el hombre ha sabido enfrentar y asumir con total hidalguía y plenitud. Así conocemos hoy la AERONAUTICA que dividida en dos escenarios Civil y Militar cada una con sus propias realidades y desarrollos posee vocabulario glosario diccionario que permite el trabajo diario. Desde sus inicios recordando a un travieso niño que emulando aves gaviones imitaba artificialmente sus conductas, claro que con desastrosos resultados pero dejó ejemplos e ideas como muchos Ustedes que a diario ejercen tareas profesionales técnicas administrativas auxiliares u otras como empresarios administradores pilotos controladores de tránsito aéreo tripulación apoyo técnico soporte externo alumnos usuarios etc. Visualizamos a este rubro como un medio totalmente seguro que nos permite proyectarnos en el tiempo y en el espacio. Pero dar forma y sentido a esta actividad de gran prestigio no ha sido fácil de manera que relacionarnos ha permitido un metalenguaje técnico y exclusivo palabras técnicas acrónimos siglas fraseología etc. Así generamos en su desarrollo conceptos y definiciones producto de la experiencia permitiendo lograr los resultados preestablecidos. Ahora bien tener puntos de vista diferentes es bueno pero siempre ser mejor consensuar cada idea cada tarea cada procedimiento permitiendo lograr lo deseado VOLAR a través de esa masa de aire que posee corporeidad cuando a grandes velocidades nos desplazamos por ella. Les invito a conocer cómo hoy en día la actividad Aeronautica bajo premisas de SEGURIDAD y mejor aún su GLOSARIO UNIFICADO nos permite acuerdos para conocer disfrutar y buscar la felicidad con este medio de transporte que es y seguirá siendo el más seguro de los tres y continúa en desarrollo.
