Andrews Sojourn George Peper, 2007-06-05 Read about what happens when golf writer Peper buys a house alongside the venerable Old Course in St Andrews Scotland *Hogan on the Green* John Andrisani, 2013-05-14 Putting is golf's great equalizer a seemingly simple aspect of the game whose surprising complexity has vexed both amateurs and pros for centuries But now for the first time ever you can learn to putt like the legendary Ben Hogan the winner of 9 major championships Recognized by many as the greatest ball striker and on target tee to green player of all time Hogan's prowess with the flat stick has often gone unnoticed But Hogan's proficiency on the greens was like none other when it came to sinking difficult putts under high stakes tournament conditions Hogan on the Green presents readers with a comprehensive illustrated analysis of Hogan's revolutionary system for sinking short medium and long range putts on a variety of surfaces Complete with easy to follow instructions for setup and stroke techniques as well as tips on putting strategy practice and mastering the mental game this book is a unique and invaluable resource for those looking to perfect their putting With anecdotal recollections and instructional commentary from those who knew Hogan best including 1964 US Open champion Ken Venturi and Herbert Warren Wind Hogan's collaborator on his classic 1957 bestseller Five Lessons Hogan on the Green also includes a host of practice drills and a special section of putting lessons from renowned golf coach Claude Butch Harmon Jr **Two**

Years in St. Andrews George Peper, 2008-06-30 The Old Course at St Andrews is to golfers what St Peter's is to Catholics or the Western Wall is to Jews hallowed ground the course every golfer longs to play and master In 1983 George Peper was playing the Old Course when he hit a slice so hideous that he never found the ball But in looking for it he came across a For Sale sign on a stone town house alongside the famed eighteenth hole Two months later he and his wife Libby became the proud owners of 9A Gibson Place In 2003 Peper retired after twenty five years as the editor in chief of Golf magazine With the younger of their two sons off to college the Peperes decided to sell their house in the United States and relocate temporarily to the town house in St Andrews And so they left for the land of golf and single malt scotch haggis bagpipes television licenses and accents thicker than a North Sea fog While Libby struggled with renovating an apartment that for years had been rented to students at the local university George began his quest to break par on the Old Course Their new neighbors were friendly helpful charmingly eccentric and always serious about golf In no time George was welcomed into the local golf crowd joining the likes of Gordon Murray the man who knows everyone Sir Michael Bonallack Britain's premier amateur golfer of the last century and Wee Raymond Gatherum a magnificent shotmaker whose diminutive stature belies his skills For anyone who has ever dreamed of playing the Old Course and what golfer hasn't this book is the next best thing And for those who have had that privilege Two Years in St Andrews will revive old memories and confirm Bobby Jones's tribute If I were to set down to play on one golf course for the remainder of my life I should choose the Old Course at St Andrews

The Athenaeum ,1919 **The Athenæum** ,1919 The Athenaeum James Silk Buckingham,John Sterling,Frederick Denison Maurice,Henry Stebbing,Charles Wentworth Dilke,Thomas Kibble Hervey,William Hepworth Dixon,Norman Maccoll,Vernon Horace Rendall,John Middleton Murry,1919 **On the Sweet Spot** Richard Keefe,2007-11-01 Like most moments of spiritual revelation this one took place on a landfill in New Jersey A young man is standing at an unprepossessing driving range hitting balls toward a distant fence when something unusual takes place As he begins his swing he has the sensation that his club is drawing itself back on its own when it is ready it starts downward makes perfect contact and the ball soars off in the right to left arc he d imagined hitting the exact fencepost he d been aiming at from 250 yards away He steps back and wonders if he can do it again He feels like an observer as the swing begins itself and resolves itself after perfect contact with the waiting ball which again smacks against the distant post He has for however brief a time entered the zone Everyone who plays a sport knows that fleeting ineffable sensation of everything falling into place The pitched baseball looks as big as a grapefruit the basket looks as wide as a trash can the players around you are moving in slow motion But as Richard Keefe the director of the sport psychology program at Duke University looked deeper into the nature of his experience he found profound links to the spirit the brain perhaps even the soul Keefe recognized that the feeling golfers and other athletes have of being in the zone is basically the same as a meditative state And as a researcher with experience in brain chemistry he went one step further If we can figure out what s happening in the brain at such times he reasons we can learn how to get into that zone instead of just waiting for it to happen This is the Holy Grail of sport psychology teaching the mind to get out of the way so the body can do the things it s capable of doing Keefe calls it the effortless present when the

body is acting of its own accord while the brain has little to do but watch All religions describe some kind of heightened awareness in their disciplines Keefe explores whether such mystical experience is a fundamental aspect of our evolution an integral part of what makes us human and keeps us from despair And he brings the discussion back to the applications of such knowledge reflecting on our ability to use these alternate planes to achieve better relationships better lives better moments Keefe s true subject is extraordinary experience being in the zone in the realm of effortless action On the Sweet Spot builds from the physical and neurological to the mystical and philosophical then adds a crucial layer of the practical how we can capture or recapture these wondrous states It is a work in the proud tradition of *The Sweet Spot in Time Flow The Psychology of Optimal Experience and How the Mind Works* [The Art of College Teaching](#) Marilyn Kallet, April L. Morgan, 2005 Teachers everywhere are confronted with a problem Whether at a small liberal arts college major research university or some other institute of learning instructors are continually challenged to create smart effective pedagogical techniques in order to be efficient in the classroom *The Art of College Teaching* is a first twenty eight insider essays about this process by distinguished and highly acclaimed teachers of note from across the curriculum including eleven Carnegie national award winners grouped here to uncover common values approaches and even debates among today s educators Rather than a rulebook for good teaching Professors Marilyn Kallet and April Morgan have assembled a wide variety of practitioner lore what successful teachers have learned to do well and what they re still seeking to master From the embarrassing to the inspirational contributors take us inside their classrooms to explain the light bulb moments that form the bases of their teaching philosophies making this collection reader friendly often humorous and very real Contributors take up a broad range of subjects setting boundaries with students teaching as performance the pros and cons of lecture versus active learning gaining students respect and keeping it creativity in the classroom encouraging diversity and many others The interdisciplinary approach allows for a stimulating mix of voices and kinds of expertise from takes on teaching by Nobel Prize Laureate James Buchanan to coaching strategies from champion ice skating instructor Robert Unger Theories about the right way to teach abound but like any art teaching isn t easily defined by guidelines or prevailing wisdom A narrative experiential approach to one of our most rewarding and demanding disciplines *The Art of College Teaching* is a book to be of use It is a handbook of ideas that will empower new teachers and refresh those who have been in the trenches for years
