Intellectual Property Law for Engineers and Scientists Howard B. Rockman, 2004-07-26. An excellent text for clients to read before meeting with attorneys so they'll understand the fundamentals of patent, copyright, trade secret, trademark, mask work, and unfair competition laws. This is not a do-it-yourself manual but rather a ready reference tool for inventors or creators that will generate maximum efficiencies in obtaining, preserving, and enforcing their intellectual property rights. It explains why they need to secure the services of IPR attorneys. Coverage includes employment contracts including the ability of engineers to take confidential and secret knowledge to a new job, shop rights, and information to help an entrepreneur establish a non-conflicting enterprise when leaving their prior employment. Sample forms of contracts, contract clauses, and points to consider before signing employment agreements are included. Coverage of copyright, software protection, and the Digital Millennium Copyright Act (DMCA) as well as the procedural variances in international intellectual property laws and procedures.
