Blahuta, 2015-04-16 Times of prolonged conflict spur great minds to seek a lasting peace Thus was the case of Warring States China which saw the rise of the Hundred Schools of Thought including the Daodejing and the Han Feizi and Renaissance Italy which produced Niccol Machiavelli Witnessing their respective societies fall prey to internal corruption and external aggression all three thinkers sought ways to produce a strong stable state that would allow both the leader and the populace to endure Fortune and the Dao A Comparative Study of Machiavelli the Daodejing and the Han Feizi demonstrates where the shortcomings of each theory lie with emphasis on the similarities among Machiavelli Laozi and Han Feizi Jason P Blahuta ultimately argues that if Machiavelli s philosophy the most comprehensive of the three theories were supplemented by aspects of the Daodejing the revision would potentially overcome the deficiencies of the original **Mozi** Di Mo, 2003 Mozi fifth century B C was an important political and social thinker and formidable rival of the Confucianists He advocated universal love his most important doctrine according to which

Individualism in Early China Erica Fox Brindley, 2010-06-30
Conventional wisdom has it that the concept of individualism was absent in early China In this uncommon study of the self and human agency in ancient China Erica Fox Brindley provides an important corrective to this view and persuasively argues that an idea of individualism can be applied to the study of early Chinese thought and politics with intriguing results She introduces the development of ideological and religious beliefs that link universal cosmic authority to the individual in ways that may be referred to as individualistic and illustrates how these evolved alongside and potentially helped contribute to larger sociopolitical changes of the time such as the centralization of political authority and the growth in the social mobility of the educated elite class Starting with the writings of the early Mohists fourth century BCE Brindley analyzes many of the major works through the early second century BCE by Laozi Mencius Zhuangzi Xunzi and Han Feizi as well as anonymous authors of both received and excavated texts Changing notions of human agency affected prevailing attitudes toward the self as individual in particular the onset of ideals that stressed the power and authority of the individual either as a conformist agent in relation to a larger whole or as an individualistic agent endowed with inalienable cosmic powers and authorities She goes on to show how distinctly internal individualistic external institutionalized or mixed syncretic approaches to self cultivation and state control emerged in response to such ideals In her exploration of the nature of early Chinese individualism and the various theories for and against it she reveals the ways in which authors innovatively adapted new theories on individual power to the needs of the burgeoning imperial state With clarity and force *Individualism in Early China* illuminates the importance of the individual in Chinese culture By focusing on what is unique about early Chinese thinking on this topic it gives readers a means of understanding particular Chinese discussions of and respect for the self

An Introduction to Hanfei's Political Philosophy Henrique Schneider, 2018-11-27 This is the first book to make the philosophy of Hanfei available at an introductory level This fascinating thinker not only directly influenced the first Chinese Empire but also embodied the strongest alternative to Confucianism in Chinese thought Even today his thinking influences China It introduces key concepts and arguments in Hanfei's legalist philosophy It also contextualizes this thinking within Chinese history and in a comparative approach The book will appeal to a wide audience interested in Chinese political philosophy as well as to historians social and political scientists
