Governing The World Trade Organization Past Present And Beyond Doha:

Governing the World Trade Organization Thomas Cottier, Manfred Elsig, 2014-05-14 Discusses the various challenges the WTO faces and provides policy relevant ideas to reform WTO governance

Governing the World Trade Organization Thomas Cottier, Manfred Elsig, 2011-04-28 Like many other international organizations the World Trade Organization stands at a crossroads There is an obvious imbalance between the organization's dispute settlement arm and its negotiation platform While its current rules supported by a strong dispute settlement system have provided some buffering against the negative effects of the financial crises its negotiation machinery has not produced any substantial outcomes since the late 1990s It has become obvious that the old way of doing business does not work any more and fresh ideas about governing the organization are needed Based on rigorous scholarship this volume of essays offers critical readings on the functioning of the system and provides policy relevant ideas that go beyond incremental redesign but avoid the trap of romantic scenarios

Assessing the World Trade Organization Manfred Elsig, Bernard Hoekman, Joost Pauwelyn, 2017-04-27 This book challenges our understanding of the true role and impact of the World Trade Organization

The Oxford Handbook on The World Trade Organization Amrita Narlikar, Martin Daunton, Robert M. Stern, 2012-05-31 This handbook provides a holistic understanding of what the World Trade Organization does how it goes about fulfilling its tasks its achievements and problems and how it might contend with some critical challenges

Climate Change and International Trade Rafael Leal-Arcas, 2013-01-01 Rafael Leal Arcas expertly examines the interface of climate change mitigation and international trade law with a view to addressing the question How can we make best use of the international trading system experience to aim at a global climate change agreement The insightful book contributes to developing the architecture for a post 2012 global climate agreement and in doing so seeks and proposes new approaches to climate change mitigation by linking it to the international trade system The author suggests the adoption of a bottom up approach to climate change negotiations by using the evolution of multilateral trade agreements as a model for reaching a global climate treaty He discusses the innovative approach of inserting climate goals within regional trade agreements given their proliferation especially bilateral in the international trading system He explains the trade implications of climate change

mitigation policies by analyzing a couple of areas where the international regimes for trade and climate change mitigation may potentially clash. Climate Change and International Trade will strongly appeal to undergraduate and graduate students of international and European trade law, international and European environmental law as well as social science academics. NGOs, think tanks, practitioners, researchers, and international organizations will also find plenty of valuable information in this timely resource.

Small States in the Multilateral Trading System Laura Gosset, 2015-11-20. Developing countries including small states and least developed countries (LDCs) continue to face significant challenges within the global trading system. Action is required to allow them to overcome disadvantages and achieve sustainable levels of income from trade. This study provides a fresh perspective on how measures can be taken to enhance the participation of small states, many of which are Commonwealth countries in the multilateral trading system. It contributes to the ongoing general debate about reforming the World Trade Organization and global trade governance.

European Yearbook of International Economic Law 2014 Christoph Herrmann, Markus Krajewski, Jörg Philipp Terhechte, 2014-02-10. In 2014, the global economic system celebrates two anniversaries. Seventy years ago, on 22 July 1944, at Bretton Woods, New Hampshire, the Articles of Agreement of the International Monetary Fund (IMF) and the Articles of Agreement of the International Bank for Reconstruction and Development (World Bank) were adopted. Since then, the global financial and monetary system underwent significant policy changes, but the institutional framework remained the same. More recently, twenty years ago, on 15 April 1994, the Final Act of the Uruguay Round of Multilateral Trade Negotiations was signed, and its key component, the Agreement establishing the World Trade Organization, entered into force on 1 January 1995. Even though the beginning of the multilateral trading system dates back to the late 1940s, the founding of the WTO constitutes a significant institutional reform which marks the beginning of a new era. Anniversaries are usually moments of celebration. However, even a superficial observer will notice that neither the current international financial and monetary regime nor the international trade regime is in a stage which invites celebration. Instead, both are facing difficult and fundamental challenges to their very existence from the outside but also from within. So while there may be no time to celebrate, anniversaries are also often used for reflection about the past and the future. Hence, EYIEL 5 2014 considers these two anniversaries ample moments to reflect on the legacy and the current status of the main two pillars of International Economic Law. In its Part one, Part two of EYIEL 5 2014 brings together contributions on the EU's Deep Trade Agenda, on Current Approaches to the International Investment Regime in South America, on the Multilayered System of Regional Economic Integration in West Africa, and on the Tripartite Free Trade Area, as well as on India and her Trade Agreements. Part three contains treatises of developments in the World Customs Organization, the World Intellectual Property Organization, and in International Investment Law. After the book reviews in Part four, EYIEL 5 2014 is complemented with an Annex containing the Case on exchange rate manipulation and crisis caused guarantees to financial institutions and the Best Submissions of the 11th EMC2 ELSA WTO Moot Court Competition of the Harvard team for the

complainant and the Leuven team for the respondent The case not only addresses issues of current interest but also links the subjects of our two special focusses nicely together **International Economic Law in the 21st Century** Ernst-Ulrich Petersmann, 2012-07-24 The state centred Westphalian model of international law has failed to protect human rights and other international public goods effectively Most international trade financial and environmental agreements do not even refer to human rights consumer welfare democratic citizen participation and transnational rule of law for the benefit of citizens This book argues that these multilevel governance failures are largely due to inadequate regulation of the collective action problems in the supply of international public goods such as inadequate legal judicial and democratic accountability of governments vis a vis citizens Rather than treating citizens as mere objects of intergovernmental economic and environmental regulation and leaving multilevel governance of international public goods to discretionary foreign policy human rights and constitutional democracy call for civilizing and constitutionalizing international economic and environmental cooperation by stronger legal and judicial protection of citizens and their constitutional rights in international economic law Moreover intergovernmental regulation of transnational cooperation among citizens must be justified by principles of justice and multilevel constitutional restraints protecting rights of citizens and their public reason The reality of constitutional pluralism requires respecting legitimately diverse conceptions of human rights and democratic constitutionalism The obvious failures in the governance of interrelated trading financial and environmental systems must be restrained by cosmopolitan constitutional conceptions of international law protecting the transnational rule of law and participatory democracy for the benefit of citizens **Sustainable Development in International Law Making and Trade** Elisabeth Bürgi Bonanomi, 2015-09-25 This timely book provides an accessible insight into how the concept of sustainable development can be made operational through its translation into legal terms Understood as a multidimensional legal principle sustainable development facilitates coherent international law making Using this notion as an analytical lens on the WTO Agreement on Agriculture the book considers the unresolved question of what a sustainable and coherent agricultural trade agreement could look like **The Reform of International Economic Governance** Antonio Segura Serrano, 2016-05-05 The second half of the twentieth century saw the emergence of international economic law as a major force in the international legal system This force has been severely tested by the economic crisis of 2008 Unable to prevent the crisis the existing legal mechanisms have struggled to react against its direst consequences This book brings together leading experts to analyse the main causes of the crisis and the role that international economic law has played in trying to prevent it on the one hand and worsening it on the other The work highlights the reaction and examines the tools that have been created by the international legal field to implement international cooperation in an effort to help put an end to the crisis and avoid similar events in the future The volume brings together eminent legal academics and economists to examine key issues from the perspectives of trade law financial law and investment law with the collective aim of reform of

international economic governance **The Oxford Handbook of Institutions of International Economic Governance and Market Regulation** Brousseau/Glachant/S,2023-07-11 His handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online **Public Participation and Legitimacy in the WTO** Yves Bonzon,2014-10-09 Yves Bonzon describes the limits and potential of further formalizing public participation in WTO decision making Policy Space Conflicts in Global Trade Politics Qinyi Xu,Chuanjing Guan,2025-06-30 Policy Space Conflicts in Global Trade Politics delves into the structure driving forces and contemporary influencing factors of trade relations dynamics providing insights into the present and future trajectories of the global trade order The post pandemic global governance challenges combined with the concurrent if not concomitant escalation of economic rivalries between great powers are catalysing a weakening of the liberal international order undermining the very foundations upon which contemporary global production network is built With the return of geopolitical tensions the conflict over global governance versus state governance has again become the nexus where global trade politics are contested and negotiated This book presents the Policy Space Conflict framework an analytical framework that diverges from extant concepts of policy diffusion power transition socialisation and neo liberal institutionalist models of analyses and is instead advanced as a framework that renews the classic concept of policy space the space left for one to freely use preferred national policy instruments when integrated into the globalisation and institutionalisation process in the past decades The tensions inherent in and arising from policy space can be captured in the term policy space conflict illuminating the dynamic shifts regarding the convergence of rules under globalisation and de convergence concerns of states This book emphasises the underlying logic and motivating rationale that lie beneath the evolution of policy space conflict by theoretically revisiting the concept providing an overview of its forms in history since the Bretten Woods and transitions from market oriented to strategy based This exploration is examined using case studies drawn from real world trade politics which encompasses discussions on the decline of multilateralism the asymmetry in development between the Global South and Global North and China US institutional contestation This book will be of interest to scholars in the fields of international relations law political economy political science economics and international trade as well as a broad range of audiences who are concerned of global trade politics in times of global uncertainty *International Law and International Relations* David Armstrong,Theo Farrell,Hélène Lambert,2012-03-08 In this fully updated and revised edition the authors explore the evolution nature and function of international law in world politics and situate international law in its historical and political context They propose three interdisciplinary lenses realist liberal and constructivist through which to view the role of international law in world politics and suggest that the concept of an international society provides

the overall context within which international legal developments occur These theoretical perspectives offer different ways of looking at international law in terms of what it is how it works and how it changes Topics covered include the use of force international crimes human rights international trade and the environment The new edition also contains more material on non western perspectives international institutions and non state actors and a new bibliography Each chapter features discussion questions and guides to further reading

Agriculture, Price Stabilisation and Trade Rules Irene Musselli, 2017-07-31 In *Agriculture Price Stabilisation and Trade Rules* Irene Musselli offers a comprehensive doctrinal and historical analysis of stabilisation tools and approaches in agriculture Using her extensive practical experience in the field she takes up the interface of the tools discussed with trade rules and offers the first comprehensive analysis of WTO rules from the perspective of stabilisation policies This volume offers a fresh look at the tool box of managed trade in agricultural commodities and develops new and refined solutions that take into account the legal role of equity and of graduation Musselli offers new insights and is able to invigorate a debate caught in overly ideological entanglements between market oriented and interventionist schools

Routledge Handbook of International Organization Bob Reinalda, 2013-06-07 This Handbook brings together scholars whose essays discuss significant issues with regard to international organization as a process and international organizations as institutions Although the focus is on intergovernmental organizations IGOs non governmental organizations NGOs are discussed where relevant The handbook is divided into six parts Documentation Data Sets and Sources International Secretariats as Bureaucracies Actors within International Bureaucracies Processes within International Bureaucracies Challenges to International Organizations and Expanding International Architectures The state of the art articles are meant to encourage current and future generations of scholars to enjoy working in and further exploiting the field and are also of great interest to practitioners of international organization and global governance

Brexit: The Legal Implications Andrea Biondi, Patrick J. Birkinshaw, Maria Kendrick, 2018-11-29 If Brexit comes to pass what changes in the United Kingdom legal system will the world face when dealing with the UK The contributors to this penetrating new collection of studies a worthy successor to the widely read pre referendum Britain Alone bring a prodigious level of expert scrutiny to the myriad of ramifications of this hugely complex subject This book gathers together experts from different fields of legal practice and academia not only to discuss the ongoing negotiations but also and most valuably to highlight and address the legal implications of possible scenarios and solutions for a post Brexit United Kingdom and European Union With topical chapters based on the Brexit Seminar Series held by the Centre of European Law at King's College London the contributors address the challenges options opportunities and possibilities that the Brexit process may engender in such areas as the following constitutional and administrative law the European Economic Area and the European Free Trade Association EU State aid the Irish border the fall back position of the WTO rules should no agreement be achieved banking law financial services and capital markets debt restructuring and insolvency practice environmental issues

private international law tax citizenship social security and residence rights especially considering women and children Due to the unprecedented event that Brexit represents there is an insatiable need for knowledge and technical detail as to its possible legal implications This book in its thorough analysis of the ongoing Brexit process and its technical understanding of the meaning of Brexit for several substantive areas of law offers a solidly grounded and revealing exploration of the future that is particularly enlightening in explaining the challenges that the UK legal order is facing as a consequence of Brexit

International Standardization and Trade Regulation Sebastian Klotz, 2024-01-08 The open access publication of this book has been published with the support of the Swiss National Science Foundation As tariffs have fallen dramatically over the past decades behind the border measures such as technical barriers to trade TBT and sanitary and phytosanitary SPS measures have become increasingly important for international trade policy To facilitate trade governments sign trade agreements in which they agree to base such measures on international standards But who actually develops these standards This book takes a close look at the International Organization for Standardization and the Codex Alimentarius two prominent standard setting organizations in the area of TBT and SPS to investigate how international standardization influences the design of international trade agreements and vice versa On Trade Justice Mathias Risse, Gabriel Wollner, 2019-10-04 Trade has made the world Still trade remains an elusive and profoundly difficult area for philosophical thought This novel account of trade justice makes ideas about exploitation central giving pride of place to philosophical ideas about global justice but also contributing to moral disputes about practical questions On Trade Justice is a philosophical plea for a new global deal in continuation of but also at appropriate distance to post war efforts to design a fair global governance system in the spirit of the American New Deal of the 1930s This book is written in the tradition of contemporary analytical philosophy but also puts its subject into a historical perspective to motivate its relevance It covers the subject of trade justice from its theoretical foundations to a number of specific issues on which the authors account throws light The state as an actor in the domain of global justice is central to the discussion but it also explores the obligations of business extensively recognizing the importance of the modern corporation for trade Topics such as wages injustice collusion with authoritarian regimes relocation decisions and obligations arising from interaction with suppliers and sub contractors all enter prominently Another central actor in the domain of trade is the World Trade Organization The WTO needs to see itself as an agent of justice This book explores how this organization should be reformed in light of the proposals it makes In particular the WTO needs to endorse a human rights and development oriented mandate Overall this book hopes to make a theoretical contribution to the creation of an exploitation free world
