Benedict XVI: His Life and Thought Elio Guerriero, 2018-10-17 In these pages Benedict XVI shares his reasons for retiring from the papacy in 2013 in an interview with the author Many saw his astonishing retirement as a sign of the Church s decline but he intended it as a seed sown in the hope of bringing the Church a younger more vigorous leadership in the face of daunting challenges Among those challenges are the financial and sexual scandals that continue to undermine the Church s mission When Ratzinger was elected Pope in 2005 he opened a path of purification for the Church while calling upon the Western world to return to its Christian roots and to build a new humanism for the twenty first century and his call for renewal is still relevant Widely recognized as one of the most important theologians and spiritual leaders of our time Joseph Ratzinger served throughout the papacy of John Paul II as the Prefect of the Congregation for the Doctrine of the Faith Both men had witnessed how atheistic philosophies and war had ravaged twentieth century Europe and they shared in the effort of revealing to modern man his need for God for redemption in Jesus Christ

meditative experience Through a comparative exploration of the itineraries detailed in the contemplative manuals of Theravada Buddhism Patanjali Yoga and Catholic mystical theology Rose identifies in each tradition a moment of sharply focused awareness that marks the threshold between immersion in mundane consciousness and contemplative insight As concentration deepens the meditator steps through this threshold onto a globally shared contemplative itinerary which leads through a series of virtually identical stages to mental stillness and insight Rose argues that these contemplative universals familiar to experienced contemplatives in multiple traditions point to a common spiritual mental and biological heritage Pioneering the exploration of contemplative practice and experience with a comparative perspective that ranges over multiple religious traditions religious studies philosophy neuroscience and the cognitive science of religion this book is a landmark contribution to the fields of contemplative practice and religious studies *Saturday Review of Politics, Literature, Science and Art* ,1898 **A Manual of the Catholic Religion** F.
