Individual Differences in Judgement and Decision-Making Maggie E. Toplak, Joshua Weller, 2016-11-25 Children face an overwhelming amount of information and a range of different choices every day and so there has never been a more important time to understand how children learn to make judgments and decisions in our modern world Individual Differences in Judgment and Decision Making presents cutting edge developmental research to advance our knowledge and

understanding of how these competencies emerge Focusing on the role of individual differences the text provides a complementary theoretical approach to understanding the development of judgment and decision making skills and how and why these competencies vary within and between different periods of development Sampling a diverse set of developmental paradigms and measures as well as considering typical and atypically developing samples this volume provokes thinking about how we can support our children and youth to help them make better choices Drawing on the expertise of a range of international contributors this book will be of interest to students and researchers of thinking and reasoning from both cognitive and developmental psychology backgrounds

Fighting the White Knight Jocelyn Turner, 2023-01-12 In her final year of teaching Jocelyn Turner spent over one fifth of each week administering mandatory tests and quizzes She spent the remaining time preparing students to take those specific exams regardless of the background knowledge and preparedness of individual students While she was testing she could not teach Teachers were expected to present the same Common Core based grade specific material to all their students at the same time whether Jake was reading at a first grade level or Taylor at a ninth grade level It was a rare and lucky child who fit the profile of the year's onslaught of tests Since No Child Left Behind US schools have been burying students in tests and then drawing often misguided conclusions when sometimes the only conclusion anyone ought to draw is that student X obviously spent hours staring at a set of questions he or she did not understand and maybe could not even read We have been told that US education is in crisis Ms Turner agrees In *Fighting the White Knight* she argues that government mandates created and are now perpetuating this crisis depriving children of remedial learning instruction time and personal attention *Fighting the White Knight* also looks at the 1.6 trillion student debt crisis a consequence of today's single minded college bound pipeline vocabulary deficits left to fester due to narrowly targeted curricula and the sneaky gutting of elective vocational technical and gifted education Ms Turner concludes by advocating for changes she believes can rescue American education guiding children back to the safe inspirational learning experiences of a more student focused time
