Inequity In The Global Village Recycled Rhetoric And Disposable People:

Inequity in the Global Village Jan Knippers Black, 1999 Links development issues generally treated in isolation Demonstrates how global transformations affect real people and communities As globalization rapidly replaces the cold war paradigm the narrow distribution of benefits from globalization has created a disturbing gap in wealth and power both among and within states In an impassioned style Jan Black analyzes the problems of increased nationalism growing refugee populations and the politics of exclusion This is a critical and brutally honest commentary on the complex transformation from a bipolar world to a global village Capitalism's Achilles Heel Raymond W. Baker, 2005-08-05 For over forty years in more than sixty countries Raymond Baker has witnessed the free market system operating illicitly and corruptly with devastating consequences In Capitalism's Achilles Heel Baker takes readers on a fascinating journey through the global free market system and reveals how dirty money poverty and inequality are inextricably intertwined Readers will discover how small illicit transactions lead to massive illegalities and how staggering global income disparities are worsened by the illegalities that permeate international capitalism Drawing on his experiences Baker shows how Western banks and businesses use secret transactions and ignore laws while handling some 1 trillion in illicit proceeds each year He also illustrates how businesspeople criminals and kleptocrats perfect the same techniques to shift funds and how these tactics negatively affect individuals institutions and countries **The Politics of Human Rights Protection** Jan Knippers Black, 2010-01-16 This important work argues that human rights abuse is not necessarily about distant places and peoples and it is neither incomprehensible nor inevitable Despite the appearance of consensus about the importance of human rights protection abuse with its common core in inequality is expanding at all levels from the petty to the profound Designed to inform and inspire this book also provides the analytical and strategic tools needed for the next generation of activists Jan Knippers Black offers a fundamental reexamination of the basic terms and concepts legal and institutional foundations controversies cleavages threats and strategies associated with human rights Black's perspective is holistic stressing the relevance of human rights issues to all human needs and endeavors and requiring multidisciplinary analysis Chapters analyzing connections among political economic ecological and cultural impacts on social and individual well being are accompanied by case studies highlighting lessons learned from success or failure This empowering book seeks to promote an each for all commitment breaking through barriers of ignorance and apathy denial and despair so that advocates and activists can work to prevent future atrocities **SOCIAL AND ECONOMIC DEVELOPMENT - Volume II** Salustiano del Campo, Tomoko Hamada, Giancarlo Barbiroli, Saskia Sassen, Eleonora Barbieri-Masini, Paul Nchoji Nkwi, Owen Sichone, Abubakar Momoh, 2010-11-15 Social and Economic Development is a component of Encyclopedia of Development and Economic Sciences in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Social and Economic Development provides the essential aspects and a myriad of issues of

The Post-Corporate World David C. Korten,2010-05-07

From the bestselling author of *When Corporations Rule the World* An extensively researched powerfully argued eye opening critique of how today's corporate capitalism is destroying the things of real value in the world like cancer destroys life Portrays a hopeful future alternatives to a corporate dominated and money ruled world in showing how to restore health to markets democracy and every day life Offers practical suggestions for individuals who want to contribute to the process of change Co published with Kumarian Press There is a deep chasm between the promises of the new global capitalism and the reality of social breakdown spiritual emptiness and environmental destruction it is leaving in its wake In this important book David Korten makes a compelling and well documented case that capitalism is actually delivering a fatal blow not only to life but also to democracy and the market Among his startling ideas Capitalism is a pathology that commonly afflicts market economies in the absence of vigilant public oversight Since the economy internal to a corporation is a planned economy the current consolidation of economic control under a handful of global corporations is a victory for central planning not the market economy The alternative to the new global capitalism is a global system of thriving healthy market economies that function as extensions of healthy local ecosystems to meet the livelihood needs of people and communities Radical as such proposals may seem they actually reflect processes that are steadily gaining momentum around the world The *Post Corporate World* provides a vision of what's needed and what's possible as well as a detailed agenda for change Korten shows that to have a just sustainable and compassionate society concentrated absentee ownership and footloose speculative capital as embodied in the global for profit public corporation must be eliminated in favor of enterprises based on patient rooted stakeholder ownership limited to those who have a stake in the firm as a worker supplier customer or member of the community in which it is located Korten outlines numerous specific actions to free the creative powers of individuals and societies through the realization of real democracy the local rooting of capital through stakeholder ownership and a restructuring of the rules of commerce to create mindful market economies that combine market principles with a culture that nurtures social bonding and responsibility Like Korten's previous bestseller *When Corporations Rule the World* this provocative book is sure to stimulate national dialogue and debate and inspire a bevy of grassroots discussions and initiatives The *Post Corporate World* presents readers with a profound challenge and an empowering sense of hope *Bioregionalism and Global Ethics* Richard Evanoff, 2010-09-13 While a number of schools of environmental thought including social ecology ecofeminism ecological Marxism ecoanarchism and bioregionalism have attempted to link social issues to a concern for the environment environmental ethics as an academic discipline has tended to focus more narrowly on ethics related either to changes in personal values or behavior or to the various ways in which nature might be valued What is lacking is a framework in which individual social and environmental concerns can be looked at not in isolation from each other but rather in terms of their interrelationships In this book Evanoff aims to develop just such a philosophical framework one in which ethical questions related to interactions between self society and nature can be discussed across disciplines and from a

variety of different perspectives The central problem his study investigates is the extent to which a dichotomized view of the relationship between nature and culture perpetuated in ongoing debates over anthropocentric vs ecocentric approaches to environmental ethics might be overcome through the adoption of a transactional perspective which offers a more dynamic and coevolutionary understanding of how humans interact with their natural environments Unlike anthropocentric approaches to environmental ethics which often privilege human concerns over ecological preservation and some ecocentric approaches which place more emphasis on preserving natural environments than on meeting human needs a transactional approach attempts to create more symbiotic and less conflictual modes of interaction between human cultures and natural environments which allow for the flourishing of both The Humanitarian Enterprise Larry Minear, 2002 Epilogue discussing the international response to the terrorist attacks of 2001 and the war in Afghanistan A fundamental text about the future of humanitarianism in the twenty first century International humanitarian activities have grown enormously in scale over the past decade and the complex links between humanitarian work and the worlds of politics and military engagement have become increasingly contested Larry Minear uncovers what international humanitarians including the UN national governments the Red Cross and many private relief and development agencies have learned about performing humanitarian work well and the arguments that remain unresolved *Critical Theories of Globalization* C. el-Ojeili, P. Hayden, 2006-07-28 This accessible text provides a comprehensive overview of globalization and its consequences from the perspective of social and political critical theory Thematic chapters provoke student inquiry and the book shows how the views of critical theorists are crucial to understanding the global processes shaping the world today Politics and Society in the Developing World Peter Calvert, Susan Calvert, 2014-06-03 In a world seemingly surfing a wave of unprecedented affluence it is sobering to be reminded that only thirty out of nearly two hundred countries can really be classified as advanced industrialized countries Eighty per cent of the world's population lives in the developing world This popular concise introduction scrutinises the developing world its varied political institutions and the key social economic and environmental issues at the heart of contemporary debates Wide ranging and clearly written *Politics and Society in the Developing World* begins by providing a brisk survey of the major theoretical and methodological interpretations of the social impact of development It then details the factors which determine the parameters of the developing world before moving on to examine its infrastructure and the crises currently facing it The book also covers the social and economic contexts of developing societies the international arena and its impact on the developing world state building and the tension between dictatorship and democratization The book focuses on four policy areas aid trade tourism and the environment *The Routledge Companion to Race and Ethnicity* Charlton D. McIlwain, 2010-11-17 The Routledge Companion to Race and Ethnicity is a comprehensive guide to the increasingly relevant broad and ever changing terrain of studies surrounding race and ethnicity Comprising a series of essays and a critical dictionary of key names and terms written by respected scholars from a range of

academic disciplines this book provides a thought provoking introduction to the field and covers The history and relationship between race and ethnicity The impact of colonialism and post colonialism Emerging concepts of whiteness Changing political and social implications of race Race and ethnicity as components of identity The interrelatedness and intersectionality of race and ethnicity with gender and sexual orientation Globalization media popular culture and their links with race and ethnicity Fully cross referenced throughout with suggestions for further reading and international examples this book is indispensable reading for all those studying issues of race and ethnicity across the humanities and social and political sciences

Globalization Kent Deng,2010-10-05 This is a collective volume on present day globalisation with nine chapters from authors of several academic disciplines It covers wide aspects ranging from the nature impact challenges and implications of globalisation to responses from a country or community when facing globalisation today or tomorrow Policy suggestions are also made This book will hence help the reader to understand the currently debated issues

Globalization and Terrorism Jamal R. Nassar,2009-07-16 Courageously stepping into charged terrain this book casts a clear light on globalization and terrorism for what they are not what some may wish them to be Jamal R Nassar carefully defines these twin concepts placing them in historical as well as political context Woven throughout the book is his central theme of the migration of dreams and nightmares As some are able to take advantage of the opportunities of globalization leaving others behind they leave behind a legacy of unrealistic dreams These unfulfilled hopes of the poor and oppressed often transform themselves into nightmares for the wealthy and powerful This vicious cycle the author argues is often enhanced by globalization and effected by terrorism Focusing on the key case studies of Palestine and Northern Ireland Nassar applies their lessons to other examples of conflict including Iraq Afghanistan the Congo Chechnya and Colombia in order to internationalize our understanding of how globalization and terrorism operate in a range of situations He also devotes a chapter to Islamist terrorism in a tour de force of incisiveness and balance This book considers globalization and terrorism not only from the perspective of the major powers but also introduces the views of those dominated by forces beyond their control Yet even as the author offers a profound critique of Western hegemony he conveys respect and hope for an enlightened global interdependence embracing the power of the dream over the nightmare

Globalization, the Third World State and Poverty-Alleviation in the Twenty-First Century B. Ikubolajeh Logan,2017-11-22 This title was first published in 2002 Bringing together an inspiring mix of US and African contributors this book explores the dynamics of the unfolding globalized economic political socio cultural and environmental systems Featuring incisive international commentary on the causes and consequences of poverty in the Third World it presents a powerful study of the strategies by which Third World governments and civil society can overcome poverty by insinuating themselves more creatively into the global order The result is one of the defining works so far produced on the tensions between globalization and development

The Routledge Companion to Race and Ethnicity Stephen M. Caliendo,Charlton D. McIlwain,2020-10-27 The second

edition of *The Routledge Companion to Race and Ethnicity* offers readers a broad overview of scholarly exploration of the ways that humans have organized themselves and have been organized according to racial and ethnic divisions More than 80 scholars from around the world and representing multiple academic traditions contribute entries to this accessible yet sophisticated volume that addresses contemporary issues in historical context The first half of the book challenges readers to grapple with some of the most controversial aspects of categorization prejudice and discrimination through focused chapters ranging from the notion of Whiteness to the supposed biological rationale for racial categorization The second half is comprised of 70 shorter entries on specialized concepts persons and groups that are crucial to understanding these issues Taken as a whole this volume provides a broad multi disciplinary and global overview of issues that continue to provide challenges to notions of equality and justice
