The time space covered by the present series is approximately 1966 1978 The need for such surveys has I believe increased rather than decreased over the last years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the emergence of new schools of thought particularly in philosophical logic and the philosophy of language the convergence of interest though not necessarily of opinion of different traditions upon certain prob lems and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributory factors Surveys of the present kind are a valuable source of knowledge of this complexity and may as such be of assistance in renewing the understanding of one s own philosophical problems.
