**South Vietnam's Writers** Thomas Engelbert, Chi P. Pham, 2023-07-04 This edited book examines how South Vietnam's formerly the Republic of Vietnam 1955-1975 literary and journalistic writers were perceived and potentially influenced by Western thought led by thinkers such as Jean Paul Sartre, Franz Kafka, Sigmund Freud, Thomas Mann, Martin Heidegger, Hermann Hesse, Edmund Husserl, Stefan Zweig, Graham Greene, and Somerset Maugham. The book reveals the dynamism and diversity of Western thought in individual literary texts as well as among the authors themselves. The volume considers how writers and their texts engaged with issues that are socially, culturally, politically, and philosophically significant to Vietnam and beyond past and present. This approach to South Vietnam's literary and journalistic tradition enables an alternative, plural, inclusive view of the significance of these texts, which are shown to be neither exclusively anti-Communist nor bourgeois individualist, as they have so often been interpreted both in and outside of Vietnam. Such an interpretation problematically retains the marginal position of South Vietnam's literature in mainstream Vietnamese literature and in the literatures of the host countries where these Vietnamese authors have migrated, settled, and continued to write following the Fall of Saigon. This volume presents itself as a key text for those studying Asian and postcolonial literatures as well as scholars in the humanities researching Vietnam, its history, politics, society, and culture. **Other**

**People's Children** Deborah Yaffe, 2007-11-15 In 1981, when Raymond Abbott was a twelve-year-old sixth grader in Camden, New Jersey, poor city school districts like his spent 25 percent less per student than the state's wealthy suburbs did. That year, Abbott became the lead plaintiff in a landmark class action lawsuit demanding that the state provide equal funding for rich and poor schools. Over the next twenty-five years, as the non-profit law firm representing the plaintiffs won ruling after ruling from the New Jersey Supreme Court, Abbott dropped out of school, fought a cocaine addiction, and spent time in prison before turning his life around. Raymond Abbott's is just one of the many human stories that have too often been forgotten in the policy battles New Jersey has waged for two generations over equal funding for rich and poor schools. **Other People's Children**, the first book to tell the story of this decades-long school funding battle, interweaves the public story, an account of legal and political wrangling over laws and money, with the private stories of the inner-city children who were named plaintiffs in the state's two school funding lawsuits, *Robinson v. Cahill* and *Abbott v. Burke*. Although these cases have shaped New Jersey's fiscal and political landscape since the 1970s, most recently in legislative arguments over tax reform, the debate has often been too abstract and technical for most citizens to understand. Written in an accessible style and based on dozens of interviews with lawyers, politicians, and the plaintiffs themselves, *Other People's Children* crystallizes the arguments and clarifies the issues for general readers. Beyond its implications for New Jersey, this book is an important contribution to the conversations taking place in all states about the nation's responsibility for its poor and the role of public schools in providing equal opportunities and promising upward mobility for hard-working citizens regardless of race or class. **Crossing Under the Hudson** Angus Kress Gillespie, 2011-10-16 *Crossing Under the Hudson* takes a fresh look at the planning and

construction of two key links in the transportation infrastructure of New York and New Jersey the Holland and Lincoln Tunnels Writing in an accessible style that incorporates historical accounts with a lively and entertaining approach Angus Kress Gillespie explores these two monumental works of civil engineering and the public who embraced them He describes and analyzes the building of the tunnels introduces readers to the people who worked there then and now and places the structures into a meaningful cultural context with the music art literature and motion pictures that these tunnels engineering marvels of their day have inspired over the years Today when new concerns about global terrorism may trump bouts of simple tunnel tension Gillespie s *Crossing Under the Hudson* continues to cast a light at the end of the Holland and Lincoln Tunnels
