Handbook Of Islamic Marketing Author Ozlem Sandikci Jun 2013:

Handbook of Islamic Marketing Özlem Sandıkçı, Gillian Rice, 2011-01-01 This is an especially timely publication given the current metamorphosis of politics in the Middle East and North Africa. Özlem Sandıkçı and Gillian Rice are to be congratulated for having sensed the need for a Handbook that will alert marketers to the vast market opportunities offered by Muslim consumers. It is essential to become attuned to the values and principles of Islamic cultures that will drive consumption product and service choices, brand preference and brand loyalty in coming years. The scholars who have contributed to this Handbook come from many different backgrounds to offer a kaleidoscope of research and recommendations on how best to serve this previously overlooked segment of consumers who make up a quarter of world markets. Lyn S Amine, Saint Louis University, US. This ambitious and timely collection will be enormously valuable to readers in the practice and study of the growing field of Muslim marketing and branding. Essays range expertly across key sectors, notably finance, food and fashion, and territories of Muslim majority and minority population. Contributors elaborate the diversity of Muslim experiences, beliefs and practices that must be taken into account by marketing professionals seeking to exploit this newly recognized market. Academic authors provide helpful postscripts for marketers making clear the links between their nuanced, historicized understanding of contemporary transnational, global and local forms of Muslim identity and practice. This book provides an essential guide to those who study and those who participate in Muslim branding and marketing. Reina Lewis, London College of Fashion, UK. The Handbook of Islamic Marketing provides state-of-the-art scholarship on the intersection of Islam, consumption and marketing and lays out an agenda for future research. The topics covered by eminent contributors from around the world range from fashion and food consumption practices of Muslims to retailing, digital marketing, advertising, corporate social responsibility and nation branding in the context of Muslim marketplaces. The essays offer new insights into the relationship between morality, consumption and marketing practices and discuss the implications of politics and globalization for Islamic markets. This comprehensive Handbook provides an essential introduction to the newly emerging field of Islamic marketing. It is invaluable for researchers and students in international marketing who are interested in the intersection of Islam and marketing as well as those from anthropology and sociology studying Muslim consumers and businesses. The book also supplies vital knowledge for Muslim and non-Muslim business leaders generating commerce in Islamic communities.

Islam, Consumption and Marketing Ozlem Sandikci, Güliz Ger, 2011. Islam and marketing are two terms that until recently seldom came together. Yet today there is a burgeoning interest both in academic and practitioner circles in understanding Muslim consumers and devising marketing strategies and practices that will enable companies to reach what is now considered to be a highly attractive market segment. This paper evaluates the developments underlying this interest and offers a critical analysis of Islamic marketing and its emergence as a field of inquiry. The authors seek to shift the academic and managerial attention from a preoccupation with difference to a

more critical situated and dynamic engagement with Muslim consumers and businesses and outline a perspective for future research that is more sensitive to the complexities and contextualities of Muslims and their consumption and marketing practices The paper concludes by discussing various managerial and policy implications of the authors perspective The Principles of Islamic Marketing Baker Ahmad Alserhan,2020-09-10 The Principles of Islamic Marketing fills a gap in international business literature covering the aspects and values of Islamic business thought It provides a framework and practical perspectives for understanding and implementing the Islamic marketing code of conduct It is not a religious book The Islamic Economic System is a business model adopted by nearly one quarter of the world s population Baker Alserhan identifies the features of the Islamic structure of International Marketing practices and ethics Adherence to such ethical practices elevates the standards of behaviour of traders and consumers alike and creates a value loaded framework for meaningful cooperation between international marketers and their Muslim markets His book provides a complete guide for an organization when managing its entire marketing function or when customising part of its offering to suit Muslim customers It addresses the challenges facing marketers involved in business activities with and within Islamic communities the knowledge needs of academic institutions and the interest of multinationals keen on tapping the huge Islamic markets Along the way Baker Alserhan provides insights into key elements such as distribution channels retailing practices branding positioning and pricing all within the Muslim legal and cultural norms This second edition brings the book up to date and features a number of new case studies and two additional chapters on Maqasid Al Shariah and the Islamic economy and a strategic perspective on Islamic marketing and branding **Fundamentals of Islamic Marketing Handbook** Md.
