Influential Papers From The 1920s International Journal Of Psychoanalysis Key Papers Series:

Influential Papers from the 1920s R.D. Hinshelwood, 2020-06-16 The 1920s was the decade when psychoanalysis moved from the fringes of accepted medical practice into the mainstream. It also witnessed the birth of the English language International Journal of Psychoanalysis. Freud continued to dominate the psychoanalytic arena with his continuing innovations and expansion of ideas but topics of interest outside of his inspiration also grew. The influx of women into the profession led to new discussions on female sexuality and possibly to greater interest in psychoanalysing children. The papers in this volume deal with substantial issues in the development of psychoanalysis that still have profound echoes in psychoanalytic discussion today. Beautifully edited with the papers divided into their subject matter and contextualised through comprehensive and clear introductions, this is an essential anthology of classic papers with contributions from Karl Abraham, Sandor Ferenczi, Anna Freud, Edward Glover, Karen Horney, Ernest Jones, Melanie Klein, Joan Riviere and Hermine von Hug-Helmuth. ***Key Papers in Literature and Psychoanalysis*** Paul Williams, Glen O. Gabbard, 2018-05-01 This book presents several essays from the International Journal of Psychoanalysis that explore overlaps of literary experience and psychoanalytic process, providing the reader with a substantive contribution that reflects the principal concerns of contemporary psychoanalysis. ***Is It Too Late?*** Gabriele Junkers, 2018-03-26 This book brings together a selection of classic psychoanalytical papers related to ageing, dying and death that have appeared in the renowned International Journal of Psychoanalysis (IJP). Two papers address the analysis of an elderly patient directly and bring the work and the challenges it brings vividly to life. Also explored are such issues as death and the midlife crisis, loneliness and the ageing process, ageing and psychopathology, fear of death, transference and countertransference issues and the final stage of the dying process. The idea behind this monograph is to alert interested psychoanalysts, students and those working from an interdisciplinary standpoint to the possibility of a better understanding of the ageing process as well as a group of potential analysis that seem to exist in the shadow of our professional communications. Each stage of life has its own somatic and psychic normality as well as pathology. ***Influential Papers from the 1920s*** R. D. Hinshelwood, 2004 A collection of papers from the International Journal of Psychoanalysis that were originally published in the 1920s. The papers are divided into their subject matter and contextualised through comprehensive and clear introductions. This is an essential anthology of classic papers. The editor has chosen papers for this volume that deal with substantial issues in the development of psychoanalysis that still have profound echoes in psychoanalytic discussion today. His broad selection includes significant papers on child analysis, sublimation, female sexuality, active technique, character and libidinal development, super ego, the reality principle and lay analysis. This essential anthology contains classic papers by Karl Abraham, Sandor Ferenczi, Anna Freud, Edward Glover, Karen Horney, Ernest Jones, Melanie Klein, Joan Riviere and Hermine von Hug-Helmuth. ***Melanie Klein and Beyond*** Harry Karnac, 2018-05-01 This book is a bibliography of Melanie Klein's writings together with other books, articles and papers.

The Evolution of Psychoanalytic Technique Martin S. Bergmann, Frank R. Hartman, 1990 Available for the first time in English this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities The large scale imprisonment and rape of thousands of women who were euphemistically called comfort women by the Japanese military first seized public attention in 1991 when three Korean women filed suit in a Tokyo District Court stating that they had been forced into sexual servitude and demanding compensation Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan much if it inspired by Yoshimi's investigations How large a role did the military and by extension the government play in setting up and administering these camps What type of compensation if any are the victimized women due These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2

000 centers where as many as 200 000 Korean Filipina Taiwanese Indonesian Burmese Dutch Australian and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel Many of the women were teenagers some as young as fourteen To date the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers
