The Oxford History of Classical Reception in English Literature Patrick Cheney, Philip Hardie, 2015-10-29 The Oxford  
 History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways  
 in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full  
 range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and  
 presents cutting edge new research employing an international team of expert contributors for each of the five volumes  
 OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the  
 processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a  
 complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical  
 analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as  
 much light on the classical originals as it does on the English writers own cultural context This second volume and third to  
 appear in the series covers the years 1558 1660 and explores the reception of the ancient genres and authors in English  
 Renaissance literature engaging with the major and many of the minor writers of the period including Shakespeare Marlowe  
 Spenser and Jonson Separate chapters examine the Renaissance institutions and contexts which shape the reception of  
 antiquity and an annotated bibliography provides substantial material for further reading **Yale Classics - Ancient**
