

GOVERNING PRISONS

□ **Most important factor in governing prisons:**

- Sound and firm management of inmates and staff.

- **Order**

- Absence of individual or group misconduct threatening the safety of others.

- **Amenity**

- Anything that enhances the inmates' creature comforts.

- **Service**

- Programs designed to improve the life prospects of inmates.
- Courtesy to residents and strong limits are also important factors related to prison governance.

Mark Elliott, Robert Thomas

Governing Prisons Governing Prisons:

Governing Prisons John J. DiIulio, 1990-06 Challenging the accepted notions about prisons DiIulio argues that far from being traps for society's refuse they must and can be made safely humane He shows that the key to better prisons is a highly disciplined constitutional government employing prison managers who are strong enough to control the inmates yet obliged to control themselves The book illustrates how the use of such a governing system can provide order encourage civilized behaviour and enforce punishment that is just as well as merciful *Governing Prisons* John J. DiIulio (Jr.), 1990

Dictionary of Prisons and Punishment Yvonne Jewkes, Jamie Bennett, 2013-01-11 Covers the rapidly developing and increasingly professionalized field of contemporary prison practice with its increased emphasis on skills and qualifications and its new set of ideas and concepts *Handbook on Prisons* Yvonne Jewkes, Jamie Bennett, 2016-02-23 The second edition of the Handbook on Prisons provides a completely revised and updated collection of essays on a wide range of topics concerning prisons and imprisonment Bringing together three of the leading prison scholars in the UK as editors this new volume builds on the success of the first edition and reveals the range and depth of prison scholarship around the world The Handbook contains chapters written not only by those who have established and developed prison research but also features contributions from ex prisoners prison governors and ex governors prison inspectors and others who have worked with prisoners in a wide range of professional capacities This second edition includes several completely new chapters on topics as diverse as prison design technology in prisons the high security estate therapeutic communities prisons and desistance supermax and solitary confinement plus a brand new section on international perspectives The Handbook aims to convey the reality of imprisonment and to reflect the main issues and debates surrounding prisons and prisoners while also providing novel ways of thinking about familiar penal problems and enhancing our theoretical understanding of imprisonment The Handbook on Prisons Second edition is a key text for students taking courses in prisons penology criminal justice criminology and related subjects and is also an essential reference for academics and practitioners working in the prison service or in related agencies who need up to date knowledge of thinking on prisons and imprisonment *Prison Governors* Shane Bryans, 2013-08-21 This book provides the first systematic study of prison governors a hidden and powerful but much neglected group of criminal justice practitioners Its focus is on how they carry out their task how that has changed over time and how their role has evolved The author himself a former prison governor explains how prison governors have changed under external pressures and examines a number of the factors that have been influential in changing their working environment in particular the changing status of prisoners and the development of the concept of prisoners rights the increasing scrutiny of the press and politicians competitive elements introduced by privatization of the penal institutions and the introduction of risk management approaches Based on extensive research including interviews with 42 prison governors this book also explores a number of important biographical factors The author describes the demographic characteristics of

the sample of governors interviewed including their social origins educational and occupational backgrounds their reasons and motivation for joining the prison service their career paths and also explores their values and beliefs In the light of the findings of this study the author also makes a number of important suggestions for changes that should be made to policy and practice and explores the implications for how our prisons should be governed in the future *Encyclopedia of Prisons and Correctional Facilities* Mary Bosworth,2004-12-15 The two volume Encyclopedia of Prisons and Correctional Facilities aims to provide a critical overview of penal institutions within a historical and contemporary framework Issues of race gender and class are fully integrated throughout in order to demonstrate the complexity of the implementation and intended results of incarceration The Encyclopedia contains biographies articles describing important legal statutes and detailed and authoritative descriptions of the major prisons in the United States Comparative data and examples are employed to analyze the American system within an international context The Encyclopedia s 400 entries are written by recognized authorities The appendix contains a comprehensive listing of every federal prison in the U S complete with facility details and service information **Prison Bureaucracies in the United States, Mexico, India, and Honduras** Brian Norris,2018-02-19 Modern criminal justice institutions globally include police criminal courts and prisons Prisons unlike courts which developed out of an old aristocratic function and unlike police which developed out of an ancient posse or standing army function are only about 200 years old and are humanitarian inventions Prisons defined as modern institutions that deprive the freedom of individuals who violate societies most basic norms in lieu of corporal or capital punishment were near universal at the dawn of the 21st century and their use was expanding globally The US alone spent 60 billion on prisons in 2014 *Prison Bureaucracies* addresses two fundamental questions Do prisons in Christian Hindu and Muslim societies separated by space and level of socioeconomic development follow a common evolutionary path Given that differences in prison structure and performance exist what factors resources laws leadership historical accident institutions culture account for differences Based on more than 150 interviews conducted in ten international trips with prison administrators in 15 male state prisons in the US Mexico India and Honduras Norris provides ethnographic descriptions of prisons bureaucracies that are immediately recognizable as similar institutions but that nonetheless possessed distinctive forms and developmental trajectories Economists and political scientists have argued that incentives provided by institutions matter for good or bad public administration and this is undeniable in the prisons of this study But institutional incentives were one factor among many affecting the form and function of the prisons and prison systems of this study **Dying in Prison** Carol Robinson,2023-05-10 This book uses empirical data gathered using ethnographic methods in two contrasting prisons to provide a rare insight into death and dying in prisons in the UK The majority of deaths in prison custody in England and Wales result from natural causes yet the experiences of people dying in prison and the impact of these deaths on the wider prison are under researched areas It provides a novel insight into the impact of deaths from natural causes on the prison as

an institution and challenges existing work juxtaposing occupational philosophies of care and control It also identifies how end of life care is provided in prisons and the impact this has on culture and relationships shows how deaths from natural causes in prison custody soften prison regimes culture and relationships It speaks to an international audience by drawing on the global literature including from the US **Governing Prisons** John J. DiIulio,1986 **Empires and Colonial Incarceration in the Twentieth Century** Philip J. Havik, Helena Pinto Janeiro, Pedro Aires Oliveira, Irene Flunser Pimentel,2021-09-26 This book engages with a controversial issue namely the establishment of penal colonies and concentration camps in imperial spaces which have informed ongoing debates on the repressive practices of colonial rule and popular resistance against it The contributors offer a reassessment of the history of politically motivated incarceration based upon a multi disciplinary perspective in a global imperial setting during the twentieth century The introduction and seven chapters engage with comparative and transnational perspectives on political persecution forced confinement and colonial rule in British French German Belgian and Portuguese dominions in Africa Asia Oceania and Latin America Addressing political incarceration s global imperial dimensions they focus upon the organisation strategies narratives and practices associated with political internment in Africa Angola Tanzania Rhodesia South Africa Latin America French Guyana and the Pacific region New Caledonia Penal legislation policies of convict transport and political imprisonment resettlement prison regimes resistance and liberation struggles counter insurgency prisoner agency and prisons as cultural spaces and of memory are discussed here for different time periods from the mid 1800s to the late twentieth century The chapters build upon the ongoing debate on political incarceration in the empire and the remarkable dynamic scientific research witnessed over the last decades As a result they provide novel insights into the nature of legal systems colonial discourse memory racial segregation and persecution prisoners narratives of practices of punishment and incarceration and human rights abuses in imperial spaces The chapters in this book were originally published as a special issue of The Journal of Imperial and Commonwealth History The editors have also written an original conclusion to the present volume **Prisons, Inmates and Governance in Latin America** Máximo Sozzo,2022-04-29 This edited collection addresses the topic of prison governance which is crucial to our understanding of contemporary prisons in Latin America It presents social research from Nicaragua the Dominican Republic Venezuela Colombia Ecuador Brazil Peru Uruguay and Argentina to examine the practices of governance by the prisoners themselves in each unique setting in detail High levels of variation in the governance practices are found to exist not only between countries but also within the same country between prisons and within the same prison and between different areas The chapters make important contributions to the theoretical concepts and arguments that can be used to interpret the emergence dynamics and effects of these practices in the institutions of confinement of the region The book also addresses the complex task of explaining why these types of practices of governance happen in Latin American prisons as some of them appear to be a legacy of a remote past but others have arisen more

recently It makes a vital contribution to the fundamental debate for prison policies in Latin America about the alternatives that can be promoted *Linking Political Violence and Crime in Latin America* Kirsten Howarth, Jenny H.

Peterson, 2016-03-10 This edited collection explores the politics of crime and violence in Latin America through both theoretical reflections as well as several detailed case studies based on empirical primary research Its overall aim is to explore common misperceptions and simplifications which are often found in political discourses policy documentation as well as some academic work These simplifications include a focus on gangs narrow understandings of organized criminal groups and the knock on effect that such a focus has on policy making Instead the chapters in this book shift the reader s gaze to more structural explanations and analytical approaches moving them towards an understanding of how wider historical economic cultural and even psychological issues impact the complex relationships between crime violence and politics in the region The detailed case studies also allow for a unique comparative analysis of problems faced throughout the region While significant differences exist analysis of the case studies reveals common issues problems and debates between countries including structural violence militarization and neo liberalism These golden threads reveal not only the complexity of crime and violence in the region but also expose the failure of the overly simple gangsterism discourse found elsewhere Finally and importantly several of the chapters explore the politics of policy making in relation to these problems shedding light on the complex reasons for policy failures and highlighting innovative opportunities for change Whilst shedding light on current problems in the region the book also offers a range of analytical approaches for exploring other cases where crime violence and politics collide **Understanding Prison Staff** Jamie Bennett, Ben Crewe, Azrini Wahidin, 2013-05-13 The past

decade has seen dramatic growth in every area of the prison enterprise Yet our knowledge of the inner life of the prison remains limited This book aims to redress this research gap by providing insight into various aspects of the daily life of prison staff It provides a serious exploration of their work and in doing so will seek to draw attention to the variety value and complexity of work within prisons This book will provide practitioners students and the general reader with a comprehensive and accessible guide to the contemporary issues and concerns facing prison staff *Punishment in Latin America* Luiz Dal Santo, Máximo Sozzo, 2024-11-21 Challenging the Northern centric approach that has dominated the literature on punishment and society this collection draws on innovative theoretical perspectives to make sense of punishment penal trends institutions and practices in peripheral settings taking Latin American countries as its case studies **Texas Tough** Robert

Perkinson, 2010-03-11 A vivid history of America s biggest baddest prison system and how it came to lead the nation s punitive revolution In the prison business all roads lead to Texas The most locked down state in the nation has led the way in criminal justice severity from assembly line executions to isolation supermaxes from prison privatization to sentencing juveniles as adults Texas Tough a sweeping history of American imprisonment from the days of slavery to the present shows how a plantation based penal system once dismissed as barbaric became the national template Drawing on convict accounts

official records and interviews with prisoners guards and lawmakers historian Robert Perkinson reveals the Southern roots of our present day prison colossus While conventional histories emphasize the North s rehabilitative approach he shows how the retributive and profit driven regime of the South ultimately triumphed Most provocatively he argues that just as convict leasing and segregation emerged in response to Reconstruction so today s mass incarceration with its vast racial disparities must be seen as a backlash against civil rights Illuminating for the first time the origins of America s prison juggernaut Texas Tough points toward a more just and humane future **Prisons and Imprisonment** Cormac Behan, Abigail Stark, 2023-01-01

This textbook examines prisons and imprisonment Historically prisons and prisoners have been a source of interest to the general public However despite near universal acceptance of imprisonment as a feature of society we know relatively little about the reality of prison life or the effects it has on individuals and communities Using academic scholarship empirical research government papers policy reports and accounts from lived experiences of the institution this book analyses the complexities and contradictions of prison life the place of the prison in twenty first century society and its prospects for the future This book will introduce readers to key debates surrounding the use of imprisonment and challenge readers to interrogate conventional perspectives on an institution that reflects the society in which it is situated **Prison Conditions in Egypt** Middle East Watch (Organization), 1992 The first such report on Egypt by human rights organization including on site inspection and extensive interviews with current inmates Prison conditions in Egypt documents appalling conditions and practices It describes the filth and poor sanitary facilities in living quarters and hospitals tremendous overcrowding and prolonged daily confinement denial of medication attention the use of unauthorized physical violence against inmates and the imposition of particularly harsh living conditions on sentenced security prisoners and security detainees held without charge The report provides a detailed set of recommendations to the Egyptian authorities for improving the current conditions *English Local Prisons, 1860-1900* Sean McConville, Professor Sean

McConville, 2018-10-24 The local prisons of the latter half of the nineteenth century refined systems of punishment so harsh that one judge considered the maximum penalty of two years local imprisonment to be the most severe punishment known to English law next only to death This work examines how private perceptions and concerns became public policy It also traces the move in English government from the rural and aristocratic to the urban and more democratic It follows the rise of the powerful elite of the higher civil service describes some of the forces that attempted to oppose it and provides a window through which to view the process of state formation Public Law Mark Elliott, Robert Thomas, 2014 Public Law is an introductory textbook that offers a mixture of black letter law and political analysis to give students an excellent grounding in the subject It covers all of the key topics on undergraduate courses and includes a number of pedagogical features to aid understanding Criminal Justice in China Klaus Mu_hlhahn, Professor Klaus M?hlhahn, 2009-04-30 In a groundbreaking work Klaus Muhlhahn offers a comprehensive examination of the criminal justice system in modern China an institution

deeply rooted in politics society and culture In late imperial China flogging tattooing torture and servitude were routine punishments Sentences including executions were generally carried out in public After 1905 in a drive to build a strong state and curtail pressure from the West Chinese officials initiated major legal reforms Physical punishments were replaced by fines and imprisonment Capital punishment though removed from the public sphere remained in force for the worst crimes Trials no longer relied on confessions obtained through torture but were instead held in open court and based on evidence Prison reform became the centerpiece of an ambitious social improvement program After 1949 the Chinese communists developed their own definitions of criminality and new forms of punishment People's tribunals were convened before large crowds which often participated in the proceedings At the center of the socialist system was reform through labor and thousands of camps administered prison sentences Eventually the communist leadership used the camps to detain anyone who offended against the new society and the crime of counterrevolution was born Muhlhahn reveals the broad contours of criminal justice from late imperial China to the Deng reform era and details the underlying values successes and failures and ultimate human costs of the system Based on unprecedented research in Chinese archives and incorporating prisoner testimonies witness reports and interviews this book is essential reading for understanding modern China
