

HISTORIANS ON

# History

SECOND EDITION

EDITED BY JOHN TOSH

"This is an indispensable collection of accessible and stimulating extracts from historians whose works have shaped modern historical practice. This book is crucial reading not only for students of historiography, but also for anyone seeking a wide-ranging introduction to the foundational texts of the discipline."

Professor Robert Shoemaker,  
History Department, University of Sheffield

No enterprise as laborious and long-drawn out as the writing of history can be pursued without deeply held convictions as to its purpose and significance. With this in mind, *Historians on History* addresses the nature of historical enquiry by bringing together in one volume the key writings of many of the best known 20th century historians including Braudel, Carr, Elton, Guha, Hobsbawm, Samuel, Scott, and Zeldin.

This new edition begins with a substantial survey by John Tosh charting historiographical developments over the past sixty years. Each section of readings that follow includes a brief scene-setting introduction and illuminates the political, social and personal assumptions which have governed and sustained historical practice and theory. The selection of readings has been carefully revised to reflect the latest trends. The anthology strikes a balance between the academic mainstream and recent, more radical voices within the discipline. Students thus have access to a wide range of themes and debates, including:

- The nation
- Marxism
- History from Below
- Gender

- Postcolonialism
- History as Social Science
- The New Cultural History
- Memory and Culture

This now classic Reader continues to provide the core readings for all History and Theory courses and will promote further debate across related disciplines including philosophy and literature.

John Tosh is Professor of History at Roehampton University, London. He is a distinguished historian of gender in modern British history and historiography. He is the author of the best-selling *The Pursuit of History*, now in its fourth edition (2006), and also *Why History Matters* (2008).

John Tosh,2000 **History in Practice 2nd edition** Ludmilla Jordanova,2016-07-28 History in Practice explores the discipline s breadth its complexities and the tasks it takes on This study by one of the liveliest and most acute practitioners in the field demystifies what historians do It looks at history as an academic discipline but also engages with the use of historical ideas in the wider world Historical work has public consequences and draws considerable energy from contemporary preoccupations For this new edition of her respected and widely used book Ludmilla Jordanova has revised the text and added a new chapter that takes into account recent world events She discusses the role of the internet globalisation world history and the current enthusiasm for military history This book is essential reading for all students needing an understanding of history as a discipline **The Historians' History of the World Vol.2 (of 25) (Illustrations)** Henry Smith Williams, Many a nation has walked God s earth has long enjoyed its good things has come into being and passed away without our knowing anything of its history or even whether it had a history at all For no nation has a history except one that makes history that is to say that influences the course of human development It is with races as with individuals none is kept in mind by posterity save those who have distinguished themselves by ideas that have modified the life of mankind or which comes to the same thing have been pioneers in fresh fields of action The greater the spiritual gain a nation has brought to the rest of the world the longer and more steadily its life has flowed in the channels it was the first to make the longer is its history told among them The nations of history are those which have put forward in one fashion or another their claim to the dominion of the world Thus we may fitly ask what claim it is that is made upon our interest by the history of the Jewish nation And the answer will be that nothing which excites our attention or stirs us to admiration or imitation in the history of other nations is here present in any large measure Israel was always a small nay a petty nation settled in a narrow space never of any considerable importance in the political history of the East it never brought forth a Ramses II a Sargon an Esarhaddon an Assurbanapal a Nebuchadrezzar or a Cyrus to bear its banner into distant lands Yet for all this the history of Israel has for us an interest quite different from that of those other nations of antiquity And if as we see Israel is far surpassed in martial glory by the peoples of the great empires and by the Romans in their influence on the development of law there are yet other

points in which it must yield unquestioned precedence to other nations of antiquity We do not find in Israel the same feeling for beauty as among the Greeks who like no nation before them or after showed forth the laws of beauty in every sphere of intellectual life and to this day in such matters stand forth in a perfection which has never again been attained far less excelled Among the Hebrews there is nothing analogous nothing comparable to what we admire in the Hellenic people It has no epic nothing that can be compared with the Iliad and the Odyssey against which the Germans set the Nibelungen Lied and the Finns the Kalewala it has not the slightest rudiments of a drama the Song of Songs and Job are not dramas There is a school of lyrical poetry unsurpassed for all time and the music that corresponds to it But the bent towards science which actuates the Greeks is wholly lacking wholly lacking the bent towards 2 philosophy Nor was it ever eminent in ancient days in the walks of commerce enterprise and invention by which also a nation may conquer the world its intellectual life is absolutely one sided a one sidedness that produces on us the effect of extreme singularity But the attraction it has for us does not lie in this singularity It is due rather to the circumstance that this small nation has exerted a far greater influence over the course of the history of the whole human race than the Greeks or Romans that to us it has become typical in many more respects than they Our present modes of thought and feeling our lives and actions are far more profoundly influenced by the world of thought and feeling which Israel brought to the birth than by that of Greece or Rome Our whole civilisation to day is saturated with tendencies and impulses which have their origin in Israel To be continue in this ebook *History in Practice 2nd edition* Ludmilla Jordanova,2016-07-28 Exploring the breadth and complexities of history as a field of study History in Practice demystifies what historians actually do and the tasks they take on This study written by one of the most acute practitioners in the field examines not only the academic discipline but also engages with the use of historical ideas in the wider world The new edition features A new chapter on history in the digital age covering the use of information technology in historical practice Extended coverage of the relationships between history and other disciplines Fresh material on current trends in the practice of history Over 35 new illustrations spread throughout the book drawn from around the world This book is essential reading for all students seeking an understanding of history as a discipline The Historians' History of the World Henry Smith Williams,1926 The Historian's Toolbox Robert C. Williams,2024-09-19 Now in its fifth edition The Historian s Toolbox is designed to help students become skilled in the intellectual process and craft of history offering an overview of the field and techniques for reading and writing about history The fifth edition expands the selection of tools available to students entering the workshop of history These include new chapters on digital history Indigenous peoples and gender history and new sections on the Voynich manuscript LGBTQ history slavery and a historian who survived the war in Ukraine The book has been fully updated to address the possibilities and limits of computerized approaches to doing history with careful attention paid to the benefits and controversies of artificial intelligence chatbots and the internet It demonstrates the continuing relevance of history in a cacophonous world of misinformation and censorship emphasizing

critical thinking facts and evidence as valuable means of understanding the past and shaping the future Engaging and accessible this volume is ideal for undergraduate courses in historiography and historical methods

The Historians' History of the World in Twenty-Five Volumes Various

Authors, 2020-09-28 Broadly speaking the historians of all recorded ages seem to have had the same general aims They appear always to seek either to glorify something or somebody or to entertain and instruct their readers The observed variety in historical compositions arises not from difference in general motive but from varying interpretations of the relative status of these objects and from differing judgments as to the manner of thing likely to produce these ends combined of course with varying skill in literary composition and varying degrees of freedom of action As to freedom of selective judgment the earliest historians whose records are known to us exercised practically none at all Their task was to glorify the particular monarch who commanded them to write The records of a Ramses a Sennacherib or a Darius tell only of the successful campaigns in which the opponent is so much as mentioned only in contrast with the prowess of the victor With these earliest historians therefore the ends of historical composition were met in the simplest way by reciting the deeds real or alleged of a king as Ramses Sennacherib or David or of the gods as Osiris or Ishtar or Yahveh As to entertainment and instruction the reader was expected to be overawed by the recital of mighty deeds and to draw the conclusion that it would be well for him to do homage to the glorified monarch human or divine A little later in what may be termed the classical period the historians had attained to a somewhat freer position and wider vision and they sought to glorify heroes who were neither gods nor kings but the representatives of the people in a more popular sense Thus the Iliad dwells upon the achievements of Achilles and Ajax and Hector rather than upon the deeds of Menelaus and Priam the opposing kings Hitherto the deeds of all these heroes would simply have been transferred to the credit of the king Now the individual of lesser rank is to have a hearing Moreover the state itself is now considered apart from its particular ruler The histories of Herodotus of Xenophon of Thucydides of Polybius in effect make for the glorification not of individuals but of peoples This shift from the purely egoistic to the altruistic standpoint marks a long step The writer now has much more clearly in view the idea of entertaining without frightening his reader and he thinks to instruct in matters pertaining to good citizenship and communal morality rather than in deference to kings and gods In so doing the historian marks the progress of civilisation of the Greek and early Roman periods In the medi val time there is a strong reaction To frighten becomes again a method of attacking the consciousness to glorify the gods and heroes a chief aim As was the case in the Egyptian and Persian and Indian periods of degeneration the early monotheism has given way to polytheism Hagiology largely takes the place of secular history A constantly growing company of saints demands attention and veneration To glorify these to show the futility of all human action that does not make for such glorification became again an aim of the historian But this influence is by no means altogether dominant and though there is no such list of historians worthy to be remembered as existed in the classical period yet such names appear as those of Einhard the biographer of Charlemagne De Joinville the panegyrist of Saint Louis Villani Froissart and Monstrelet the chroniclers and Comines Machiavelli and Guicciardini

**Conclusions** Reginald W. Bacon, 2019-09-18 *The Micro Historian's Guide to Research Evidence Conclusions* imparts useful guidance to motivated historians genealogists special interest researchers and local history enthusiasts As long buried sources become available via the internet more regular folks without a Ph D in history are joining the fun of information gathering and shining new light on under explored history yet often with no foundation of method The author answers the call with this volume paying forward the guidance received from long ago mentors as well as from present day historians and archivists Topics include research planning execution evaluation of evidence formulation of conclusions and the crafting of a summary narrative Each topic is enriched by practical examples from the author's experience The aim is to help the new practitioner build a foundation of research skills that leads to evidence based conclusions The author's perspective of experience as a disciplined researcher but also with roots as a no nonsense old school newspaper reporter occasionally prompts a mild tease of the buttoned down genealogy proof standard or conversely a deflating poke at flabby interpretation and moribund academic writing wherever it may fester *The Micro Historian's Guide to Research Evidence Conclusions* draws theory from dozens of history genealogy historiography and research giants through the ages The book also pays tribute to that long ago cigar chomping newspaper editor who admonished a young reporter Yer mother sez she loves ya You still gotta check it out

**The Regenerators, 2nd Edition** Ramsay Cook, 2016-06-16 A crisis of faith confronted many Canadian Protestants in the late nineteenth century With their religious beliefs challenged by the new biological sciences and historical criticism of the Bible they turned from personal salvation to the dire social problems of the industrial age *The Regenerators* explores the nature of social criticism in this era and its complex ties to the religious thinking of the day showing how the path blazed by nineteenth century religious liberals led not to the Kingdom of God on earth but ironically to the secular city The winner of the Governor General's Literary Award for Non Fiction when it was first published in 1985 *The Regenerators* became an instant classic for its fascinating portraits of evolutionists rationalists spiritualists socialists and free thinkers before the turn of the century This new edition features an introduction by historian and biographer Donald Wright
