Inleiding Tot Het Denken Van Einstein:

Inleiding tot het denken van Einstein Hans Freudenthal, 1966 **History of Topology** I.M. James, 1999-08-24

Topology for many years has been one of the most exciting and influential fields of research in modern mathematics. Although its origins may be traced back several hundred years, it was Poincaré who gave topology wings in a classic series of articles published around the turn of the century. While the earlier history, sometimes called the prehistory, is also considered, this volume is mainly concerned with the more recent history of topology from Poincaré onwards. As will be seen from the list of contents, the articles cover a wide range of topics. Some are more technical than others, but the reader without a great deal of technical knowledge should still find most of the articles accessible. Some are written by professional historians of mathematics, others by historically minded mathematicians who tend to have a different viewpoint.

Verrek, dat is 't! Dirk van Delft, 2023-03-03

Natuurkundige Martinus Veltman 1931-2021 zat provoceren in het bloed. De een vond hem een held, de ander een brutaal. Geboren in Waalwijk met om de hoek schoenenfabriek Van Haren koos Tini na zijn studie in Utrecht voor de flitsende maar ruwe wereld van de elementaire deeltjesfysica. Allergisch voor autoriteit en recht voor zijn raap hield hij zich staande te midden van Amerikaanse hegemonie. Veltman had het lef om een door collega's kansloos geacht pad in te slaan. Grote hulp daarbij was Schoonschip, zijn computerprogramma dat kon rekenen met formules kon omgaan. Samen met promovendus Gerard 't Hooft forceerde Veltman in 1971 een doorbraak die de weg effende naar het huidige standaardmodel van elementaire deeltjes, waarna de stevige, onconventionele en uitgesproken Veltman en de frêle, keurige maar sociaal onhandige 't Hooft uit elkaar groeiden. In 1999 wonnen ze samen de Nobelprijs. Gelukkig Verrek, dat is 't, portretteert een eigenzinnig, precies en invloedrijk fysicus die altijd contact zocht met het experiment. Die controversieel uit de hoek kon komen, maar met een goed hart geliefd bij velen. Dirk van Delft is oud-directeur van Rijksmuseum Boerhaave. Met zijn biografie over Kamerlingh Onnes won hij in 2005 de NWO Eurekaprijs voor wetenschapscommunicatie. Zijn monumentale biografie over Lorentz samen met Frits Berends is in 2021 bekroond met de Boerhaave Biografie Prijs.
