Prophetic Peril Thomas M. Fuerst, 2025-02-17 Prophecy reimagines the world It critiques what is and encourages its audience to imagine what could be All prophecy therefore begins with a person willing to reimagine their own situation In the biblical and African American traditions this person receives a call to prophetic ministry that upends their reality and compels them to change the way things are Prophetic Peril The Rhetoric of Nineteenth Century African American Prophetic Call Narratives invites readers into the imaginative subversive and ethically complicated stories of four nineteenth century Black figures who received the call to challenge the what is and live into the what could be in the midst of a hard hearted world Focusing on the prophetic call narratives of Maria Stewart Nat Turner Julia Foote and Richard Allen author Thomas M Fuerst offers insight into the unique contributions this tradition makes to American oratory storytelling history ethics theology and protest As Fuerst demonstrates Turner's call narrative subverts white political interests and expands politics to include the resistance rhetoric and witness of those on the margins Allen's apologetic narration combines deeply thoughtful Protestant exegesis with a liberation theology shaped by the experience of enslavement anchoring his rhetorical power in the experience of Black people in the nineteenth century The call narratives of Stewart and

Foote circumvent patriarchy and resist patriarchal interpretations of the Bible through biblical embodied dramatic visionary appeals that sidestep persuasion and demand either acceptance or rejection Taken together these case studies reveal how antebellum Black preachers used religious storytelling to resist white patriarchal oppression and assert their own voices offering unique insight to our understanding of prophecy and resistance

What Are the Gospels? Richard A. Burridge,2004-08-09 The publication of Richard Burridge s What Are the Gospels in 1992 inaugurated a transformation in Gospel studies by overturning the previous consensus about Gospel uniqueness Burridge argued convincingly for an understanding of the Gospels as biographies a ubiquitous genre in the Graeco Roman world To establish this claim Burridge compared each of the four canonical Gospels to the many extant Graeco Roman biographies Drawing on insights from literary theory he demonstrated that the previously widespread view of the Gospels as unique compositions was false Burridge went on to discuss what a properly biographical perspective might mean for Gospel interpretation which was amply demonstrated in the revised second edition reflecting on how his view had become the new consensus This third twenty fifth anniversary edition not only celebrates the continuing influence of What Are the Gospels but also features a major new contribution in which Burridge analyzes recent debates and scholarship about the Gospels Burridge both answers his critics and reflects upon the new directions now being taken by those who accept the biographical approach This new edition also features as an appendix a significant article in which he tackles the related problem of the genre of Acts A proven book with lasting staying power What Are the Gospels is not only still as relevant and instructive as it was when first published but will also doubtlessly inspire new research and scholarship in the years ahead Provided by publisher
