Conventional Wisdom and American Elections Jody C Baumgartner, Peter L. Francia, 2019-11-12 During every election cycle political observers generate a seemingly limitless supply of theories opinions and predictions Unfortunately many of these assertions oversimplify complex subjects or overhype the latest political fads Inevitably some misinformation becomes part of the conventional wisdom about American elections The objective of *Conventional Wisdom and American Elections Exploding Myths Exploring Misconceptions* is to bring clarity to several of these subjects For example it is now commonplace for commentators to emphasize the negative tactics and practices of the campaigns of presidential candidates In 2016 some commentators suggested that the presidential campaign was the nastiest ever with the campaigns of President Donald Trump Hillary Clinton and their supporters going to new extremes of negativity However these claims are not new Dating as far back as the presidential election of 1800 critics of Thomas Jefferson stated that his potential victory would bring about legal prostitution and the burning of the Bible In 1824 opponents of Andrew Jackson charged that he was a murderer and that his wife was a bigamist Perhaps most scurrilous of all Jackson's opponents even accused his dead mother of being a prostitute In total *Conventional Wisdom and American Elections* identifies eleven widely held myths and misconceptions about elections in the United States The conclusions drawn throughout the book are based on the most current political science research In some instances the literature is clear in debunking popular myths about American elections On other issues research findings are more mixed In either case *Conventional Wisdom and American Elections* clarifies the issues so that readers can discern between those in which scholars have largely resolved and those in which honest debate remains

Defending Same-Sex Marriage Martin Dupuis, William A. Thompson, Traci C. West, 2006-12-30 Today we find ourselves at a crossroads of two powerful unrelenting currents that are completely at odds with one another The movement for legal recognition of same sex unions has gone beyond the separate but equal status of civil unions to demand equality in marriage for all couples Progress is being made on many fronts mayoral action clergy officiating at same sex marriage and union ceremonies state legislative responses

and street protests to name a few Meanwhile opposition to same sex marriage has also been gathering strength The struggle is sure to continue unabated for some time to come pitting those who believe in the traditional definition of marriage as a union between a man and a woman and who seek to codify this belief in the U S Constitution against those who find the basis for marriage between two loving committed individuals not only in the history of our civil rights legislation and court decisions but also in scripture and sacred religious traditions Those who believe in extending to same sex couples the 1 049 rights conferred by marriage as well as the supportive embrace of religious communities seek to strengthen the institution of marriage by making it inclusive and by passing laws and broadening doctrines to uphold marriage rights for all couples This three volume set clarifies the legal political religious cultural and social ramifications of same sex marriage for gay and lesbian couples and their families and friends and for the general public interested in the future of civil rights in the United States

Kriner,Andrew Reeves,2015-06-12 As the holders of the only office elected by the entire nation presidents have long claimed to be sole stewards of the interests of all Americans Scholars have largely agreed positing the president as an important counterbalance to the parochial impulses of members of Congress This supposed fact is often invoked in arguments for concentrating greater power in the executive branch Douglas L Kriner and Andrew Reeves challenge this notion and through an examination of a diverse range of policies from disaster declarations to base closings to the allocation of federal spending show that presidents like members of Congress are particularistic Presidents routinely pursue policies that allocate federal resources in a way that disproportionately benefits their more narrow partisan and electoral constituencies Though presidents publicly don the mantle of a national representative in reality they are particularistic politicians who prioritize the needs of certain constituents over others
