Buckler,Roger B. Beck,Clare Haru Crowston,Patricia Buckley Ebrey,Merry E. Wiesner-Hanks,2011-10-05 A History of World Societies introduces students to the global past through social history and the stories and voices of the people who lived it Now published by Bedford St Martin s and informed by the latest scholarship the book has been thoroughly revised with students in mind to meet the needs of the evolving course Proven to work in the classroom the book s regional and comparative approach helps students understand the connections of global history while providing a manageable organization With more global connections and comparisons more documents special features and activities that teach historical analysis and an entirely new look the ninth edition is the most teachable and accessible edition yet Test drive a chapter today Find out how **The Cambridge History of War: Volume 4, War and the Modern World** Roger Chickering,Dennis Showalter,Hans van de Ven,2012-09-27 Volume IV of The Cambridge History of War offers a definitive new account of war in the most destructive period in human history Opening with the massive conflicts that erupted in the

mid nineteenth century in the US Asia and Europe leading historians trace the global evolution of warfare through the age of mass the age of machine and the age of management They explore how industrialization and nationalism fostered vast armies whilst the emergence of mobile warfare and improved communications systems made possible the total warfare of the two World Wars With military conflict regionalized after 1945 they show how guerrilla and asymmetrical warfare highlighted the limits of the machine and mass as well as the importance of the media in winning hearts and minds This is a comprehensive guide to every facet of modern war from strategy and operations to its social cultural technological and political contexts and legacies Handbook to Life in the Medieval World, 3-Volume Set Madeleine Pelter Cosman, Linda Gale Jones, 2009

Presents a three volume set that examines the medieval civilizations of the Muslims Jews and Christians including history economics medicine technology art literature and clothing **At Nature's Edge** Gunnel Cederlöf, Mahesh

Rangarajan, 2018-09-18 In an epoch when environmental issues make the headlines this is a work that goes beyond the everyday Ecologies as diverse as the Himalayas and the Indian Ocean coast the Negev desert and the former military bases of Vietnam or the Namib desert and the east African savannah all have in common a long time human presence and the many ways people have modified nature With research covering countries from Asia Africa and Australia the authors come together to ask how and why human impacts on nature have grown in scale and pace from a long pre history The chapters in this volume illumine specific patterns and responses across time going beyond an overt centring of the European experience The tapestry of life and the human reshaping of environments evoke both concern and hope making it vital to understand when why and how we came to this particular turn in the road Eschewing easy labels and questioning eurocentrism in today's climate vocabulary this is a volume that will stimulate rethinking among scholars and citizens alike **Bully Beef &**

Balderdash Graham Wilson, 2012-03-15 The Australian Imperial Force first raised in 1914 for overseas war service became better known by its initials the AIF There was a distinct character to those who enlisted in the earliest months and who were destined to fight on Gallipoli During the war the AIF took its place among the great armies of the world on some of history's oldest battlefields The Australians would attack at the Dardanelles enter Jerusalem and Damascus defend Amiens and Ypres and swagger through the streets of Cairo Paris and London with their distinctive slouch hats and comparative wealth of six shillings per day However the legend of the AIF is shrouded in myth and mystery Was Beersheba the last great cavalry charge in history Did the AIF storm the red light district of Cairo and burn it to ground while fighting running battles with the military police Was the AIF the only all volunteer army of World War I Graham Wilson's Bully Beef and Balderdash shines an unforgiving light on these and other well known myths of the AIF in World War I arguing that these spectacular legends simply serve to diminish the hard won reputation of the AIF as a fighting force Graham Wilson mounts his own campaign to rehabilitate the historical reputation of the force and to demonstrate that misleading and inaccurate embellishment does nothing but hide the true story of Australia's World War I fighting army Bully Beef and Balderdash deliberately tilts at some

well loved windmills and for those who cherish the mythical story of the AIF this will not be comfortable reading Yet given the extraordinary truth of the AIF s history it is certainly compelling reading **Earthopolis** Carl H. Nightingale,2022-06-09 A panoramic study of our Urban Planet that takes readers on a six continent six millennia tour of the world s cities **The Language of Silence - Volume 2** George Schloss,2008-02-01 Taking Alpha and Omega of human experience both in terms of human history and individual experience as his framework George Schloss signposts the journey from Alpha at the outset where we move from wholeness into separation through the evolution of consciousness in a history which ultimately creates the conditions for reintegration at Omega We are thus returned to wholeness enhanced by the experience and the fruits not simply of the individual life but of the history of mankind the means of the reintegration and conversion are a series of experiments designed by Douglas Harding A two volume edition Volume 1 Essays Volume 2 Letters *Information and Power in History* Ida Nijenhuis,Marijke van Faassen,Ronald Sluijter,Joris Gijzenbergh,Wim de Jong,2020-01-29 The relationship between information and power is a relevant subject for all times Today s perceived information revolution has caused information to become a separate object of study during the last two decades for several disciplines As the contemporary perspective is dominant information history as a discipline of its own has not yet crystallized In bringing together studies around a new research agenda on the relationship between information and power across time and space presenting various governance regimes media materials and modes of communication this book forces us to rethink the prospects and challenges for such a new discipline **The Oxford Handbook of the Archaeology of the Contemporary World** Paul Graves-Brown,Rodney Harrison,Angela Piccini,2013-10 This Handbook is the first comprehensive survey of a rapidly expanding sub field in archaeology the study of the present and recent past It seeks to explore the boundaries of this emerging area to develop a tool kit of concepts and methods which are applicable to this new sub field and to suggest important future trajectories for research The Fin-de-Siècle World Michael Saler,2014-11-20 This comprehensive and beautifully illustrated collection of essays conveys a vivid picture of a fascinating and hugely significant period in history the Fin de Si ècle Featuring contributions from over forty international scholars this book takes a thematic approach to a period of huge upheaval across all walks of life and is truly innovative in examining the Fin de Si ècle from a global perspective The volume includes pathbreaking essays on how the period was experienced not only in Europe and North America but also in China Japan the Middle East Latin America Africa India and elsewhere across the globe Thematic topics covered include new concepts of time and space globalization the city and new political movements including nationalism the New Liberalism and socialism and communism The volume also looks at the development of mass media over this period and emerging trends in culture such as advertising and consumption film and publishing as well as the technological and scientific changes that shaped the world at the turn of the nineteenth century such as the invention of the telephone new transport systems eugenics and physics The Fin de Si ècle World also considers issues such as selfhood through chapters looking at gender

sexuality adolescence race and class and considers the importance of different religions both old and new at the turn of the century Finally the volume examines significant and emerging trends in art music and literature alongside movements such as realism and aestheticism This volume conveys a vivid picture of how politics religion popular and artistic culture social practices and scientific endeavours fitted together in an exciting world of change It will be invaluable reading for all students and scholars of the Fin de Si cle period

The Rowman & Littlefield Handbook of Christianity in the Middle East

Mitri Raheb, Mark A. Lamport, 2020-12-15 This work represents the current and most relevant content on the studies of how Christianity has fared in the ancient home of its founder and birth Much has been written about Christianity and how it has survived since its migration out of its homeland but this comprehensive reference work reassesses the geographic and demographic impact of the dramatic changes in this perennially combustible world region The Rowman Littlefield Handbook of Christianity in the Middle East also spans the historical socio political and contemporary settings of the region and importantly describes the interactions that Christianity has had with other major minor religions in the region

The Global Politics of Globalization Barry K. Gills, 2013-09-13 Are we moving inexorably towards a new empire or is global civil society transforming global politics into a new cosmopolis In The Global Politics of Globalization the alternatives of Empire and Cosmopolis are counter poised as representative of two antithetical conceptions and practices of world order both historically and in the present era and each expresses an alternative idea of human unity and community Today global politics is embroiled in a clash of globalizations a clash between these two opposed forms of world order The contributions in the debate range from deep historical reflections on world civilizations critique of neoliberal economics and imperialism new thinking on the ideals and practices of global citizenship the philosophical basis for cosmopolitan politics and the emergence of new forms of global social forces and movements Previously published as a special issue of Globalizations this book brings together a very distinguished set of contributors to explore and debate the relationship between globalization processes and world order in light of recent controversies over the return of empire
