Manual De Portugues:

Manual prático de escrita em português Javier Muñoz-Basols, Yolanda Pérez Sinusía, Marianne David, Clélia F. Donovan, 2019-07-18 Manual prático de escrita em português Developing Writing Skills in Portuguese provides intermediate and advanced level students with the necessary skills to become competent and confident writers in the Portuguese language. With a focus on writing as a craft, Manual prático de escrita em português offers a rich selection of original materials including narrative texts, expository essays, opinion pieces, and newspaper articles. Each chapter covers a specific kind of writing and is designed to help tackle the material in small units. The book aids students in crafting clear, coherent, and cohesive texts by means of guided practice and step-by-step activities. Suitable for use as a classroom text or as a self-study course, this book is ideal for students at level B2-C2 of the Common European Framework for Languages or at Intermediate-High/Advanced-High on the ACTFL proficiency scales. Manual de fonética e fonologia da língua portuguesa Willis C. Fails, J. Halvor Clegg, 2021-10-21 Escrito inteiramente em português, o Manual de fonética e fonologia da língua portuguesa é uma obra que abrange todos os aspectos fonéticos e fonológicos desse idioma, inclusive as questões de fonética acústica e auditiva, fonotática e traços suprasegmentais que a maioria dos livros didáticos não aborda. Neste livro, o estudante encontrará uma introdução detalhada e exata, mas acessível, à fonética e fonologia da língua portuguesa. Inclui capítulos introdutórios que contextualizam essas disciplinas no campo geral da linguística e salientam o papel dos sons e sua representação na comunicação humana. Principais características: Escrito por fonetistas qualificados e versados nas questões atuais da ciência fonética. Não é preciso já saber linguística, pois o livro explica todos os termos e conceitos linguísticos necessários. Cada capítulo conta com um resumo, uma lista de conceitos e termos, perguntas de revisão e exercícios de pronúncia relevantes destinados para dicas, pedagogias, conselhos práticos e exercícios de pronúncia que ligam a teoria aos aspectos práticos da boa pronúncia. Uma característica exclusiva deste livro é a exposição da fonética e fonologia das três principais normas cultas da língua portuguesa: a de São Paulo e do Rio de Janeiro para o português brasileiro (PB) e a de Lisboa para o português europeu (PE). Muitas imagens gráficas e tabelas para ilustrar claramente cada conceito. Recursos eletrônicos disponíveis online nos materiais de eResource com a pronúncia dos sons, frases e exercícios do livro. O Manual de fonética e fonologia da língua portuguesa é uma introdução abrangente a esses campos, escrita de modo a ser clara e acessível aos estudantes de português em nível avançado, para ajudá-los a entender como melhorar a própria pronúncia. O livro é excelente tanto para alunos de pós-graduação quanto para professores, linguistas e profissionais de letras. Written entirely in Portuguese, Manual de fonética e fonologia da língua portuguesa presents an accurate yet accessible introduction to Portuguese phonetics and phonology. The book covers all phonetic and phonological aspects of the language, including those often missing from other textbooks, such as acoustic and auditory phonetics, phonotactics, and suprasegmentals. The book maintains a careful balance between the theoretical and practical

aspects of the topic and is designed to help learners improve their pronunciation through an understanding of the linguistic principles of phonetics and phonology combined with the application of these principles through exercises and practice. Additional pronunciation resources are available online at www.routledge.com/9780367179915. Written in a clear and accessible manner, the book is ideal for advanced students of Portuguese with no prior knowledge of linguistics.

Manual of Brazilian Portuguese Linguistics Johannes Kabatek, Albert Wall, 2022-10-24. This manual is the first comprehensive account of Brazilian Portuguese linguistics written in English, offering not only linguists but also historians and social scientists new insights gained from the intensive research carried out over the last decades on the linguistic reality of this vast territory. In the 20 overview chapters, internationally renowned experts give detailed yet concise information on a wide range of language internal as well as external synchronic and diachronic topics. Most of this information is the fruit of large scale language documentation and description projects such as the project on the linguistic norm of educated speakers NURC, the project Grammar of spoken Portuguese and the project Towards a History of Brazilian Portuguese PHPB, among others. Further chapters of high contemporary interest and relevance include the study of linguistic policies and psycholinguistics. The manual offers theoretical insights of general interest, not least since many chapters present the linguistic data in the light of a combination of formal functional generative and sociolinguistic approaches. This rather unique feature of the volume is achieved by the double authorship of some of the relevant chapters, thus bringing together and synthesizing different perspectives.

Manual of Romance Languages in Africa Ursula Reutner, 2023-12-18. With more than two thousand languages spread over its territory, multilingualism is a common reality in Africa. The main official languages of most African countries are Indo-European. In many instances, Romance languages were primarily brought to Africa in the era of colonization. The areas discussed in this volume are thirty-five states that were once ruled by Belgium, France, Italy, Portugal, or Spain, and the African regions still belonging to three of them. Twenty-six states are presented in relation to French, four to Italian, six to Portuguese, and two to Spanish. They are considered in separate chapters according to their sociolinguistic situation, linguistic history, external language policy, linguistic characteristics, and internal language policy. The result is a comprehensive overview of the Romance languages in modern-day Africa. It follows a coherent structure, offers linguistic and sociolinguistic information, and illustrates language contact situations, power relations, as well as the cross-fertilization and mutual enrichment emerging from the interplay of languages and cultures in Africa.
