.

Roman Emperor Zeno Peter Crawford, 2019-02-28. A very useful read for anyone interested in the Later Roman Empire, the fall of the Western Empire and the emergence of the Byzantine State. The NYMAS Review. Peter Crawford examines the life and career of the fifth-century Roman emperor Zeno and the various problems he faced before and during his seventeen-year rule. Despite its length, his reign has hitherto been somewhat

overlooked as being just a part of that gap between the Theodosian and Justinianic dynasties of the Eastern Roman Empire which is comparatively poorly furnished with historical sources. Reputedly brought in as a counterbalance to the generals who had dominated Constantinopolitan politics at the end of the Theodosian dynasty, the Isaurian Zeno quickly had to prove himself adept at dealing with the harsh realities of imperial power. Zeno's life and reign is littered with conflict and politicking with various groups, the enmity of both sides of his family, dealing with the fallout of the collapse of the Empire of Attila in Europe, especially the increasingly independent tribal groups established on the frontiers of and even within imperial territory, the end of the Western Empire and the continuing religious strife within the Roman world. As a result, his reign was an eventful and significant one that deserves this long overdue spotlight. Crawford's work on the life and reign of Zeno is a good introduction for a general audience to the complexities of the late fifth century Roman Empire, telling a series of long and complex stories compellingly in a traditional fashion. *Bryn Mawr Classical Review* [A World of Babies](#) Alma Gottlieb, Judy S. DeLoache, 2017. A fully revised and updated second edition of this successful guide to childcare advice in different cultures around the globe.

La frontera septentrional del imperio romano durante la segunda mitad del «largo» siglo VI: política exterior y relaciones internacionales. Aitor Fernández Delgado, 2021. El primer bloque se adscriben los cuatro primeros capítulos que desde una ptica general recogen los principales testimonios escritos en relación con el ámbito geográfico en particular y del propio relato histórico contextualizando desde las ciudades pticas todos y cada uno de los procesos diplomáticos que a continuación proceden a insertarse y ser analizados desde un prisma eminentemente político a lo largo de los siguientes cuatro capítulos. Con relación al segundo de los bloques temáticos el arco cronológico establecido se enmarca a largo siglo VI abarcando el período comprendido entre los años 545 y 630. Una magnífica monografía a que como de su título se deduce tiene como objeto resaltar en un período histórico concreto ca. 545-630 el valor de la diplomacia marco geográfico el limes septentrional oriental. Una obra que constituye el más amplio y detallado trabajo que sobre el tema se ha acometido hasta el momento, elaborada con el detenimiento y la relevancia que la temática merece, escrita con considerable rigor y honradez, científica con delicado respeto y manejo de fuentes y bibliografía y que sin duda aprovechar y servir de referencia para futuras investigaciones. Panem et circenses David Álvarez Jiménez, 2018-11-01 Las carreras de carros en Roma se convirtieron desde muy temprano en un eficaz instrumento de dominación social mediante el cual el emperador se congraciaba con su pueblo Las distintas facciones y la celebridad de los aurigas auténticas estrellas de su tiempo hicieron del circo todo un espectáculo social y político en el que deseaba concitarse toda la sociedad Panem et circenses nos adentra en este particular centro neurálgico de las siempre apasionantes tensiones de la ciudad eterna y de la expansión del espectáculo por todo el territorio imperial en especial en Constantinopla
