twenty two graphs and chart techniques trainers can select and use to monitor and improve their programs These tools are useful by both the trainer and the trainees to measure progress chart successes and help with continual improvement and success In conclusion you should remember that Training is a learnable skill Practice with the tools we have given you apply them and improve your approach Our goal is to make you an effective trainer while helping your organization reinvent itself remain relevant and become more profitable Remember THIS IS A GUIDE FOR THE BEGINNER AND A REFERENCE FOR THE PROFESSIONAL
