

Inleiding in de filosofie

Inleiding

1. "Wijsbegeerte": wat is filosofie? 
>> de vraag naar een definitie

"Of men nu het standpunt verdedigt dat we moeten filosoferen of het standpunt dat we niet moeten filosoferen: we moeten filosoferen. Want wie over deze vraag nadenkt, filosofeert reeds." (vrij naar Aristoteles, Protrepticus) → we zijn er altijd op één of andere manier mee bezig (bewust/onbewust)

Wilfrid Sellars:

"The aim of philosophy, abstractly formulated, is to understand how things in the broadest possible sense of the term hang together in the broadest possible sense of the term."
(Science, Perception and Reality, London, 1963).

= **doel** van filosofie: te begrijpen in de breedst mogelijke betekenis, hoe dingen samenhangen in de breedst mogelijke betekenis

Oxford Dictionary of Philosophy: Simon Blackburn

Filosofie = "De studie van de meest algemene en abstracte aspecten van de wereld en van de categorieën waarin we denken."

>> filosofie gaat over de wereld en heeft dus geen beperking over wat het kan gaan, gaat ook over de categorieën in ons denken (niet alleen over de wereld)

De wereld en ons denken van de wereld is tegengesteld (er is enkel ons denken en wat we over de wereld kunnen weten + abstracte kijk erop)

Metaniveau = hoe we over de wereld kunnen spreken en in welke termen we over de wereld kunnen nadenken

"I don't think it's any one thing, but I think generally it involves being critical and reflective about things that most people take for granted."

Allen Buchanan

"[Philosophy is] a process of reflection on the deepest concepts, that is structures of thought, that make up the way in which we think about the world. So it's concepts like reason, causation, matter, space, time, mind, consciousness, free will, all those big abstract words and they make up topics, and people have been thinking about them for two and a half thousand years and I expect they'll think about them for another two and a half thousand years if there are any of us left."

>> hij denkt niet dat er iets bestaat zoals het één iets van filosofie, er zijn veel mensen die gewoon iets aannemen terwijl filosofen hier kritisch op gaan kijken

Simon Blackburn

"Philosophy is reflecting critically on the way things are. That includes reflecting critically on social and political and economic arrangements. It always intimates the possibility that things could be other than they are. And better."

>> filosofie gaat over de abstracte concepten waarbinnen we denken: concepten zoals reden, rationaliteit, vrije wil, morele verantwoordelijkheid...

Michael Sandel
