Pamphlets and Reprints Howard Mumford Jones, Paul Van Brunt Jones, Samuel Arthur Jones, 1924 *A Concise Natural History of East and West Florida* Bernard Romans, 1999-11-15 Braund presents the only annotated edition of Bernard Romans s rare and valuable 18th century account of his observations in the southeastern United States Bernard Romans s *A Concise Natural History of East and West Florida* William Bartram s *Travels* and James

Adair's History of the American Indian are the three most significant accounts of the southeastern United States published during the late 18th century. This new edition of Romans's Concise Natural History, edited by historian Kathryn Braund, provides the first fully annotated edition of this early and rare description of both the European settled areas and the adjoining Indian lands in what are now the states of Florida, Georgia, Alabama, Mississippi, and Louisiana. Romans's purpose in producing his Concise Natural History was twofold: to aid navigators and shippers by detailing the sailing passages of the region and to promote trade and settlement in the region. To those ends, he provided detailed scientific observations on the natural history of the area, a summary of the region's political history, and an assessment of the potential for economic growth in the Floridas based on the area's natural resources. A trained surveyor and cartographer and a self-taught naturalist, Romans supplied detailed descriptions of the region's topography and environment, including information about the climate and weather patterns, plants, animals, and diseases. He provided information about the state of scientific inquiry in the South and touched on many of the most important intellectual arguments of the day, such as the origin of the races, the practice of slavery, and the benefits and drawbacks of monopoly on trade. In addition, Concise Natural History can be placed firmly in the genre of colonial promotional literature. Romans's book was an enthusiastic guide aimed at those seeking to establish modest holdings in the region. What a field is open here! No country ever had such inexhaustible resources; no empire had ever half so many advantages combining in its behalf. Romans explained how settlers should travel to the area, what they would need in terms of provisions and tools, and what it would cost to have their land surveyed. In addition to providing an abundance of practical advice, Romans also offered information about the history of earlier settlements, including the earliest and most complete account of New Smyrna near St. Augustine. Romans also presented unique information about the various Indian tribes he encountered. In fact, historians agree that among the most useful portions of the book are Romans's descriptions of the largest Indian tribes in the 18th century Southeast: the Creeks, Choctaws, and Chickasaws. Romans's account of the diet of the Creeks and Choctaws is one of the most complete available. And his description of the location of Choctaw village sites is one of the best sources for this information.

The Middle Ages in the Modern World Bettina Bildhauer, Chris

Jones, 2017-09-28. This book provides many fresh perspectives on why and how the Middle Ages continue to matter so much in the 21st century. It is therefore as much about recent cultural and political history as it is about medieval history and medieval literature. The introduction provides a long overview of medievalism from the 14th to the 21st centuries.

The National union catalog, 1968-1972, 1973 The Swords of Ezekiel Tom McCall ThD, Ed Barrett MS, 2024-05-08 To those who have a fairly good background in the hard sciences Maybe Ezekiel really did mean horses and ancient armor The Swords of Ezekiel accepts the plain teaching of the text that the Magog raiders wield weapons from the generation before the Gunpowder Revolution and use horses for transportation Consequently the narrative that emerges is a dramatic departure from the generally accepted modern weapons teaching of present day scholars In this alternative understanding the two chapters are complementary descriptions of the same series of events i.e One has details that the other does not have The chronological narrative emerges when the two segments are properly aligned like a spline gear on a drive shaft Thoroughly referenced this is the book to read for a better understanding of the relationship between natural science European history legend as guide to history art as secular prophet archaeology outside the Near East and Bible prophecy The primary motives for the raid are anti Israel resentment jealousy and near starvation levels of crop failure hunger The absence of modern weapons is explained as a combination of industrial collapse and an as yet unobserved destabilization of nitrate based propellants and explosives The merchants of Tarshish are identified as the British Commonwealth based on cultural heritage mineral resources geography and geopolitics The Swords of Ezekiel also suggests a location for these events on the prophetic timeline Eminent Persons, Biographies Reprinted from the Times, 1897 **A History of the Fishes of the**
