Historical Agency and the 'Great Man' in Classical Greece Sarah Brown Ferrario, 2014-10-02 The great man of later Greek historical thought is the long product of traceable changes in ancient ideas about the meaning and impact of an individual life At least as early as the birth of the Athenian democracy questions about the ownership of the motion of history were being publicly posed and publicly challenged The responses to these questions however gradually shifted over time in reaction to historical and political developments during the fifth and fourth centuries BC These ideological changes are illuminated by portrayals of the roles played by individuals and groups in

significant historical events as depicted in historiography funerary monuments and inscriptions The emergence in these media of the individual as an indispensable agent of history provides an additional explanation for the reception of Alexander the Great the Greek world had long since been prepared to understand him as it did

**The Contemporary Reception of Classical Rhetoric** Kathleen E. Welch, 2013-11-05 Responding to the reassertion of orality in the twentieth century in the form of electronic media such as the telegraph film video computers and television this unique volume traces the roots of classical rhetoric in the modern world Welch begins by changing the current view of classical rhetoric by reinterpreting the existing texts into fluid language contexts a change that requires relinquishing the formulaic tradition acquiring an awareness of translation issues and constructing a classical rhetoric beginning with the Fifth Century B C She continues with a discussion of the adaptability of this material to new language situations including political cultural and linguistic change providing it with much of its power as well as its longevity The book concludes that classical rhetoric can readily address any situation since it focuses not only on critical stances toward discourse that already exists but also presents elaborate theories for the production of new discourse

**History of Rhetoric, Volume I** George A. Kennedy, 2015-12-08 A concern for the art of persuasion as rhetoric was anciently defined was a principal feature of Greek

intellectual life In this study of the complex of subjects labeled rhetoric the author explores rhetorical theory and practice from the fifth to the first centuries B C Beginning with the creative rhetoric of the pre Socratic era the study progresses through the time of Aristotle and the Attic orators and concludes with the ossification of rhetoric into a pedantic discipline during the Hellenistic period Originally published in 1963 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      **Landmark Essays on**

**History of Classical Rhetoric** James Jerome Murphy, Richard A. Katula, Donovan J. Ochs, Forbes I. Hill, Prentice A. Mendor, 1995 The purpose of history is to help people understand the present by providing a sense of continuity to their lives The history of western civilization begins in Ancient Greece So much of what we observe around us art architecture poetry drama and political systems is derived from the Greeks Even religious beliefs and beliefs about the solar system emanate from the writings of Greek and Roman philosophers Writing itself is a phenomenon of Greek civilization Students seeking to understand the social impact of technologies such as writing print and television must begin their study with figures such as Socrates who was one of the first to be concerned with the changes in social interaction and consciousness wrought by the emergence of writing on portable material For students of language an awareness of the classical world is particularly important The study of human discourse is an entirely western phenomenon As far as one can judge from surviving evidence the Greeks were the only people of the ancient world who endeavored to analyze the ways in which human beings communicate with each other Greece is therefore the birthplace of the art of discourse which includes not only rhetoric but also logic and grammar Although many other ancient civilizations produced literature only the Greeks produced analytic expository treatises that attempted to discover the actual bases of human communication Written treatises and school systems which allowed rhetorical discoveries to be transmitted to others enabled the Greeks and later the Romans to amass a considerable body of precepts to guide speakers and writers This body of precepts forms the basis for the study of rhetoric the art of human discourse This book provides a clear understanding of the classical roots of rhetoric While no single volume can account for every idea developed by the ancients on the art of rhetoric this book seeks to present the concepts that will

most effectively provide today's student with a basis for understanding human communication. The text contains essays about the period original treatises by ancient writers with modern analyses that elaborate on their rhetorical precepts and representative speeches given by celebrated orators of the ancient world. In addition a bibliography of readings is presented for those who want to study this period more deeply.

### **Rhetorical Argumentation in Biblical Texts** Anders

Eriksson, Thomas H. Olbricht, Walter Übelacker, 2002-06-01 In the latest volume in the Emory Studies in Early Christianity series the contributors seek a better understanding of how various biblical authors present their arguments support their claims and attempt to persuade their readers. A century ago the rhetorical analysis of texts focused on the study of rhetorical figures in texts *elocutio*. In the mid twentieth century scholars such as James Muilenburg, Hans Dieter Betz and Wilhelm Wuellner introduced biblical scholars to the illustrious tradition of rhetorical study. These scholars tended to focus on the arrangement of the texts themselves *dispositio*. During the last ten years however interpreters have increasingly studied the rhetorical argumentation in texts. The authors in this volume examine rhetorical argumentation in the Hebrew Bible, the Gospels, the Pauline letters and the Book of Revelation offering striking new readings of these materials. Contributors include J. David Hester, Amador Center for Rhetoric and Hermeneutics, R. Dean Anderson, Valkenburg, The Netherlands, Harold W. Attridge, Yale Divinity School, L. Gregory Bloomquist, St. Paul University, Ottawa, Michael R. Cosby, Messiah College, Rodney K. Duke, Appalachian State University, Frans H. van Eemeren, University of Amsterdam, Anders Eriksson, Lund University, Alan J. Hauser, Appalachian State University, Roy R. Jeal, William and Catherine Booth College, Manfred Kraus, Eberhard Karls Universität Tübingen, John W. Marshall, University of Toronto, Roland Meynet, Pontificia Università Gregoriana, Thomas H. Olbricht, Emeritus, Pepperdine University, Carol Poster, Florida State University, Rollin A. Ramsaran, Emmanuel School of Religion, Vernon K. Robbins, Emory University and University of Stellenbosch, Russell B. Sisson, Union College, Jerry L. Sumney, Lexington Theological Seminary, C. Jan Swearingen, Texas A. ### **Example Stories**

Jeffrey Tucker, 1997-01-01 This study challenges the popular notion that four parables in the Gospel of Luke, the Good Samaritan, the Rich Fool, the Rich Man, and Lazarus and the Pharisee and the Toll Collector are example stories. A wealth of scholars' views on the example stories are scrutinized with Adolf Jülicher's pivotal definition receiving special attention. The various criteria used to distinguish between parable and example are assessed from both a literary and a rhetorical perspective in order to ascertain what, if any, formal features are peculiar to the example stories. Tucker shows that attempts to differentiate the example stories from other narrative parables attributed to Jesus in the Synoptic Gospels are largely unsuccessful. The result is that these four parables in the Gospel of Luke can be seen for what they really are.
