Sumudu A. Atapattu, Carmen G. Gonzalez, Sara L. Seck, 2021-04-01 Despite the global endorsement of the Sustainable Development Goals environmental justice struggles are growing all over the world These struggles are not isolated injustices but symptoms of interlocking forms of oppression that privilege the few while inflicting misery on the many and threatening ecological collapse This handbook offers critical perspectives on the multi dimensional intersectional nature of environmental injustice and the cross cutting forms of oppression that unite and divide these struggles including gender race poverty and indigeneity The work sheds new light on the often neglected social dimension of sustainability and its relationship to human rights and environmental justice Using a variety of legal frameworks and case studies from around the world this volume illustrates the importance of overcoming the fragmentation of these legal frameworks and social movements in order to develop holistic solutions that promote justice and protect the planet s ecosystems at a time of intensifying economic and ecological crisis Between Care and Justice Elena Pulcini, 2024-05-01 Elena Pulcini 1950-2021 an internationally renowned philosopher of care was at the forefront of thinking and creating a new ethical framework to respond efficaciously to

problems that affect individuals at a global level This translation of Pulcini s last work addresses perhaps the two fundamental questions for our times namely Why care for others when we are not bound by personal relationships and Why commit to justice even when it does not personally affect us By focusing on passions such as indignation fear compassion resentment and love Pulcini offers an alternative ethical perspective in which justice and care intertwine to supplement and balance each other Together care and justice are proven capable of addressing the challenge of the other distant in space the outsider the marginalized and the migrant and time future generations In the end Pulcini proposes a form of moral education that nurtures and develops desirable moral sentiments for a more just world at the interpersonal social political economic and environmental levels thereby providing an alternative social global model to current individual focused rights based purely rationalist ethical systems **Can Democracy Safeguard the Future?** Graham Smith, 2021-02-01 Our democracies

repeatedly fail to safeguard the future From pensions to pandemics health and social care through to climate biodiversity and emerging technologies democracies have been unable to deliver robust policies for the long term In this book Graham Smith asks why Exploring the drivers of short termism he considers ways of reshaping legislatures and constitutions and proposes strengthening independent offices whose overarching goals do not change at every election More radically Smith argues that forms of participatory and deliberative politics offer the most effective democratic response to the current political myopia as
