HISTOPATHOLOGY FOR MEDICAL LABORATORY TECHNOLOGY STUDENTS AEJAZ IQBAL,2022-10-08 It gives me great pleasure to introduce this book on HISTOPATHOLOGY for Medical Laboratory Technology Students In this book I

have tried to solve the difficulty of students to understand the tests and getting the exact data. The aims and objectives of this book are primarily to meet the requirements of DMLT and undergraduates. Courses in Histopathology is an essential subject of DMLT courses but there is non-availability of good books on the subject. The books available are vast and mainly written for medical, dental, physiotherapy, nursing students. I have tried to overcome this problem by writing in easy language, point-wise manner, diagrams, flow charts, tables, graphs, pictures, and providing exact data. I hope that this book will satisfy the needs of DMLT students as well as UG students. This book composes units. All units such as Histopathology, Clinical pathology, cytology, exfoliative cytology, etc. Finally, we can say this book is based upon the DMLT syllabus of the various Paramedical state councils, especially JKSPMF and JKBOTE. Finally, although sincere effort has been made to be as accurate as possible, an element of human error is still likely. I shall humbly request users to continue giving their valuable suggestions and feedback as they have been doing. Before for my all books, this helps me much to learn from the experience of users, improve further, and carry out corrections wherever required at the earliest possible opportunity.

Handbook Of Histopathology And Hematology Laboratory Techniques For M D S Oral Pathology Students Dr. Bhuvan Nagpal, 2023-09-23. This book has been designed from the perspective of MDS Oral Pathology students and has compiled content of texts that have been taken from various standard books, articles, and the recent advances framed under various subtopics. We have tried to bring out the topics in a simplified manner which will invoke interest in the subject. The aim of the book is to give a clear picture of the laboratory techniques used in the field of Oral Pathology, Microbiology, as well as Hematology, briefing about general principles of grossing, tissue processing, sectioning, and immunohistochemistry. Hematology topics including physiology of blood, Complete Blood Count, setting up of laboratory and its quality essentials, quality assurance, and basics of blood sample collection. Readers will be provided with a comprehensive and concise overview of each topic. We hope that this book will serve the purpose for students to learn and act as a guide to write well-structured answers in their examinations from acceptable resources. We humbly accept the limitations regarding shortcomings in the book and also sincerely welcome the constructive suggestions from the readers of this book. We hope that this book will help the students to overcome the nightmare of final minutes of preparation.
