Handbook Of Ethnic Conflict International Perspectives International And Cultural Psychology:

Handbook of Ethnic Conflict Dan Landis, Rosita D. Albert, 2012-02-14 Although group conflict is hardly new the last decade has seen a proliferation of conflicts engaging intrastate ethnic groups It is estimated that two thirds of violent conflicts being fought each year in every part of the globe including North America are ethnic conflicts Unlike traditional warfare civilians comprise more than 80 percent of the casualties and the economic and psychological impact on survivors is often so devastating that some experts believe that ethnic conflict is the most destabilizing force in the post Cold War world Although these conflicts also have political economic and other causes the purpose of this volume is to develop a psychological understanding of ethnic warfare More specifically *Handbook of Ethnopolitical Conflict* explores the function of ethnic religious and national identities in intergroup conflict In addition it features recommendations for policy makers with the intention to reduce or ameliorate the occurrences and consequences of these conflicts worldwide **Handbook of Ethnic Conflict**, 2012 *Handbook of Cross-cultural Psychology: Social behavior and applications* John W. Berry, Ype H. Poortinga, Janak Pandey, 1997 Presenting the human relations in a cultural context this book explores various social psychology concepts and applied topics in the light of cross cultural research It also features the developments in the field as well as diversity in the cultural and theoretical backgrounds of the editors and chapter authors **Tradition-Based Natural Resource Management** Edward W. Glazier, 2019-05-10 This book addresses the complex socio political context of natural resource management in coastal and marine environments throughout the contemporary Pacific Islands and provides lessons that can be applied around the globe The author spotlights one particular case in which Native Hawaiians worked successfully to develop a formal policy mechanism through which to advise government agencies in the State of Hawaii on matters regarding traditional and customary use and management of the island s natural resources Glazier describes historic traditional aspects of natural resource use and management in the Hawaiian Islands and the challenging process that was employed to enhance the capacity of modern Hawaiians to influence the course of their future This process successfully broached and addressed truly difficult challenges including but not limited to the convening of representatives of a complex society of indigenous persons in order to elicit traditional place based knowledge and varying perspectives on the appropriate use and management of natural resources the incorporation of such knowledge and perspectives into the modern natural resource management and policy context and the need to balance the interests of indigenous persons and those of more recently arriving persons around the island chain The lessons learned were many and varied and are particularly germane for resource managers scientists policymakers and indigenous persons seeking to undertake balanced natural resource policy decisions in island coastal and indigenous settings around the Pacific and beyond *Terrorism: Bridging the Gap with Peace and Conflict Studies* Ioannis Tellidis, Harmonie Toros, 2016-01-08 This book opens up the discussion of the interrelation between terrorism studies and peace and conflict studies The aim is to examine the instances and

circumstances under which both fields can benefit from each other Even though it is often accepted that terrorism is a form of political violence it is also quite frequent that research on the topic is dismissed when it is approached with conflict analysis frames More importantly policy approaches continue to inhibit obstruct and reject frameworks that are concerned with the transformation and resolution of terrorist conflicts partly because they see the state as the ultimate referent object to be secured At the same time peace and conflict studies seem to be excessively focused on problem solving approaches which overemphasise the role of parity during negotiations and misdiagnose the distribution of power both within conflicts as well as within conflict management resolution and or transformation approaches This book was published as a special issue of Critical Studies on Terrorism

Fragments of Trauma and the Social Production of Suffering , Marilyn Charles, Michael O'Loughlin, 2014-11-05 Fragments of Trauma and the Social Production of Suffering Trauma History and Memory offers a kaleidoscope of perspectives that highlight the problem of traumatic memory Because trauma fragments memory storytelling is impeded by what is unknowable and what is unspeakable Each of the contributors tackles the problem of narrativizing memory that is constructed from fragments that have been passed along the generations When trauma is cultural as well as personal it becomes even more invisible as each generation's attempts at coping push the pain further below the surface Consequently that pain becomes increasingly ineffable haunting succeeding generations In each story the contributors offer there emerges the theme of difference a difference that turns back on itself and makes an accusation Themes of knowing and unknowing show the terrible toll that trauma takes when there is no one with whom the trauma can be acknowledged and worked through In the face of utter lack of recognition what might be known together becomes hidden Our failure to speak to these unaspirated truths becomes a betrayal of self and also of others In the case of intergenerational and cultural trauma we betray not only our ancestors but also the future generations to come In the face of unacknowledged trauma this book reveals that we are confronted with the perennial choice of speaking or becoming complicit in our silence Cultural Competence in Applied Psychology Craig L. understanding the cultural competence construct as evaluated through the lens of closely related fields outside of applied psychology Spotlights complexities in cultural competence issues pertaining to specific populations Sets out implications for education and training offering a detailed outline for an ideal college course in cultural competence With this level of reasoning and rigor Cultural Competence in Applied Psychology is sure to stimulate long overdue dialogue and debate among professionals across a wide variety of fields such as clinical psychology social work child and social psychology psychotherapy school psychology and counseling
