The Rule of Law and Governance in Indigenous Yoruba Society John Ayotunde Isola Bewaji, 2016-08-22 In The Rule of Law and Governance in Indigenous Yoruba Society

John Ayotunde Isola Bewaji has two main goals The first is to provide an exploration of aspects of indigenous Yoruba philosophy of law The second is to relate this philosophy of law to the Yoruba indigenous traditions of governance with a view to appreciating the relevance of the Yoruba traditions of law and governance to contemporary African experiments with imported Western democracy in the 21st century This book is devoted to what can be described as a juridical forensic investigation of Nigeria's predicament of developmental deficit leading to gross and unconscionable impoverishment of large segments of the population in the midst of so much natural resources and abundant human capital using Yoruba indigenous legal traditions as reflective template Bewaji urges that Africa has to take seriously the necessity of obedience observance enforcement and operation of law as no respecter of persons groups affiliations and pedigrees as was in the case in the societies founded by our ancestors rather than the present scenario whereby the highest bidder procures semblances of justice from a crooked system of common law which was never designed to be fair equitable and just to the disadvantaged in society

Citizens, Civil Society, and Activism under the EPRDF Regime in Ethiopia Camille Louise Pellerin, Logan Cochrane, 2023-07-15 In 2014-15 the Ethiopian government together with many academics and observers was surprised by the outbreak of anti government protests as large scale public contestation of the Ethiopian People's Revolutionary Democratic Front EPRDF had been largely absent in the regime's history The dominant narrative about the EPRDF regime was that it was a top down government using authoritarian methods to ensure the population abided by its visions and directives and describing its role in paternalistic ways such as being the protector and guardian of the people Changing this narrative Citizens Civil Society and Activism under the EPRDF Regime in Ethiopia considers how citizens and civil society expressed their interests and exerted their agency in an authoritarian setting Focusing on the EPRDF regime over a period of three decades up to 2019 the book explores civic activism in Ethiopia presenting diverse examples of how citizens have reshaped the country Challenging state centric readings of state society relations under EPRDF governance this collection provides a counternarrative that emphasizes the role and agency of citizens and civil society The contributing authors draw on a heuristic analytical framework that examines different types of interactions between civil society and state actors co-optation co-operation coexistence and contestation and captures the ways in which civil society actors make their voices heard At a time when authoritarian forms of governance are increasingly prevalent across the world this critically important collection offers insight into how citizens claim their agency and challenge state power in apparently top down contexts
