Elman,2000-03-22 In this multidimensional analysis Benjamin A Elman uses over a thousand newly available

examination records from the Yuan Ming and Ch'ing dynasties 1315-1904 to explore the social, political, and cultural dimensions of the civil examination system, one of the most important institutions in Chinese history. For over five hundred years, the most important positions within the dynastic government were usually filled through these difficult examinations, and every other year, some one to two million people from all levels of society attempted them. Covering the late imperial system from its inception to its demise, Elman revises our previous understanding of how the system actually worked, including its political and cultural machinery, the unforeseen consequences when it was unceremoniously scrapped by modernist reformers, and its long-term historical legacy. He argues that the Ming-Ch'ing civil examinations from 1370 to 1904 represented a substantial break with Tang-Sung dynasty literary examinations from 650 to 1250. Late imperial examinations also made Tao Learning, Neo-Confucian learning, the dynastic orthodoxy in official life and in literati culture. The intersections between elite social life, popular culture, and religion that are also considered reveal the full scope of the examination process throughout the late empire.

Imre Nagy, Martyr of the Nation Karl P. Benziger, 2008-01-01. Imre Nagy is a compelling figure both in life and in death, one whose actions stimulated consequences in Hungary that continue into the present. Providing a summary review of Hungarian Cold War history, Benziger examines the ways in which the memory of the martyred prime minister and the story of the 1956 Revolution influenced political socialization in Hungary. The book begins with Nagy's 1989 funeral and the role memorialization played in the politics of transition, continuing with a review of the important personages and events that informed Nagy's life and afterlife, and it concludes in the tumultuous politics following the establishment of the Republic in 1989. Readers interested in Central and Eastern Europe will find this book useful as it expands the literature on history and memory and transition politics in the region.
