,1886 **The Song of Songs and Its Tradition in Renaissance Love Lyric** Camilla Caporicci,2025-01-29 Traditionally
attributed to King Solomon and called by Rabbi Akiva the Holy of Holies among sacred Scriptures Mishnah Yadayim 3 5 the
Song of Songs is one of the most fascinating and controversial biblical books and played an essential role in the shaping of
European spirituality and culture Combining in a unique way a sensual and deeply lyrical celebration of love with a well
established tradition of Christian allegorical interpretation this text crucial to both the Middle Ages and the early modern
period held a particular appeal for poets devoted not only to religious verse but also to love poetry The Song of Songs and Its
Tradition in Renaissance Love Lyric is the first systematic and wide ranging investigation of the multifaceted use of the Song
of Songs in Renaissance love lyric poetry with specific attention to Italian French and especially English poetic production At
the same time this investigation is embedded into a narrative that comprising two initial chapters devoted to medieval poetry
and to Francesco Petrarca represents an unprecedented attempt to trace the role of the Song of Songs in the rise and
development of the European love lyric following its path or rather one of its paths from the medieval origins of this tradition
to the end of the sixteenth century The picture of the general impact of the Song of Songs in the development of the
European love lyric is combined with in depth analysis of key works by specific authors including Dante Alighieri Francesco
Petrarca Torquato Tasso Marguerite de Navarre Anne de Marquets Cl ment Marot Richard Barnfield Edmund Spenser
William Shakespeare John Donne Elizabeth Melville and Aemilia Lanyer promoting a contextualization of their significance
within a new interpretative framework While the comparative standpoint characterizing this study fosters a deeper
comprehension of the evolution of the European love lyric its multidisciplinary approach which considers the Song of Songs
as the centre of a web of dynamics pertaining to the fields of literature philosophy theology and religious and cultural history
contributes to the understanding of the thought and spirit of ages crucial to the shaping of European culture **Templar's**
