ceased to depict the tanned and muscular labourers in a proletarian utopia so typical of preceding decades. Instead, Western icons of progress and development were employed: high speed bullet trains, spacecraft, high rise buildings, gridlocked freeways and projections of general affluence. Socialist Realism was phased out by design and mixed media techniques that were influenced by Western advertising. This lavishly illustrated study traces the development of the style and content of the Chinese propaganda poster in the decade of reform from its traditional origins to its use as a tool for political and economic purposes.
