**Love and War** Rudolf Harmsen Ph. D., Rudolf Harmsen, Paddy S. Welles Ph. D., Paddy S. Welles, 2010 Love and War deepens our understanding and brings us one step closer to that distant day when we will lay down our sword and shield and deserve the name Homo sapiens wise human beings Sam Keen Best selling author of Faces of the Enemy Love and War is a stunning tour de force which traces the darkest shadows of our progenitors on humankind's evolutionary journey through individual societal communal and nation state relationships It is a compelling and wonderfully readable analysis of how innate latent noble and fearsome factors in the human psyche surface in varying circumstances In demonstrating how the latter can collectively lead to hostilities to achieve tribal or national goals this book provides profound psychological insights as to why nations in the twenty first century still employ war as an instrument of national policy The authors specify what we must do as nations and individuals to create a global community working in concert to deal with the now recognized universal threats to life on Earth Harry J Petrequin Jr Retired Foreign Service Officer [The Love That Moves the Sun](#) Paul Dominiak, 2024-08-30 The season of Advent traditionally involved meditation upon the Four Last Things heaven hell death and judgement This ancient but nearly lost sacred art of contemplation encouraged Christians to evaluate who they were what they treasured and how they ought to live in view of the world to come The Love That Moves the Sun revives this ancient practice and marries it with contemporary concerns Each chapter considers one of the Last Things in relation to a modern crisis from the climate emergency rise of populism and racial injustice to the economic inequalities of class In a time of compound crises retrieving the sacred art of contemplating the Last Things gives a vision of hope and direction in a chaotic world of uncertainty The first advent began with an angelic messenger announcing the coming of Christ to Mary The Love That Moves the Sun enables us to hear a fresh annunciation in our own time calling us to join in with God's salvation of a groaning creation and the hope of a new earth where justice dwells *Human Nature and the Discipline of Economics* Patricia Donohue-White, 2002-01-01 Foundations of Economic Personalism is a series of three book length monographs each closely examining a significant dimension of the Center for Economic Personalism's unique synthesis of Christian personalism and free economic market theory In the aftermath of the momentous geo political and economic changes of the late 1980s a small group of Christian social ethicists began to converse with free market economists over the morality of market activity This interdisciplinary exchange eventually led to the founding of a new academic subdiscipline under the rubric of economic personalism These scholars attempt to integrate economic theory history and methodology with Christian personalism's stress upon human dignity humane social structures and social justice This second volume in the series surveys the anthropological foundations to the disciplines of economics and moral theology The first part of the book presents an overview of the German French and Polish branches of personalist thought Particular attention is given to theological anthropology especially as it is developed by such thinkers as Emmanuel Mounier Max Scheler Gabriel Marcel Karol Wojtyla

and Emil Brunner Part two surveys models of human nature that have been espoused by various schools of free market thought including mainstream neoclassical economics In conclusion the authors demonstrate how an expanded understanding of human nature can augment the ability of economic science to model and predict human behavior **The Book of Edda Called Völuspá** James John Garth Wilkinson,1897 *Hearst's International* ,1916 *The Bookman* ,1915

**The American Culture of War** Adrian R. Lewis,2006-12-21 The American Culture of War presents a sweeping critical examination of every major American war since 1941 Timely incisive and comprehensive it is a unique and invaluable survey of over sixty years of American military history **The War for the Common Soldier** Peter S. Carmichael,2018-11-02 How did Civil War soldiers endure the brutal and unpredictable existence of army life during the conflict This question is at the heart of Peter S Carmichael s sweeping new study of men at war Based on close examination of the letters and records left behind by individual soldiers from both the North and the South Carmichael explores the totality of the Civil War experience the marching the fighting the boredom the idealism the exhaustion the punishments and the frustrations of being away from families who often faced their own dire circumstances Carmichael focuses not on what soldiers thought but rather how they thought In doing so he reveals how to the shock of most men well established notions of duty or disobedience morality or immorality loyalty or disloyalty and bravery or cowardice were blurred by war Digging deeply into his soldiers writing Carmichael resists the idea that there was a common soldier but looks into their own words to find common threads in soldiers experiences and ways of understanding what was happening around them In the end he argues that a pragmatic philosophy of soldiering emerged guiding members of the rank and file as they struggled to live with the contradictory elements of their violent and volatile world Soldiering in the Civil War as Carmichael argues was never a state of being but a process of becoming The War Game Irving Horowitz,2017-07-28 War gaming has become a characteristic feature of modern life From amateur clubs to professional academicians playing the war game in the company of military circles we have come up against the phenomenon of the robotization of human life Irving Louis Horowitz argues that those who protest the idea that war is a game do so on moral grounds that leave unanswered tough questions What is the alternative to playing the game What will become of us if we allow the opponent to become the better player in an all or nothing game of extinction Horowitz provides answers in a logical manner while focusing on facts and ethical alternatives to risky ethics The work is divided into three sections The New Civilian Militarists Thermonuclear Peace and Its Political Equivalents and General Theory of Conflict and Conflict Resolution Included are such topics as arms policies and games morals missiles and militarism and conflict consensus and cooperation Horowitz concludes that it is time to register the fact that the basic option to destructive uses of science is not traditional morality but better science a science of survival With a new introduction by Howard Schneiderman along with a major essay and other materials not included in the original edition this classic work is a worthy contribution to intellectual debate in the twenty first century and a must read for military strategists sociologists and
