[The Lost History of Ancient America](#) Frank Joseph, 2016-10-24 The Lost History of Ancient America presents new evidence of transoceanic visitors to America hundreds even thousands of years before Christopher Columbus was born Its 20 eminent contributors are experts in a variety of fields from botany biology and prehistoric engineering to underwater archaeology archaeo astronomy and Bronze Age warfare In ancient times the sea was not an impassable barrier separating our ancestors from the outside world but a highway taking them to every corner of it Never before and nowhere else has so much evidence proving the impact made on America by overseas visitors been assembled You will learn about A chain of stonewalls across southern Illinois that has stood for the last two millennia A profusion of plants flourishing throughout the United States and Canada that originated more than 20 centuries ago Underwater ruins recently found off the coast of Oregon Bronze Age oil wells in Pennsylvania And much much more The Lost History of Ancient America ends the debate between cultural diffusionists who have always known that our ancient ancestors did not consider the sea an impassable barrier and cultural isolationists who have been equally certain that humans lacked the know how and courage for global navigation until a little more than 500 years ago

Lost Highways, Embodied Travels: The Road Movie in American Experimental Film and Video Kornelia Boczkowska, 2023-02-06 Often identified as one of the most genuine and enduring American film genres the road movie has never been explored in the context of experimental filmmaking To fill this gap Lost Highways Embodied Travels provides the first book length study of over eighty unique and often obscure films and videos and situates them within the corporeal turn in American avant garde cinema so far mostly associated with body genres and
