Williams, 2016-03-23 Richard Williams surveys the history of the cooperative movement from its origins in the 18th century and deals with the theory of cooperation as contrasted with the Standard Economic Model based on competition The book contains the results of field studies of a number of successful cooperatives both in the developed and developing world It includes insights from personal interviews of cooperative members and concludes by considering the successes and challenges of the cooperative movement as an alternative to the global neo colonialism and imperialism that now characterizes free market capitalist approaches to globalization The book considers democratic and local control of essential economic activities such as the production distribution and retailing of goods and services It suggests that cooperative approaches to these economic activities are already reducing poverty and resulting in equitable distributions of wealth and income without plundering the resources of developing countries *The Cooperative Business Movement, 1950 to the Present* Patrizia Battilani, Harm G. Schröter, 2012-08-27 An overview of the development of cooperatives over the last fifty years addressing the major challenges that they face in the future Historical Dictionary of the Russian Civil Wars, 1916-1926 Jonathan D. Smele, 2015-11-19 This book is a detailed reference of the twentieth century struggles that were waged across and beyond the decaying Russian Empire at the end of the First World War as tsarism and democratic alternatives to it collapsed and the world's first Communist state the Union of Soviet Socialist Republics was born At the same time it is a necessary corrective to studies that have viewed events of the time as a unitary Russian Civil War that sprang from the Russian Revolution of 1917 Instead it contributes to the ongoing process of integrating the civil wars into a continuum of crises that wracked the Russian Empire and its would be successor states across a prolonged period The Historical Dictionary of the Russian Civil Wars 1916 1926 covers the history of this period through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has almost 2 000 cross referenced entries on individuals political and governmental institutions and political parties and military formations and concepts as well as religion art film propaganda uniforms and weaponry This book is an excellent access point for students researchers and anyone wanting to know more about the Russian Civil War **Their Future** Michael Gubser, 2025-05-27 A compelling examination of how economic development projects ignore local history and the effects of this shortsightedness Foreign aid planners rarely consider the history of the societies in which they work an oversight noted in the development literature but rarely examined Aid programs costing billions of dollars operate largely in a historical vacuum divorced from the knowledge

of what succeeded or failed in the past Michael Gubser chronicles the varieties of ahistoricism in international development theory and practice since 1945 He traces the history of development ideas analyzing key theoretical and policy statements to highlight the marginalization of history in favor of technical solutions to economic and social problems and he examines aid programs in several developing countries to show how Western models of social and economic development have been applied and misapplied

The Oxford Handbook of Mutual, Co-Operative, and Co-Owned Business Jonathan Michie, Joseph R. Blasi, Carlo Borzaga, 2017-03-30 The Oxford Handbook of Mutuals and Co Owned Business investigates all types of member owned organizations whether consumer co operatives agricultural and producer co operatives worker co operatives mutual building societies friendly societies credit unions solidarity organizations mutual insurance companies or employee owned companies Such organizations can be owned by their consumers the producers or the employees whether through single stakeholder or multi stakeholder ownership This complex set of organizations is named differently across countries from mutual in the UK to solidarity cooperatives in Latin America In some countries such organizations are not even officially recognized and thus lack a specific denomination For the sake of clarity this Handbook will refer to member owned organizations to encompass the variety of non investor owned organizations and in the national case study chapters the terms used will be those most widely employed in that country These alternative corporate forms have emerged in a variety of economic sectors in almost all advanced economies since the time of the industrial revolution and the development of capitalism through the subsequent creation and dominance of the limited liability company Until recently these organizations were generally regarded as a rather marginal component of the economy However over the past few years member owned organizations have come to be seen in some countries at least as potentially attractive in light of their ability to tackle various economic and social concerns and their relative resilience during the financial and economic crises of 2007 2013

A *History of Australian Co-operatives 1827-2023* Greg Patmore, Nikola Balnave, Olivera Marjanovic, 2024-02-13 Co operatives provide a different approach to organising business through their ideals of member ownership and democratic practice Every co operative member has an equal vote regardless of his or her own personal capital investment They take a variety of different forms including consumer co operatives agricultural co operatives worker co operatives and financial co operatives Patmore Balnave and Marjanovic provide a perspective on Australian co operative development within a conceptual framework and international context since the 1820s by exploring the economic political and social factors that explain their varying fortunes Drawing upon the Visual Historical Atlas of Australian Co operatives a significant database of Australian co operatives and a variety of historical sources this book provides a detailed historical analysis of their development from their inception in Australia to today Australian co operatives were heavily dependent on state sympathy for their growth and vulnerable to ideas that challenged collective organisation such as Neo liberalism Despite these challenges the co operative business model has persisted and since 2009 there has been resurgence of interest and organisation that may provide a

platform for future growth A useful resource for practitioners students educators policy makers and researchers that highlights a significant alternative business model to the Investor Owned Business and state enterprise The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Innovative Consumer Co-operatives Greg

Patmore, 2020-04-14 Consumer co-operatives provide a different approach to organizing business through their ideals of member ownership and democratic practice Every co-operative member has an equal vote regardless of his or her own personal capital investment The co-operative movement can also be an important force in promoting development and self-sufficiency in poorer areas particularly in non-industrialised countries This book explores in depth the fortunes of the Berkeley Consumer Co-operative which became the largest consumer co-operative in the United States with 116 000 members in 1984 and viewed nationally as a leader in innovative retail practices and a champion of consumer rights The Berkeley Consumer Co-operative is promoted by both supporters and opponents of the co-operative business model as a significant example of what can go wrong with the co-operatives This book will provide the first in-depth analysis of the history of the Berkeley Co-operative using its substantial but little used archives and oral histories to explore what the Berkeley experience means for the co-operative business model The specific chapters relating to Berkeley will be organised around particular themes to highlight the issues relating to the co-operative business model and the local context of Berkeley The themes relate to developments in Berkeley and the Bay Area in terms of the economy politics and the retail environment the management of the Berkeley co-operative looking at governance financial management and strategic decisions relationship of management with members and employees and finally the relationship of the Berkeley Co-operative with the community The core message of the book is that it is not inevitable that consumer co-operatives fail but that the story of Berkeley story can provide insights that can strengthen the co-operative business model and minimise failures on the scale of Berkeley occurring in the future

Transnational Encounters? Andrea Ciampani, Thomas Kroll, 2025-05-19 In the decades around 1900 there was a real boom in the establishment of nongovernmental international organizations in Europe Their congresses debated a wide range of scientific political and social problems that had arisen with the industrial development and the dynamics of internationalization since the 1880s The elites that were engaged in the meetings of international organizations reacted to sociopolitical or economic change and developed new concepts for societal reform The nation remained central to the world views of these elites and to the

professional or political careers of their members Internationalism and nationalism were closely linked in the decades before World War I This shaped also their relations with national governments the concrete forms of internal cooperation of international associations and even the specific sociability of the transnational meetings of the elites The contributions in this volume deal with the elites and encounters of various types of international organizations **The History of Social**

Ogot,1981 Seeing Like a Citizen Kara Moskowitz,2019-11-12 In *Seeing Like a Citizen* Kara Moskowitz approaches Kenya s late colonial and early postcolonial eras as a single period of political economic and social transition In focusing on rural Kenyans the vast majority of the populace and the main targets of development interventions as they actively sought access to aid she offers new insights into the texture of political life in decolonizing Kenya and the early postcolonial world Using multisited archival sources and oral histories focused on the western Rift Valley *Seeing Like a Citizen* makes three fundamental contributions to our understanding of African and Kenyan history First it challenges the widely accepted idea of the gatekeeper state revealing that state control remained limited and that the postcolonial state was an internally varied and often dissonant institution Second it transforms our understanding of postcolonial citizenship showing that its balance of rights and duties was neither claimed nor imposed but negotiated and differentiated Third it reorients Kenyan historiography away from central Kenya and elite postcolonial politics The result is a powerful investigation of experiences of independence of the meaning and form of development and of how global political practices were composed and recomposed on the ground in local settings Cooperatives in New Orleans Anne

Gessler,2020-06-04 Cooperatives have been central to the development of New Orleans Anne Gessler asserts that local cooperatives have reshaped its built environment by changing where people interact and with whom helping them collapse social hierarchies and envision new political systems Gessler tracks many neighborhood cooperatives spanning from the 1890s to the present whose alliances with union consumer and social justice activists animated successive generations of regional networks and stimulated urban growth in New Orleans Studying alternative forms of social organization within the city s multiple integrated spaces women people of color and laborers blended neighborhood based African Caribbean and European communal activism with international cooperative principles to democratize exploitative systems of consumption

production and exchange From utopian socialist workers unions and Rochdale grocery stores to black liberationist theater collectives and community gardens these cooperative entities integrated marginalized residents into democratic governance while equally distributing profits among members Besides economic development neighborhood cooperatives participated in heady debates over urban land use applying egalitarian cooperative principles to modernize New Orleans s crumbling infrastructure monopolistic food distribution systems and spotty welfare programs As Gessler indicates cooperative activists deployed street level subsistence tactics to mobilize continual waves of ordinary people seizing control over mainstream economic and political institutions
