**Culture, Sociality, and Morality** Paul Dragos Aligica, Ginny Seung Choi, Virgil Henry Storr, 2021-11-26 The chapters in this volume explore, engage, and expand on the key thinkers and ideas of the Austrian, Virginia, and Bloomington schools of political economy. The book emphasizes the continuing relevance of the contributions of these schools of thought to our understanding of cultural, social, moral, and historical processes for interdisciplinary research in the social sciences and humanities. An analysis of human action that deliberately divorces it from cultural, social, moral, and historical processes will at least limit and at worst distort our understanding of human phenomena.
