Non-cognitive Skills and Factors in Educational Attainment Myint Swe Khine,Shaljan Areepattamannil,2016-07-28 This volume addresses questions that lie at the core of research into education It examines the way in which the institutional embeddedness and the social and ethnic composition of students affect educational performance skill formation and behavioral outcomes It discusses the manner in which educational institutions accomplish social integration It poses the question of whether they can reduce social inequality or whether they even facilitate the transformation of heterogeneity into social inequality Divided into five parts the volume offers new insights into the many factors processes and policies that affect performance levels and social inequality in educational institutions It

presents current empirical work on social processes in educational institutions and their outcomes While its main focus is on the primary and secondary level of education and on occupational training the book also presents analyses of institutional effects on transitions from vocational training into tertiary educational institutions in an interdisciplinary and internationally comparative approach *Accessibility, Gender, and Social Safety Net Program* Faraha Nawaz,Dabjani Saha,2024-08-02 This book offers an extensive research work to explore the accessibility of women with disabilities and financial insolvency to social safety net program in rural Bangladesh The book examines the impact of intersectional identities in accessibility to the human rights in a contextual setting The authors have also scrutinized the existing policies to identify policy gaps and provide some policy recommendations from this insightful study Apart from narrower view of the targeting method or implementation of social safety net program on targeting beneficiaries this research has combined gender and disability in a study framework with making a focus on the Allowances Program for Insolvent Persons with Disabilities provided by Government of Bangladesh They have argued that intersectional identities gender disability financial insolvency have influenced over the accessibility to social safety net program as well as identified the challenges of accessibility which provides a broader view of practices of public administration of Bangladesh and enlightens on social and cultural context creating barriers in accessibility to human rights of women with disabilities The authors argue for bringing changes of the service delivery of the program by bringing change in policies according to human right based treaties This book is useful to policy makers international donor agencies government officials and NGOs **Validity of Educational Assessments in**

Chile and Latin America Jorge Manzi,María Rosa García,Sandy Taut,2021-09-11 This edited volume presents a systematic analysis of conceptual methodological and applied aspects related to the validation of educational tests used in Latin American countries Inspired by international standards on educational measurement and evaluation this book illustrates efforts that have been made in several countries to validate different types of educational assessments including student learning assessments measurements of non cognitive aspects in students teacher evaluations and tests for certification and selection It gathers the experience of validity studies from the main international assessments in Latin America PISA TIMSS ERCE and ICCS Additionally it shows the challenges that must be taken into account when evaluations are used to compare countries groups or trends of achievement over time The book builds on the premise that measurements in the educational field should not be used if there are no studies that support the validity of the interpretation of their scores or the use made of such tests It shows that despite the recognition given to validity relatively few educational measurement assessments have accumulated enough evidence to support their interpretation and use In doing so this volume increases awareness about the relevance of validity especially when assessments are key component of educational policies *Blue and Green Cities* Robert C. Brears,2018-03-07 This book offers new research on urban policy innovations that promote the application of blue green infrastructure in managing water resources sustainably The author argues that urban water managers have

traditionally relied on grey infrastructural solutions to mitigate risks with numerous economic and environmental consequences Brears explores the role urban water managers have in implementing blue green infrastructure to reduce ecological damage and mitigate risk The case studies in this book illustrate how cities of differing climates lifestyles and income levels have implemented policy innovations that promote the application of blue green infrastructure in managing water wastewater and stormwater sustainably to reduce environmental degradation and enhance resilience to climate change This new research on urban policy innovations that promote the application of blue green infrastructure in managing water resources sustainably will be of interest to those working on water conservation and policy
