this book also validates that since conspiracy theories can never be verified by objective research and truths they are one of the most problematic subjects to expose This book aims to answer these questions What are conspiracy theories Why do they arise especially in times of cultural upheavals Are they harmful What do the Christian Scriptures say about them Readers that are interested in religion Christianity and conspiracy theories would enjoy this book **850 Intriguing Questions**

Entrusted Barbara J. Blodgett, Behind all the issues of ministerial conduct and character lies a simple reality The heart of ministerial ethics and integrity argues Barbara Blodgett is trust trust expected trust earned trust practiced In **Lives Entrusted** Blodgett shows how trust is not an emotion or intention but a transaction People entrust each other with things they value and that interaction endows a relationship which in turn helps to create community Trust however is undermined by a number of trust busters common in the church including secrecy auditing gossip and b s By focusing on crucial practices of trust identified in terms of risk vulnerability and power Blodgett shows us how we may practice better trust and thus create a unique new framework for ministerial identity and ethics Mistrust Matthew Carey, 2017-10-15 Trust occupies a

unique place in contemporary discourse Seen as both necessary and virtuous it is variously depicted as enhancing the social fabric lowering crime rates increasing happiness and generating prosperity It allows for complex political systems permits human communication underpins financial instruments and economic institutions and generally holds society together Against these overwhelmingly laudable qualities mistrust often goes unnoticed as a positive social phenomenon treated as little more than a corrosive absence a mere negative of trust itself With this book Matthew Carey proposes an ethnographic and conceptual exploration of mistrust that raises it up as legitimate stance in its own right While mistrust can quickly ruin

relationships and even dissolve extensive social ties Carey shows that it might have other values Drawing on fieldwork in Morocco s High Atlas Mountains as well as comparative material from regions stretching from Eastern Europe to Melanesia he examines the impact of mistrust on practices of conversation and communication friendship and society and politics and cooperation In doing so he demonstrates that trust is not the only basis for organizing human society and cooperating with others The result is a provocative but enlightening work that makes us rethink social issues such as suspicion doubt and uncertainty
