Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1978 **Freedom on the Offensive**
William Michael Schmidli,2022-09-15 In *Freedom on the Offensive* William Michael Schmidli illuminates how the Reagan administration's embrace of democracy promotion was a defining development in US foreign relations in the late twentieth century Reagan used democracy promotion to refashion the bipartisan Cold War consensus that had collapsed in the late 1960s amid opposition to the Vietnam War Over the course of the 1980s the initiative led to a greater institutionalization of human rights narrowly defined to include political rights and civil liberties and to exclude social and economic rights as a US foreign policy priority Democracy promotion thus served to legitimize a distinctive form of US interventionism and to underpin the Reagan administration's aggressive Cold War foreign policies Drawing on newly available archival materials and featuring a range of perspectives from top level policymakers and politicians to grassroots activists and militants this study makes a defining contribution to our understanding of human rights ideas and the projection of American power during the final decade of the Cold War Using Reagan's undeclared war on Nicaragua as a case study in US interventionism *Freedom on the Offensive* explores how democracy promotion emerged as the centerpiece of an increasingly robust US human rights agenda Yet this initiative also became intertwined with deeply undemocratic practices that misled the American people violated US law and contributed to immense human and material destruction Pursued through civil society or low cost military interventions and rooted in the neoliberal imperatives of US led globalization Reagan's democracy promotion initiative had major implications for post Cold War US foreign policy The Federal System of the Argentine Republic Leo Stanton Rowe,1921 **Aide-de-camp to Freedom** Teodoro Manguiat Kalaw,1965 **Resources in Education** ,1995 *With All, and for the Good of All* Gerald E. Poyo,1989-03-28 Cuban Americans are beginning to understand their long standing roots and traditions in the United States that reach back over a century prior to 1959 This is the first book length confirmation of those beginnings and it places the Cuban hero and revolutionary thinker Jos Mart within the political and socioeconomic realities of the Cuban communities in the United States of that era By clarifying Mart's relationship with those communities Gerald E Poyo provides a detailed portrait of the exile centers and their role in the growth and consolidation of nineteenth century Cuban nationalism Poyo differentiates between the development of nationalist sentiment among liberal elites and popular groups and reveals how these distinct strains influenced the thought and conduct of Mart and the successful Cuban revolution of the 1890s **Semi-annual Report on Schools for Freedom** United States. Bureau of Refugees, Freedmen, and Abandoned Lands,1868 *International Politics and Performance* Jenny Edkins,Adrian Kear,2013-11-07 In recent years we have witnessed an increasing convergence of work in International Politics and Performance Studies around the troubled and often troubling relationship between politics and aesthetics Whilst examination of political aesthetics aesthetic politics and politics of aesthetic practice has been central to research in both

disciplines for some time the emergence of a distinctive performative turn in International Politics and a critical return to the centrality of politics and the concept of the political in Performance Studies highlights the importance of investigating the productivity of bringing the methods and approaches of the two fields of enquiry into dialogue and mutual relation Exploring a wide range of issues including rioting youth driven protests border security practices and the significance of cultural awareness in war this text provides an accessible and cutting edge survey of the intersection of international politics and performance examining issues surrounding the politics of appearance image event and place and discusses the development and deployment of innovative critical and creative research methods from auto ethnography to site specific theatre making from philosophical aesthetics to the aesthetic thought of new securities scenario planning The book s focus throughout is on the materiality of performance practices on the politics of making spectating and participating in a variety of modes as political actors and audiences whilst also seeking to explicate the performative dynamics of creative and critical thinking Structured thematically and framed by a detailed introduction and conclusion the focus is on producing a dialogue between contributors and providing an essential reference point in this developing field This work is essential reading for students of politics and performance and will be of great interest to students and scholars of IR performance studies and cultural studies

Hans van Ginkel Rector United Nations University The challenges of the world's future are linked to the growing share of the global population that will reside in urban areas UN projections indicate that by 2030 the world's urban population share will rise to 60 percent Of the two billion added to the global population 99 percent will be added to the urban areas of the world Of this number 95 percent will be in countries of the developing world As most people will live in urban areas we had better work to build and organize them as both attractive and less resource consuming places That is to promote sustainable urban development is to promote the creation of dense human settlements that are livable and have reduced their impacts on larger scale ecosystems While much attention has been focused on the mega cities those with a population of over 10 million the amount of people living in these places will remain almost constant while the smaller and medium size cities will be the great absorbers of the world's urban population Indeed it is predicted that while the absolute number of people that will live in urban centers of 10 million or more will increase from approximately 263 to 375 million between 2000 and 20 IS their share of the total urban population will only increase from 9.2 percent to 9.8 percent a 6.34 percent increase

Operation Pedro Pan and the Exodus of Cuba's Children Deborah Shnookal, 2022-06-28 This in depth examination of one of the most controversial episodes in U S Cuba relations sheds new light on the program that airlifted 14 000 unaccompanied children to the United States in the wake of the Cuban Revolution Operation Pedro Pan is often remembered within the U S as an urgent rescue mission but Deborah Shnookal points out that a multitude of complex factors

drove the exodus including Cold War propaganda and the Catholic Church's opposition to the island's new government Shnookal illustrates how and why Cold War scare tactics were so effective in setting the airlift in motion focusing on their context the rapid and profound social changes unleashed by the 1959 Revolution including the mobilization of 100 000 Cuban teenagers in the 1961 national literacy campaign Other reforms made by the revolutionary government affected women education religious schools and relations within the family and between the races Shnookal exposes how in its effort to undermine support for the revolution the U S government manipulated the aspirations and insecurities of more affluent Cubans She traces the parallel stories of the young Pedro Pans separated from their families in some cases indefinitely in what is often regarded in Cuba as a mass kidnapping and the children who stayed and joined the literacy brigades These divergent journeys reveal many underlying issues in the historically fraught relationship between the U S and Cuba and much about the profound social revolution that took place on the island after 1959 Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities
