Chijioke, Pink Dandelion, John William Oliver, 2011-12-01. The modern reputation of Friends in the United States and Europe is grounded in the relief work they have conducted in the presence and aftermath of war. Friends, also known as Quakers, have coordinated the feeding and evacuation of children from war zones around the world. They have helped displaced persons without regard to politics. They have engaged in the relief of suffering in places as far flung as Ireland, France, Germany, Ethiopia, Egypt, China and India. Their work was acknowledged with the award of the Nobel Peace Prize in 1947 to the American Friends Service Committee (AFSC) and the Friends Service Council of Great Britain. More often, however, Quakers live, worship and work quietly without seeking public attention for themselves. Now the Friends are a truly worldwide body and are recognized by their Christ-centered message of integrity and simplicity as well as their nonviolent stance and affirmation of the belief that all people, women as well as men, may be called to the ministry. Vatican II Melissa J. Wilde,2018-06-05 On an otherwise ordinary Sunday morning in 1964 millions of Roman Catholics around the world experienced history For the first time in centuries they attended masses that were conducted mostly in their native tongues This occasion marked only the first of many profound changes to emanate from the Second Vatican Council 1962 1965 Known popularly as Vatican II it would soon give rise to the most far reaching religious transformation since the Reformation In this groundbreaking work of cultural and historical sociology Melissa Wilde offers a new explanation for this revolutionary transformation of the Church Drawing on newly available sources including a collection of interviews with the Council s key bishops and cardinals and primary documents from the Vatican Secret Archive that have never before been seen by researchers Wilde demonstrates that the pronouncements of the Council were not merely reflections of papal will but the product of a dramatic confrontation between progressives and conservatives that began during the first days of the Council The outcome of this confrontation was determined by a number of factors the Church s decline in Latin America its competition and dialogue with other faiths particularly Protestantism in northern Europe and North America and progressive clerics deep belief in the holiness of compromise and their penchant for consensus building Wilde s account will fascinate not only those interested in Vatican II but anyone who wants to understand the social underpinnings of religious change
