## **Historia Schneebergensis Renovata:**

**Historia Schneebergensis renovata, das ist: erneuerte Stadt- und Berg-Chronica, der im Ober-Ertz-Gebürge Meißens gelegenen Berg-Stadt Schneeberg (etc.)** Christian Melzer, 1716      Religious Individualisation Martin Fuchs, Antje Linkenbach, Martin Mulsow, Bernd-Christian Otto, Rahul Bjørn Parson, Jörg Rüpke, 2019-12-16 This volume brings together key findings of the long term research project Religious Individualisation in Historical Perspective Max Weber Centre for Advanced Cultural and Social Studies Erfurt University Combining a wide range of disciplinary approaches methods and theories the volume assembles over 50 contributions that explore and compare processes of religious individualisation in different religious environments and historical periods in particular in Asia the Mediterranean and Europe from antiquity to the recent past Contrary to standard theories of modernisation which tend to regard religious individualisation as a specifically modern or early modern as well as an essentially Western or Christian phenomenon the chapters reveal processes of religious individualisation in a large variety of non Western and pre modern scenarios Furthermore the volume challenges prevalent views that regard religions primarily as collective phenomena and provides nuanced perspectives on the appropriation of religious agency the pluralisation of religious options dynamics of de traditionalisation and privatisation the development of elaborated notions of the self the facilitation of religious deviance and on the notion of dividuality      *Underground Mathematics* Thomas Morel, 2022-12-22 Thomas Morel tells the story of subterranean geometry a forgotten discipline that developed in the silver mines of early modern Europe Mining and metallurgy were of great significance to the rulers of early modern Europe required for the silver bullion that fuelled warfare and numerous other uses Through seven lively case studies he illustrates how geometry was used in metallic mines by practitioners using esoteric manuscripts He describes how an original culture of accuracy and measurement paved the way for technical and scientific innovations and fruitfully brought together the world of artisans scholars and courts Based on a variety of original manuscripts maps and archive material Morel recounts how knowledge was crafted and circulated among practitioners in the Holy Roman Empire and beyond Specific chapters deal with the material culture of surveying map making expertise and the political uses of quantification By carefully reconstructing the religious economic and cultural context of mining cities *Underground Mathematics* contextualizes the rise of numbered information practical mathematics and quantification in the early modern period      *Opuscula* Johann von Paltz, 1989 Keine ausführliche Beschreibung für Opuscula verfügbar      *Early Modern Color Worlds*, 2016-09-07 Color has recently become the focus of scholarly discussion in many fields but the categories of art craft science and technology unreflectively defined according to modern disciplines have not been helpful in understanding color in the early modern period Color worlds consisting of practices concepts and objects form the central category of analysis in this volume The essays examine a rich variety of color worlds and their constituent engagements with materials productions and the ordering and conceptualization of color Many color worlds

appear to have intersected and cross fertilized at the beginning of the seventeenth century the essays focus especially on the creation of color languages and boundary objects to communicate across color worlds or indeed when and why this failed to happen Contributors include Tawrin Baker Barbara H Berrie Fokko Jan Dijksterhuis Karin Leonhard Andrew Morrall Doris Oltrogge Valentina Pugliano Anna Marie Roos Romana Sammern Filzmoser and Simon Werrett *Art and Religious Reform in Early Modern Europe* Bridget Heal, Joseph Leo Koerner, 2017-11-29 The religious turmoil of the sixteenth century constituted a turning point in the history of Western Christian art The essays presented in this volume investigate the ways in which both Protestant and Catholic reform stimulated the production of religious images drawing on examples from across Europe and beyond Eight essays by leading scholars in the field Brings art historians and historians into productive dialogue Broad chronology from the sixteenth to the eighteenth century Broad geographical coverage Richly illustrated **Guide to Reprints** Albert James Diaz, 2008 **The Silver Empire** Oliver Volckart, 2024-02-16 The Silver Empire is the first comprehensive account of how the Holy Roman Empire created a common currency in the sixteenth century The problems that gave rise to the widespread desire to introduce a common a currency were myriad While trade was able to cope with and even to benefit from the parallel circulation of many different types of coin it nevertheless harmed both the common people and the political authorities The authorities in particular suffered from neighbours who used their comparatively good money as raw material to mint poor imitations Debasement of their own coinage provided an at best short term solution Over the medium and long term it drove the members of the Empire into rounds of competitive debasements until they realised that a common currency was the only answer that addressed the core of the problem Oliver Volckart examines the conditions that shaped the monetary outlook of the member states of the Empire paying particular attention to the uneven access to silver and gold Following closely the negotiations that prepared the common currency he is able to illuminate the interest groups that were formed what their agendas and ulterior motives were how alliances were forged and how it was eventually possible to obtain majority agreement on what a common currency should look like a silver based currency that was introduced in 1559 66 In fact in contrast to what historians once believed the common currency they achieved turns out to have functioned not significantly worse than other currencies of the time it had similar problems and similar advantages as the money issued by more centralized governments **A Magnificent Faith** Bridget Heal, 2017-08-04 A Magnificent Faith explains how and why Lutheranism a confession that derived its significance from the promulgation of God's Word became a visually magnificent faith a faith whose adherents sought to captivate Christians hearts and minds through seeing as well as through hearing Although Protestantism is no longer understood as an exclusively word based religion the paradigm of evangelical ambivalence towards images retains its power This is the first study to offer an account of the Reformation origins and subsequent flourishing of the Lutheran baroque of the rich visual culture that developed in parts of the Holy Roman Empire during the later seventeenth and early eighteenth centuries The volume opens with a discussion of the legacy of the

Wittenberg Reformation Three sections then focus on the confessional devotional and magnificent image exploring turning points in Lutherans attitudes towards religious art Drawing on a wide variety of archival printed and visual sources from two of the Empire s most important Protestant territories Saxony the heartland of the Reformation and Brandenburg A Magnificent Faith shows the extent to which Lutheran culture was shaped by territorial divisions It traces the development of a theologically grounded aesthetic and argues that images became prominent vehicles for the articulation of Lutheran identity not only amongst theologians but also amongst laymen and women By examining the role of images in the Lutheran tradition as it developed over the course of two centuries A Magnificent Faith offers a new understanding of the relationship between Protestantism and the visual arts *Markets and their Actors in the Late Middle Ages* Tanja Skambraks, Julia Bruch, Ulla Kypta, 2020-11-23 Markets feature prominently in recent research of premodern historians as well as economists Discussions cover the questions for example how a market can be grasp as a place an event or a mechanism of exchange or whether premodern economies have just hosted markets or if some of them can even be regarded as market economies The proposed volume will now turn to the agents who forged and connected markets Exchange was done between persons and with the help of persons Artisans retailers and poor people tried to better their living conditions by engaging on the market merchants interconnected different markets urban personnel such as brokers men working at the public scales or the town council as a whole regulated and facilitated exchange By focusing on economic practices and the agents who performed them the volume aims at analyzing the specific characteristics of premodern markets the reasons why people became active on the market and the institutions which formed exchange processes and were in turn shaped by them *From Distant Lands: Nine Family Genealogies* Alan A. Siegel, 1970 **The Reformation** Andrew Pettegree, 2004 Reflects both the classic building blocks of Reformation history and also the new historiography which has emerged in recent years **The Process of Change in Early Modern Europe** Miriam Usher Chrisman, 1988 **British Museum Catalogue of Printed Books**, 1892 **Archiv Für Reformationsgeschichte**, 2007 **Bericht über das Königliche Realgymnasium nebst Progymnasium zu Annaberg** Königliches Realgymnasium nebst Progymnasium (Annaberg, Erzgebirge), 1892 *Katalog des antiquarischen Lagers von T.
