Speeches of praise and blame constituted a form of oratory put to brilliant and creative use in the classical Greek period fifth to fourth century BC and the Roman imperial period first to fourth century AD and they have influenced public speakers through all the succeeding ages Yet unlike the other classical genres of rhetoric epideictic rhetoric remains something of a mystery It was the least important genre at the start of Greek oratory but its role grew exponentially in subsequent periods even though epideictic orations were not meant to elicit any action on the part of the listener as judicial and deliberative speeches attempted to do So why did the ancients value the oratory of praise so highly In *Epidictic Rhetoric* Laurent Pernot offers an authoritative overview of the genre that surveys its history in ancient Greece and Rome its technical aspects and its social function He begins by defining epideictic rhetoric and tracing its evolution from its first realizations in classical Greece to its eloquent triumph in the Greco Roman world No longer were speeches limited to tribunals assemblies and courts they now involved ceremonies as well which changed the political and social implications of public speaking Pernot analyzes the techniques of praise both as stipulated by theoreticians and as practiced by orators He describes how epideictic rhetoric functioned to give shape to the representations and common beliefs of a group render explicit and justify accepted values and offer lessons on new values Finally Pernot incorporates current research about rhetoric into the analysis of praise
